FINANCIAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 18th May 1886.

READ—

Letters dated 4th December 1885 and 14th January 1886, from the Superintendent of the Wesleyan Mission, and letter dated 17th March 1886, from the Vicar Apostolic, Bangalore.

No. 123—34, DATED OOTACAMUND, 18TH MAY 1886.

ORDER.—Under the late Chief Commissioner's Proceedings No 7431—F 690 dated 9th February 1881, the capitation allowance of one rupee per mensem for each famine orphan under 15 years of age was sanctioned for 5 years from January 1881 to December 1885. The allowance accordingly ceased on 31st December 1885.

2. The institutions in charge of the orphans have requested a further continuance of the grant, and the Dewan recognizes that the State is to some extent bound to accede to their request.

3. The Wesleyan Mission have also represented that the capitation allowance of one rupee per mensem should not be limited to those under 15 years of age, but that it should be continued to all boys under 20 years and to all girls under 18 years. In the opinion of the Mysore Government, this concession is more than what the circumstances of the case require, and they therefore regret that they are unable to grant it.

4. An alternative proposal submitted by the Wesleyan Mission is that the orphanages at Tumkur and Hassan are virtually industrial institutions, to which the Government may very properly sanction grants-in-aid of Rs. 100 and 50 respectively per mensem. The Government recognize that at the orphanages above referred to, the inmates are now trained for various industrial pursuits, but it seems very doubtful whether they can be maintained as permanent industrial institutions and whether, after the famine orphans leave them, other boys and girls will be found willing to join them. Under such circumstances, His Highness' Government are unable to sanction special grants-in-aid for these orphanages.

5. What would meet the case of all institutions which up to the end of last year received the capitation allowance of one rupee per mensem—and the Government are bound to treat all such institutions alike—is to remove the limit of date prescribed by the Chief Commissioner's Proceedings, dated 9th February 1881, above quoted, and to make the capitation allowance in question payable in respect of every famine orphan till he or she attains 15 years of age.

6. In regard to the allowance of Rs. 25 for each orphan girl at the time of her marriage, sanctioned in Chief Commissioner's Proceedings No. 5456—1435, dated 4th November 1880, the Dewan is pleased to direct its continuance till 31st December 1890, subject to the conditions (1) that no lands have been taken up on account of such girl on the favorable terms sanctioned by the late Chief Commissioner, and (2) that she is married before leaving orphanage.

7. The District officers are requested to arrange for the payment of the capitation allowance to the various institutions entitled to them under the terms of para 5 above with effect from 1st January 1886. The marriage allowance referred to in para 6 above should also be similarly paid.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Superintendent of the Wesleyan Mission, Bangalore.
The Vicar Apostolic, Roman Catholic do
The Deputy Commissioners.
The Comptroller.

PART I.

GENERAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore. (General),—dated 4th May 1886.

READ—

The following docket No. 436, dated 7th April 1886, from the Senior Surgeon, Mysore Government :—

Has the honor to request that the Superintendent of the Government Press may be authorized to print 400 copies of the enclosed scales as noted in the margin and to forward the same to this office, as soon as possible.

A Scale
B. Scale.

A

Scale of fees for attendance at private residences.

		In the larger Towns.			In the smaller Towns.		
For Native and Assistant Surgeons, Warrant Officers & Civil Apothecaries.	For an ordinary visit by day	2	0	0	1	0	0
	Do do night	3	0	0	2	0	0
	For a confinement or severe operation, including the subsequent necessary visits.	30	0	0	15	0	0

In cases of two or more visits in one day being necessary, the maximum charge for such attendance shall not exceed amount of two single visits.

In each case it might be left to the Municipality or Local Fund Board concerned, in communication with the Civil Surgeon, to fix the scale which should be adopted with reference to the size and means of the town, and also to lay down such rules with reference to the private practice of the Medical agents, as shall prevent interference with public duties (*vide* Circular, Surgeon General, Madras, dated 13th April 1880, and General Order, Financial Department No 588, dated 19th March 1880).

It is not necessary that these rules should interfere with private arrangements come to by mutual agreement between Medical attendants and patients.

B

Scale of fees (medical attendance on private patients at their residences) and travelling allowance for Hospital Assistants.

Distance.	Fees for Hospital Assistants.			Travelling allowances. Whole year in maidan and from 1st November to end of May in Malnad.			From 1st June to end of October in Malnad only.		
	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.
In town for an ordinary visit by day	0	8	0	0	0	0	0	0	0
In town for an ordinary visit by night	1	0	0	0	0	0	0	0	0
1 Mile from Town	0	10	0	0	2	0	0	4	0
2 do	0	12	0	0	4	0	0	8	0
3 do	0	14	0	0	6	0	0	12	0
4 do	1	0	0	0	8	0	1	0	0
5 do	1	2	0	0	10	0	1	4	0
6 do	1	4	0	0	12	0	1	8	0
7 do	1	6	0	0	14	0	1	12	0
8 do	1	8	0	1	0	0	2	0	0
9 do	1	12	0	1	2	0	2	4	0
10 do	2	0	0	1	4	0	2	8	0
11 do	2	4	0	1	6	0	2	12	0
12 do	2	8	0	1	8	0	3	0	0
13 do	2	12	0	1	10	0	3	4	0
14 do	3	0	0	1	12	0	3	8	0
15 do	3	4	0	1	14	0	3	12	0
16 do	3	8	0	2	0	0	4	0	0
17 do	3	12	0	2	2	0	4	4	0
18 do	4	0	0	2	4	0	4	8	0
19 do	4	4	0	2	6	0	4	12	0
20 do	4	8	0	2	8	0	5	0	0

Rupees 7—8—0 for a confinement, or severe operation ; this charge to include the subsequent necessary visits (*vide* Madras General Order 27th June 1874).

In case of two or more visits in one day being necessary, the maximum charge for such attendance shall not exceed the amount of two single visits.

If required to travel at night half additional fee from November to May, and twice the ordinary fee from June to October. Dak charges will remain the same.

If detained for a full day a fee of Rs. 5 is chargeable, and for each succeeding day Rs. 5 also ; but it is not desirable that Hospital Assistants should remain away from their Dispensaries except in cases of great urgency.

Travelling over 20 miles will probably seldom occur, but the rates should be computed as above when it does occur.

The scale of fees is designed to prevent unreasonable charges, and need not interfere with private arrangements mutually agreed upon between Hospital Assistants and parties requiring their services.

The same travelling charges to be allowed for the return journey as on that when the Hospital Assistant proceeded to visit the patient.

Hospital Assistants in charge of Local Fund Dispensaries are prohibited accepting fees from persons attending their Dispensaries, and they are expected to attend at Head-quarters poor persons in their own houses who may, from illness, &c., be unable to come to the Dispensary.

No. 1195-1203—14, DATED 4TH MAY 1886.

ORDER THEREON.—The Dewan is pleased to authorize the above scales recommended by the Senior Surgeon, and directs their adoption accordingly.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Senior Surgeon, with 400 copies.
All Deputy Commissioners.

AD—

Letter No A., dated 29th April 1886, from the Deputy Commissioner, Hassan District, submitting proposals for forming the establishments required for the Hassan District and General Assistant's offices and for the Taluk Cutcherry of Arkalgud.

No. 8—17, DATED OOTACAMUND, 4TH MAY 1886.

ORDER THEREON.—In forming the establishments for the Hassan District and eneral Assistant's offices, and the Arkalgud Taluk Cutcherry, sanctioned in Proceedngs of the Dewan No. 136-45—7, dated 29th March 1886, the Acting Deputy ommissioner proposes to give promotion to 2 officials from the Bangalore District, 1 rom Tumkur District, 3 from Kadur District and 1 from Mysore District, besides ntertaining 3 retired officials, 3 Palace umedwars and 3 supernumeraries. He states hat Shamanna and Ramanna, who belonged to the late Hassan Sub Court and Geeral Assistant Commissioner's office respectively, and who are now employed in the Mysore District on a reduced salary, have not been provided for, because the name f the one was omitted in the list sent by the Deputy Commissioner of the Mysore District and because the entertainment of the other would dislocate the proposed rrangements. He also urges strongly the addition of a statistical clerk to the stablishment already sanctioned for the District office.

2. The Dewan is pleased to sanction the entertainment, from 1st May 1886, of an additional hand, to be styled the Municipal and Statistical Clerk, on Rs. 25 per mensem, to be paid from the Municipality and the District Funds in equal proportions.

3. In regard to Shamanna and Ramanna above mentioned, the Dewan observes that they have a claim for appointments on a salary not less than Rs. 25, which they were drawing before the reductions of 1882. The Deputy Commissioner of Hassan will be requested to provide for them accordingly in his District. This can readily be done either by appointing two of the new men on Rs. 20 instead of on Rs. 25 as proposed, or by promoting an official on Rs. 15 to 20 instead of to Rs. 25. Some such arrangement is necessary, though it will involve the non-entertainment *immediately* of two of the young men proposed to be entertained.

4. The proposal to appoint Venkataramanaiya, Taluk Sheristadar of Ma^n^jarabad, to act as District Head Accountant during the employment of Narasimha Murti on other duty is approved.

5. With the foregoing remarks, the proposals of the Deputy Commissioner of Hassan are approved, and the appointments requiring the confirmation of the Dewan are hereby confirmed.

6. The Deputy Commissioner of Hassan having, as above detailed, provided as far as possible for the deserving men of Bangalore, Mysore and Kadur Districts, the Deputy Commissioner of Chitaldroog will be requested to give due consideration to officials who may have been recommended to him by the Deputy Commissioners of Shimoga, Kolar and Tumkur.

Chief Secretary.

To—The Deputy Commissioner of Hassan District.
Copies to other Deputy Commissioners and Comptroller.

From the Superintendent, Mysore Government Museum, To the Chief Secretary to the Dewan of Mysore, No. 24, dated Bangalore, 7th May 1886.

I have the honor to submit the Annual Report of the Mysore Government Museum for the information and orders of Government.

2. I took over charge of the Institution from Brigade-Surgeon J. Henderson, M. D., on the forenoon of the 27th April 1885.

3. *Statistics of Visitors.*—The total number of visitors during the year under report was 246,291, or 58,444 less than attended in the previous year, and 82,621 less than the average of the past five years. I cannot account for this apparent falling off, as the attendance consists largely of country people who come to Bangalore on business and pleasure, and whose presence appears to be as numerous and orderly as ever. But I am somewhat sceptical as to the correctness of former statistics and the Curator has been requested to keep a very careful tally in future. The average attendance at the Central Museum, Madras, is only 234,501. The number of men and boy visitors was in the proportion of 58·7 per cent of the total against 56·98 in the previous year. Female visitors were in the proportion of 41·29 per cent against 43·01 in 1884—85. Of the general visitors, 14·87 per cent signed their names in the visitors' book, whereas in the previous year only 11·83 per cent were able to sign. There are no arrangements at present to enable *gosha* ladies to visit the Institution, and I am informed by the Curator that several Muhammadan gentlemen have expressed a wish for this. Tables showing the details of attendance by all classes are hereto appended.

4. *Condition of the Building.*—Before I took charge, application had been made to the Executive Engineer to inspect and report on some cracks which appeared at the corners of the ceiling. Mr. Scaldwell has watched these attentively and is of opinion that they are due to a slight settling in the foundation. There is no danger, but he deprecates any further deepening of the tanks near the Museum. The doors and windows have been painted and portions of the building color-washed by the Department, Public Works.

5. *Taxidermist's Godown.*—Application was duly made for the erection of this, but nothing has been done in the matter, as we require the godown to be within 300 yards of the main building and the Superintending Engineer is of opinion that such an erection would disfigure the Park. The side room, which is now unavoidably occupied by surplus stores and the taxidermist, could, in the event of a godown being given, be utilized as a library and reading room.

6. *Library.*—A catalogue of the books was compiled and printed by the Curator, but shortly after this was done, the collection was greatly enriched by the transfer of 65 volumes from the Government Library. We have now 650 volumes in good order, and I would be glad if the reading public could have access to these. Dr. Thurston has kindly provided me with the Rules and Regulations applying to the Library and Reading Room of the Government Central Museum, Madras, a copy of which I append to this report.

7. *Rearrangement of Specimens.*—The want of a systematic classification is felt, and although this cannot be fully carried out until a more suitable form of exhibition case is provided, still, we have considerably improved matters by careful rearrangement. The collections of arms, musical instruments, brass-ware and pottery, &c., will now evidence this. A marked effect has also been produced in many of the cases by placing the specimens on a ground of colored paper. For example, white coral shows up much better when placed on a dark blue ground, and so on. Large photographs of various temples, &c., have been framed and hung along the pillars in the central hall. I have also utilized a few large palampores representing Hindu deities to brighten up conspicuous blanks on the walls.

8. *Specimens acquired.*—The total number of specimens received by purchase and donation was 1,066 against 328 in the previous year. Some of these are important and require a brief special notice.

9. *Raw Produce and Manufactures.*—Additional specimens under this heading amounted to 630, out of which nearly 300 was presented by the Lal-Bagh. They consisted chiefly of collections of oil-seeds, pulses, dyes and tans, cottons, fibres, gums and dried fruits. Many of the indigenous trees of the Province yield large quantities of gum and resin and, in view to learn something of the commercial value of these products, I am anxious to obtain considerable quantities for export, and estimation by experts. But a work of this kind requires hearty co-operation, and I would be grateful to Forest officers and planters for any assistance which they can afford by contributing specimens and information. Similar enquiries are needed in regard to fibres, and I am already indebted to Mr. Sparks, Superintendent of the Central Jail, for placing labor at my disposal to prepare a small collection of local and introduced fibres.

10. *Botanical Drawings.*—It occurred to me that a series of drawings representing the most valued garden and field crops of the Province would be an acquisition to the Museum, the description being printed in English and Canarese. This work has been commenced and, as the public seem to take an interest in it, I will push it on as quickly as possible.

11. *Coins.*—The total acquisitions under this head numbered 90, of which 4 were gold, 14 silver, 71 copper and 1 iron.

Gold.—Of the 4 gold coins, one was presented, 2 obtained by exchange with Captain Tufnell's collection and 1 purchased. The latter is a *Rama Tanki Varaha*, the most valuable coin now in the collection, and for the purchase of which, the Dewan kindly sanctioned the sum of Rs. 100. The coin was brought to my notice by Captain Tufnell, a gentleman who is deeply versed in numismatology.

Silver.—Of 14 silver coins, 5 were presented and the remainder obtained by exchange.

Copper.—65 coins were presented and 6 obtained by exchange.

An iron coin was obtained by exchange.

The whole collection now stands thus,—259 gold, 201 silver, 1,026 copper, 24 zinc, 23 plated, 8 gilt, 6 lead and 1 iron.

12. *Brass—ware.*—I am indebted to Mr. Standish Lee for having procured me a collection of brass utensils commonly used by the people of Mysore, some of which are held sacred.

13. *Minerals.*—Few additions have been made to this section, but enquiries have been made by several commercial men as to the quality and probable outturn of *Asbestos* in Mysore. We have specimens of this rare mineral from several Districts, and I am told that in one or two places it is plentiful. Mr. Lansdale, a prospector, who visited Bangalore a few months ago, was provided with a specimen to enable him to make further enquiries in the Districts.

14. *Museum of Natural History.*—The mammals in this department are not in good condition, and I am anxious to improve matters in some way. A few of the best specimens have been placed under glass cases, where they will be properly preserved, but what we really require is a mere experienced taxidermist. The present man is very willing, and with a few month's special training he would do good work. Having this in view, I asked Dr. Thurston if he would kindly allow our man to be attached to his staff at the Central Museum for a few months, a proposal to which the Superintendent has obligingly assented. If Government approves of this arrangement, I will send the taxidermist down to Madras for a period of 4 months. Major Cowie has again rendered good service by assisting the taxidermist to collect birds in the field. 250 specimens were thus obtained.

15. *Labelling.*—Descriptive labels have been provided for several hundred articles, and it is intended to go through the whole collection systematically, revising and reprinting where necessary.

16. *Establishment*—The establishment remains as before. Mr. B. Santappa continues to render excellent service and takes an active interest in his work. In addition to his regular duties, he has collected many specimens and electrotyped a number of gold and silver coins.

17. *Donations.*—A full list of the donations received is hereto appended. It will be seen that the chief donors were Mr. T. Raghavendra Rao, Kadur; Captain R. H. C. Tufnell, Madras; and Mr. E P. Lovery, Shimoga.

APPENDICES.

A

General List of the contributions, &c., received for the Mysore Government Museum, from 1st April 1885 to 31st March 1886 :—

Copy of a letter from Dr. Thurston, Superintendent of the Central Museum, Madras, dated April 8th, 1886.

Dear Mr. Cameron,

I found your letter of March 22,on my return from a tour on the W. Coast yesterday.

Our Library and Reading Room are open to the public gratis every day except Sunday, from 6·30 A. M to 5 P. M. They are opened at such an early hour to suit Europeans, who find time to come and consult books before breakfast.

Books are given out on "requisition slips" on which are entered the catalogue number of the required book and the signature of the receiving party. Only one book is entered on each slip, which serves the double purpose of checking issues and classifying the books which have been referred to, at the end of the year. No visitor is allowed to open the book cases or remove books from them. No books except note books are allowed to be brought into the Library. We enforce absolute quiet and turn any one out who reads out loud or makes a noise.

The European periodicals which we take in are both literary and scientific. We also take Madras Mail, Times and Standard, the Illustrated London News and Weekly Edition of the Times.

Each book or periodical, when it arrives, is entered in a register and stamped in two places, *viz.* the fly leaf and some page inside; the number of which is entered opposite the name of the book in the register to facilitate identification in case of theft.

I only allow books to be taken out by Government officials who require them for specific Government purposes and this only on special occasions, as I do not want the Library to become a circulating one.

Natives are admitted *provided they are cleanly and decently clothed.* In fact the majority of visitors is composed of native students at the various Colleges, who give hardly any trouble.

The Library is presided over by a Head Librarian who has an assistant. Both are natives and their respective salaries are Rs. 25 and Rs. 10 a month.

The purchase of books is kept up out of an annual grant of Rs. 1,800 from Government.

I enclose one of our requisition slips.

Of course I shall be only too happy to give you any more definite information which you may be in need of.

Proceedings of the Dewan To His Highness the Maharaja of Mysore, (General),—dated 12th May 1886.

I don't see my way at present to visiting Bangalore though I very much want to. I am sure however to be up sometime during the hot season.

Yours Sincerely,
(Signed) EDGAR THURSTON.

Heads of Departments.

ID—

Letter from the Deputy Commissioner of Chitaldroog District, No. 52, dated 7th May 1886, submitting proposals for the formation of establishments for the District Office of Chitaldroog and Taluk Cutcherries of Molakalmuru and Jagalur.

No. 106—15, DATED OOTACAMUND, 16TH MAY 1886.

ORDER.—In the arrangements proposed for forming the office of the Chitaldroog istrict and the Taluk Cutcherries of Molakalmuru and Jagalur, the Deputy Commissioner has given promotion to 30 officials of the late Sub-Division and its Taluks, 2 officials from the Tumkur District, 1 from the Kadur District and 1 from Shioga District, besides providing for four retired officials, 2 Palace Umedwars and 6 upernumeraries. He has also entertained a graduate on Rs. 40 and 9 new men on alaries of Rs. 20 and under.

2. The arrangements, as proposed, make no provision for the late Tiptur unasta Srinivasa Rao and Palace Umedwar G. Subba Rao included in the list, ent to the Deputy Commissioner, of men to be provided for. This is probably due o an oversight, as the Deputy Commissioner gives no reason in explanation of the mission. The arrangements should be modified to the extent necessary to supply this mission.

3. The list submitted by the Deputy Commissioner shows that Abdul Rahim Mekri, a graduate with no experience of office work, is proposed to be appointed as Treasury Head Accountant. The appointment is one of considerable importance and equires a man, having a special training for treasury work. Mekri will do well as n English Clerk, and he should be appointed on the proposed pay or on a slightly educed pay either in the English or the Revenue Department. For the Treasury Head Accountant's place, some official with good treasury experience and with a fair nowledge of English would be desirable.

4. The Deputy Commissioner in letter No. 22, dated 23rd April 1886, requests anction to the entertainment of two hands on Rs. 20 each in addition to the estaolishment already sanctioned for his office. On a full consideration of the requirements of the District office, an additional Clerk, to be styled the Municipal and Statistical Clerk, on Rs. 25 to be paid from the Municipality and District Funds in equal proportions was sanctioned for the Hassan District office. The Dewan is pleased to anction the entertainment of a similar hand for the Chitaldroog District office with effect from 1st May 1886.

5. As regards the Peons' establishment required for the new Taluks of Jagalur nd Molakalmuru, it would appear from para 7 of the Deputy Commissioner's letter under eply, that the 2 Dafadars and 10 Peons for each of the two Taluks for which sanction s solicited are solely for the Amildar's office use. This number seems to be in excess of the actual requirements, and the Deputy Commissioner will be requested to submit a statement showing the number of Peons attached to the Amildars in other Taluks of his District.

6. With such modifications as may be rendered necessary in giving effect to the foregoing remarks, the proposals of the Deputy Commissioner are approved and the appointments requiring the confirmation of the Dewan are hereby confirmed.

7. The Deputy Commissioner is requested to submit in the accompanying form the final arrangements made by him for record in this office and for communication to the Comptroller.

Regarding the cultivation of melons in the river bed at Hunsur and Seringapatam.

No. 1648-56—72, DATED 18TH MAY 1886.

ORDER THEREON.—The cultivation of melons and vegetables in the river bed is undoubtedly injurious and cannot be permitted. If there is any cultivation this season, it should not be disturbed, and the melon-growers should be warned against cultivating the bed the next and the ensuing seasons.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Mysore District.
The Deputy Commissioner, Shimoga District, for information; it is believed that melons and vegetables are grown in the beds of the Tunga and Bhadra in the towns of Shimoga and Holé Honnur, &c.
Other Deputy Commissioners.
The Senior Surgeon to Mysore Government for information.

MEMORANDUM.

The Mysore Famine Code.

1. The "Abstract of a Famine Code for Native States," copies of which were kindly furnished to me by the Officiating Resident in August 1885, was very carefully considered by His Highness the Maharaja's Government, and they arrived at the conclusion that with the administrative machinery at our disposal, we ought to be able to prescribe and carry out a Famine Code, somewhat more elaborated than the "Abstract."

2. When this Abstract was received, the season prospects were giving cause for grave anxiety, and arrangements were being actually made to meet an apparently impending scarcity in the north and north-eastern parts of the Province. These arrangements were all based upon the Rules contained in the Madras Famine Code and in the Provisional Famine Code prescribed for other British Provinces by Circular No. 44 F, dated Simla, the 9th June 1883.

3. Since then, the opinions of the principal officers of the State have been obtained on the provisions of a Famine Code for Mysore, and the Durbar have come to the conclusion that it will be best to adopt the Provisional Famine Code, with such modifications as may be required to adapt it to our circumstances and administrative machinery. These modifications are briefly referred to hereunder:—

1*st. Chapter I. Village Organization and Relief.*—This will be adopted with the necessary verbal alterations. We have a fairly good village organization, and it will be utilized as far as possible.

2*nd. Chapter II. Duties of Civil Officers.*—There is no Revenue Commissioner in Mysore. Mr. Ricketts has been appointed Director of Statistics and Agriculture, and on him will devolve the duties assigned to the Central Officer in the "Abstract of Famine Code for Native States." *Vide* Appendix A which lays down his duties generally. The responsibility for Famine Relief should rest with the District Officers who will be in direct communication with the Government, the Executive Head of which, in a small Province like Mysore, should be able directly to control the administration of relief. With the aid of the Director of Statistics and Agriculture and the Chief Secretary, I hope to be able to avoid the creation of a separate Famine Commissioner and a separate Famine Secretary who cannot, for obvious reasons, have the experience of the Province, which is indispensable for the efficient control of relief operations. The District Officer may, where necessary, have an extra Assistant Commissioner for the routine work of his District. The present Department of Public Works staff may perhaps be found inadequate, but the deficiency will be in the lower grades of Overseers, of whom the requisite number can easily be always procured. I apprehend no difficulty in regard to Medical officers. We have at present 64 Hospital Assistants, 10 Assistant Surgeons and 3 Civil Surgeons.

3*rd. Chapter III. Civil Agency Works.*—The Rules on this subject will be adopted, but a very large provision of works of the nature described in Section 30 is considered essential in this Province. These works should form the principal Civil Agency works, and this question is fully explained in the following extract from my address at the last Dasara meeting.

"There is, however, one point connected with the administration of relief, upon the importance of which His Highness' Government lay special stress. In their opinion, it is essential that a scheme of relief, in order to be efficient, must provide, on an extensive scale, for works specially intended for the relief of the agricultural population in the vicinity of their villages. Our main object should be to prevent the dispersion of families in quest of distant works. Near every inhabited village, it will be easy to provide abundance of suitable work, such as the improvement of tanks, the making of wells and village roads, the improvement of the existing local sanitary arrangements, the digging and weeding of fields, the construction of Sagavali Kattés and other similar works. The employment of the people on such works will enable them to return to their homes at the end of each day's work, and thus it will be possible to preserve the mutually helpful bonds of village society. The early commencement of works of this kind is of paramount importance, for, it is only in that way that we can induce the people to resort to relief works at the outset. Experience shows that in the earlier stages of distress, they prefer to cling to their homes upon unwholesome or insufficient food rather than seek employment on distant works. It is only when even such food fails and when emaciation sets in, that they leave their homes in quest of work or food, and enter upon that career of aimless wandering which was so fruitful a source of suffering during the last Famine."

"In organizing relief measures therefore, my first endeavour was to arrange for a programme of works near the homes of the people. For some of the most affected parts of Tumkur and Chitaldroog, such a programme has already been mapped out, on the principle of leaving no inhabited village without suitable work within a radius of 3 miles. It is in contemplation to complete the programme at an early date for the whole of the area likely to be affected by a succession of bad seasons."

The works of the above description should be under the immediate control of the Patels and Shanbhogs of the villages concerned, and these officials may, where their ordinary remuneration is insignificant, as is often the case in unsettled taluks, be given a small salary if absolutely necessary. The works in a Hobli will be inspected at least once a week by a Shekdar, and in special cases, a Hobli may be divided into 2 or more circles, each subject to the inspection of a separate officer of the position of a Shekdar. The Amildars and Deputy Amildars will be expected constantly to visit

every part of their charge and to control the various works in progress, the ordinary Taluk work being left to the Sheristadar, or in special cases to an extra Deputy Amildar to be newly appointed by Government.

In addition to works above described, intended for the relief of the agricultural population, there will be other Civil Agency works:—

(*a*) for which funds have been assigned in the current year from Municipal Funds;

and (*b*) for which Municipal Funds have not been so assigned, but which would be undertaken in the ordinary course in future years from Municipal Funds.

Works from Local Funds in Mysore are now executed by the Department of Public Works. It is probable that hereafter Local Fund works within a certain money limit will be transferred to the Revenue authorities. When such a change is made, these works will be dealt with in the way provided above for works from Municipal Funds.

4th. *Chapter IV. Professional Agency Works, to Chapter X, Wages and Rations.*—The Rules of these chapters will be adopted with the necessary verbal alterations.

5th. *Chapter XI. Accounts.*—Rules under this chapter will be framed as far as possible in accordance with the Rules in the Madras Code.

4. *General.*—The Durbar should arrange, as in British Provinces, for the Government of India being kept constantly informed, through the Resident, of full particulars connected with Famine, its extent and measures adopted for relief of distress.

5. A Code in accordance with the foregoing remarks is under preparation, and when it is ready, it will be submitted for the consideration of the Government of India. In the meantime, the Provisional Famine Code, with the modifications above referred to, should be accepted as a guide by all officers of the Mysore State. This Memorandum will accordingly be communicated to Deputy Commissioners and all Heads of Departments for information and guidance.

OOTACAMUND,
18*th May* 1886.

K. SHESHADRI IYER,
Dewan.

APPENDIX A.

No. 5331-18—195, DATED 15TH DECEMBER 1885.

ORDER.—Mr. Ricketts was appointed "Inspector General of Police" by orders contained in Proceedings No. 1265—69, dated 27th October 1885. It is now necessary to consider what other duties may advantageously be assigned to him.

2. The reasons which made it desirable to place the Police under a separate officer apply with equal force to the Forest Department also. This department is of very great importance, and formerly it was presided over by a Conservator of Forests. When, after the late famine, the question of reduction of establishments was under consideration, the Government of India *expressed the opinion that it would be inexpedient to abolish, at any rate immediately, the appointment of Conservator of Forests in Mysore. The Government of India, however, approved of the Forest Department in each District being placed under the immediate control of the Deputy Commissioner, and they remarked that "the plan of placing Forest officers in charge of the Forest in Civil Districts, and subordinating them to Deputy Commissioners, promises good results. This, at least, is the experience of the Central Provinces and the Bombay Presidency, wherein it has been adopted with advantage. But to ensure similar success in Mysore, there must be a professional head of the Forest administration, to whom the District Forest officers should be subordinate in all professional and departmental matters. Moreover, if the Forests are placed entirely under Deputy Commissioners, there would be risk of

* *Vide* para 7 of letter to Chief Commissioner, Foreign Department, No. 1641, dated 8th August 1878.

their management in the different Districts being regulated on no systematic plan. It would vary according to the individual views of each officer."

3. Subsequently, towards the close of 1878—79, with the permission of the Government of India, the Forest Department as an independent branch of the administration was abolished, and the local Forest officers in each District were placed under the orders of the Deputy Commissioner. And the office of the Conservator of Forests being abolished, the late Chief Commissioner directed that, pending the reorganization of the Forest Department, all accounts and periodical returns, &c., should be submitted to the Secretary to the Chief Commissioner, and that only such references as may be absolutely necessary should be made on important Forest matters. (*Vide* Chief Commissioner's Proceedings No. 3080—3103, R. F. 454, dated 23rd January 1879.) On the rendition of the Province, the supervision exercised by the Chief Commissioner devolved upon the Dewan.

4. The Dewan is of opinion that it would conduce to the efficiency of the Department to place it under the immediate control of an officer who would be able to pay frequent visits to the Forests, and to devote his personal attention to the operations of the Department and to a proper scrutiny of its accounts of income and expenditure. In the maidan portions of the Province, the reserving and proper working of fuel tracts and the rearing of new plantations of useful trees require such attention to details as cannot be expected from the executive head of the administration.

5. Under such circumstances, His Highness the Maharaja's Government are of opinion that it is desirable to appoint an officer to be styled the "Inspector General of Forests and Plantations". The District administration in Forest matters will, as heretofore, vest in the Deputy Commissioner, aided by the present establishment of Forest officers and servants, but the general control of the Forest administration throughout the Province will vest in the Inspector General of Forests and Plantations, through whom the District officers should submit all matters requiring the orders of Government.

6. The existing arrangements for the collection and scrutiny of statistics—agricultural, vital and economic—also require revision. The report of the Indian Famine Commission lays special stress upon all measures connected with the administration of Famine Relief being placed definitely and permanently under some special branch of the Secretariat of every Government, and it recommends the formation in each Province of a special Agricultural Department, the duties of which in ordinary times would mainly consist in the collection of facts relating to the condition of the agricultural community and the agricultural produce of the country.

7. In a small Province like Mysore, it is perhaps unnecessary to have a separate Department of Agriculture, but recent experience has shown that it is absolutely necessary to have at the head-quarters an officer of standing and experience who could "collect and deal with the statistical returns relating to the weather, the agriculture, the health and well being of the people, and thus secure the most prompt and accurate knowledge attainable of a probable failure of crops, and of the extent and consequences of any failure that actually takes place." Such an officer may be styled the "Director of Statistics and Agriculture"; and, in ordinary times, he will, in addition to the collection of statistics, devote his attention to the improvement of agriculture and of the breed of cattle; and will exercise a general control over measures required for the improvement and maintenance of tanks and other works of irrigation. He will have charge of all the records of past famines, and will take note of all that is being usefully done or learnt in neighbouring Provinces. "When a famine is thought to be impending," he would supply the Government "with all statistics bearing on the subject and would be responsible for working out from them the conclusions on which the decision as to future action would mainly rest. When a famine is in progress, all the information relating to relief measures, their extent, their cost, their results" would be collected and presented by him to the Government in a "uniform and intelligent manner."

8. The village servants, Shekdars and Taluk establishments should be utilized the fullest extent possible in the collection of accurate statistics,—agricultural, tal and economic,—and the Treasury officer at each District head-quarters ould test and compile these statistics for each District. This officer will be subdinate to the Deputy Commissioner of the District, but, as regards the compilation d submission of statistics, he will be specially under the orders of the Director of griculture and Statistics, who will be the adviser of the Government on all matters lating to agriculture and statistics.

9. His Highness the Maharaja's Government, however, believe that the work ove indicated will not, in ordinary times, be sufficient fully to occupy a separate icer, and they accordingly resolve to combine the office of Director of Statistics d Agriculture, with those of the Inspector General of Police and of Forests and antations, and to appoint Mr. Ricketts for combined offices.

10. The creation of these offices will not involve any increased expenditure on count of the subordinate establishments required. The present Police office the Dewan has already been transferred to Mr. Ricketts, and the Forest and antation offices will also be similarly transferred. For statistical work, the requie number of hands can be transferred from the Dewan's Revenue and Account Dertment, and the Agricultural Inspectors appointed by Proceedings No. 4358-67—90, ted 27th October 1884, together with those to be similarly appointed in the curnt year, will be available for work connected with agriculture and plantations in e various Districts.

11. The salary to be allowed to Mr. Ricketts for the combined offices of spector General of Police, Inspector General of Forests and Plantations and Dictor of Statistics and Agriculture is fixed at Rs. 1,500 per mensem, with a fixed welling allowance of Rs. 150 per mensem, with effect from the date on which he sumed charge of the office of Inspector General of Police.

R. VIJAYINDRA RAO,
Secretary.

—L. Ricketts, Esq., Inspector General of Police.
The Comptroller,
The Deputy Commissioners of Districts and Sub-Divisional officers.
The Superintendent of Forests and Plantations, Mysore.
The Assistant Conservators of Forests, Bangalore, Shimoga,

No. 178—98, DATED OOTACAMUND, 20TH MAY 1886.

ORDER.—Ordered that the foregoing Memorandum be communicated to Deputy mmissioners of Districts and Heads of Departments for information and guidance.

R. VIJAYINDRA RAO,
Chief Secretary.

—The Deputy Commissioners of Districts.
Heads of Departments.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 20th May 1886.

No. 168—77, DATED OOTACAMUND, 20TH MAY 1886.

ORDER.—The reconstitution of six Taluks and the consequent abolition of seven Deputy Amildars' charges have necessitated a revision of the scale of Deputy Amildars. The existing number of Deputy Amildars is 11, and these shall be graded as follows :—

5 *Deputy Amildars of the* 1*st Class on Rs.* 70 + 15 *Rs. Horse Allowance.*

1. Gulam Ahmed Khan, Deputy Amildar of Kumsi.
2. Raghavendra Rao, do of Channapatna.
3. Raghavendra Rao, do of Seringapatam.
4. Kumarasami Nayik, B. A., do of Hosdurga.
5. Narasimha Murti Rao, do of Grama.

6 *Deputy Amildars of the 2nd Class on Rs.* 50 + 15 *Rs. Horse Allowance.*

1. Tirunaranaiengar, Deputy Amildar of Koratagere.
2. Alasingraiengar, do of Yedahalli.
3. Mahomed Ali Khan, do of Turuvekere.
4. Gulam Mohadin, do of Gudibanda.
5. V. N. Gopal Rao, do of Srinivaspur.
6. Sitaramaiya, do of Huliyar.

2. The above scale shall come into effect from 1st April 1886.

R. VIJAYINDRA RAO.
Chief Secretary

To—Deputy Commissioners of Districts.
The Comptroller.

READ—

Letter No. 1558—548, dated 20th March 1886, from the Deputy Commissioner of the Kolar District, reporting upon a petition from Subbi Reddi, Patel of Pulgal in the Bagepalli Taluk, complaining that his Service Inam land has been ordered by the Chikballapur Munsiff's Court to be partitioned between himself and the Shanbhog.

No. 237—45, DATED OOTACAMUND, 25TH MAY 1886.

ORDER THEREON.—The land is clearly Service Inam and as such should be in the possession of the working Patel. The Civil Court had no jurisdiction in the case, and, as Government was not a party to the suit, the decree cannot bind the Deputy Commissioner who is requested to resume possession of the land in question pending orders as to the amount of cash remuneration to which the officiator Patel will be entitled by reason of such resumption.

2. If however the possession has already been given to the decree-holder, the Inam tenure should be cancelled and the land should be fully assessed.

3. The action taken in accordance with the above orders should be reported, as also the amount of cash remuneration which should be assigned to the Patel in lieu of the land in question.

4. Vernacular Proceedings are returned.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Kolar District, with Proceedings.
The other Deputy Commissioners.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Public Works Department),—dated 18th May 1886.

No. 2222—395, DATED BANGALORE, 18TH MAY 1886.

ORDER.—The services of Mr. A. R. Becher having, under instructions from the Foreign Office, to be replaced at the disposal of Public Works Department to the Government of India, the transfer of Public Works Accounts to the Comptroller and of the management of the State Railway open lines to Mr. McHutchin, Executive Engineer, has been ordered and these arrangements are now being effected. The Mysore Durbar cannot, however, allow Mr. Becher to leave the Province without placing on record their high appreciation of the valuable service rendered by that officer during the period of his connection with the Mysore State.

II. Mr. Becher joined the Mysore Public Works Department in 1879, a Examiner of Public Works Accounts. On the rendition of the Province to His Highnesss the Maharaja, Mr. Becher's services were, by special request, retained in the same capacity, and in 1882, the managership of the Mysore Railway was entrusted to him in addition to his other duties. In 1883 he proceeded on furlough, returning to India in 1884, when he resumed his former duties. These he continued to perform to the entire satisfaction of the Durbar up to the present date, and the satisfactory financial administration of the Mysore Public Works Department, as well as the efficient working of the Mysore Railway, they cannot but attribute largely to Mr. Becher's control during the above mentioned period.

III. In replacing his services at the disposal of the Government of India, the Durbar trust that he will, in due course, receive the promotion due to his meritorious service whilst employed in Mysore.

C. BOWEN, MAJOR, R. E.,
Secretary to the Government of Mysore,
P. W. D.

To—A. R. Becher, Esq., Examiner, Public Works Accounts, and Manager, Mysore State Railway.

PART II.

JUDICIAL.

PART 1.

REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 5th June 1886.

Read the following papers :—

Extract from Dewan's Proceedings No 4461-9—125, dated 29th August 1881.

* * * * *

6. With regard to the question of partial remission of the assessment on wet lands laid waste from want of water, the Dewan observes that the necessity for such indulgence arises from the fact that though the survey assessment is based as regards water-supply upon a fair average of a number of years, it is not possible as a matter of fact for ryots in ordinary circumstances to pay the comparatively high rates of assessment on the wet lands which they are obliged to leave waste, and the refusal to show them a reasonable consideration in such cases leads to their getting these remissions in the more objectionable form of irrecoverable balances, or sometimes to the objectionable system of their throwing up lands at the beginning of the year, and again taking them up when the prospects of rain and water-supply become assured. This opens a door to collusion and fraud on the part of the Shanbhogs, and it is of great importance to encourage the ryots to retain their lands without such needless relinquishments and reoccupations of lands. The proposal therefore to levy only a half assessment on wet lands laid waste while showing reasonable consideration where needed, will be uniform in its action, and will not be open to the objections which exist in regard to remissions generally. The levy of the half assessment will act as a sufficient deterrent against lands being needlessly laid waste.

7. The following Rules therefore are provisionally sanctioned on the subject :—

I. Entire fields of wet lands or other lands irrigated from Government works laid waste will be allowed a remission of half their assessment.

II. The above rule is not to apply to lands irrigated from river channels or other perennial and abundant means of irrigation, in which case the remission will only be allowed if the source of irrigation has breached or is otherwise not available for irrigation.

III. The above remission is not claimable as a right, and where the occupant of the land is found to keep the land waste for more than one year, from mere neglect and not from any want of water, or with the view of using it for pasture and other purposes, the remission will not be allowed.

8. It will be seen that where the irrigation is not of a permanent kind no enquiry is required in regard to the insufficiency of the water, or the cause of the land being laid waste in the first year. The object is to protect the ryots from any annoyance by such enquiry and even where the lands are waste through mere neglect the Government will have the advantage of using the water to other lands, whilst the half assessment, as already observed, will be a deterrent against any wilful neglect on the part of the ryots.

9. Any difficulty need be apprehended only where the fields, whether in surveyed or unsurveyed taluks, are large and the ryots are induced to throw the whole field waste even when they are able to cultivate a portion, in view to secure the remission. But this difficulty would to a great extent be removed under the measures adopted to subdivide such large areas into fields of convenient size, and the levy of the half assessment will in all cases be a sufficient protection for the interests of Government.

10. The settling officers should personally enquire into these remissions and satisfy themselves in every case that the fields have been examined by proper officers and have really lain waste. An individual statement of the remission should also be submitted to the Government for sanction.

Notification by the Dewan to His Highness the Maharaja of Mysore, No. 151, dated 30th August 1881.

The following Rules on the subject of granting remissions on wet or irrigated lands laid waste are provisionally sanctioned :—

I. Entire fields of wet lands or other lands irrigated from Government works laid waste will be allowed a remission of half their assessment.

II. The above rule is not to apply to lands irrigated from river channels or other perennial and abundant means of irrigation, in which case the remission will only be allowed, if the source of irrigation has breached or is otherwise not available for irrigation.

III. The above remission is not claimable as a right; and where the occupant of the land is found to keep the land waste for more than one year from mere neglect and not from any want of water or with the view of using it for pasture and other purposes, the remission will not be allowed.

READ—

Letter No. 1419—515 of the 25th November 1881, from the Deputy Commissioner of Kolar.

No. 7162-9—219, DATED 7TH DECEMBER 1881.

ORDER THEREON.—The remission of half assessment on entire fields of wet lands laid waste was sanctioned as a special case in the expectation that it will meet the great body of cases of lands laid waste from want of water without the necessity of any enquiry into individual circumstances. This remission cannot be extended further to cases of entire or partial loss of crops without leading to the objectionable features of remissions in general which it is the object of the Survey settlement rules to put an end to. It would necessitate an individual enquiry which is open to great objection and it would be difficult to distinguish between entire and partial losses of crops. Such cases moreover must in most parts of the Province be comparatively limited, and though the Dewan is aware that the Kolar District is more exposed to these failures of crops in the Kartika crop cultivation in bad seasons, it is not possible to extend the remission to them without opening a door to abuse.

2. There would also then arise the question of wet land cultivated with dry crop without irrigation in respect of which also the remission may, with some fairness, be claimed. But any relaxation of the general rule that all lands are to pay under all circumstances the assessment fixed upon them by the Survey either in the above case or in the case of entire loss of crops cannot be sanctioned without the risk of abuse and interference with the principles of the survey settlement.

3. If, in seasons of entire failure of water, it is found necessary to authorize the cultivation of dry crops on all the lands under a tank, or if the crops should entirely fail in bad seasons over a whole tract of country or over the whole area under a tank from its breach or other causes, a special report should be submitted recommending for previous sanction the measures of relief required in such cases.

No. 2497—81, DATED 30TH JULY 1885.

ORDER.—In Proceedings No. 4461—123, dated 29th August 1881, certain rules were sanctioned authorizing the remission of half assessment on entire fields of wet land remaining uncultivated owing to failure of irrigation. These rules have now been in operation for four years, and as their adoption was sanctioned provisionally, it is desirable to institute an enquiry into their practical working. The Deputy Commissioners and Sub-Division Officers will accordingly be requested to report whether the system of partial remission of wet assessment above referred to has been found to afford any real relief to ryots engaged in wet cultivation; and whether, in their opinion, the system has prevented, to any appreciable extent, the practice of relinquishing wet lands at the beginning of the year, to take them up again when the prospects of water-supply became more assured. It should also be reported whether, as the result of the rules in question, any material increase has taken place in the area of wet land under occupation.

It is obvious that a system of remission of assessment depending upon an annual inspection of individual holdings entails heavy work upon local revenue officials and is very difficult of control and liable to be greatly abused. The Dewan desires to learn the extent to which frauds or attempts at fraud have been discovered in each District in connection with the rules in question.

The Deputy Commissioners and Sub-Division Officers are requested to submit the report above called for as soon as possible, together with returns in the appended form.

Letter from L. Ricketts, Esq., Deputy Commissioner, Bangalore District To the Secretary to the Dewan of Mysore, No. 923, dated 23rd February 1883.

I have the honor to request that you will be good enough to lay this letter before the Dewan.

2. Without disrespect to the late able Dewan, it may be stated that there has been considerable conflict of opinion as to the advisibility of the recent orders regarding remission on wet lands.

3. Those who argue in favor of such remissions think that if they be granted, it will encourage cultivators to take up more lands and thus increase the area of cultivation, which under certain tanks is undeniably small; but I scarcely think this a sound argument, inasmuch as in time the practice will obtain of large holdings with the cultivators deliberately cultivating parts in rotation and claiming remission on the portions left waste in alternate years.

4. It may be that the Settlement Department have pitched the rates somewhat too high in the case of garden lands, but I do not think this can be said of ordinary wet lands under tanks and where in reality the rates are low. In fact so low that with proper cultivation, the profits in a good season and with favorable prices must be considerable.

5. The profits of such good seasons should be set against bad years and though in the latter case, the loss to a ryot who has a large holding may be great, still, he has had his equivalent of gains proportionate to such loss in favorable years. Government does not step in and claim a share of these profits by charging extra assessment in good years and I do not see how the ryots in consequence can justly claim any remission in the years when the crops fail or are indifferent.

6. But it may be argued that the ryots are improvident, and that they don't husband the resources of good years to pay for bad years. Improvidence of this nature is to be met everywhere, even in the case of coffee estates, where in fact the assessment, looking at the yield and value of the crop, is very light indeed. The best way to foster provident habits is not by encouraging improvidence, but by inducing the people to curtail the size of their holdings, and rest content with small profits and be prepared for small losses. Thus in time, provident habits will be gained and then the ryots will extend the size of their holdings, make profits when they can and be prepared to meet losses, should they arise.

7. As a matter of fact, however, I very much doubt whether the ryots, as encouraged by the prospect of half remissions in the case of bad years, will take up appreciable greater areas in good years. For instance, say the tank wet revenue of a district be four lakhs of rupees and half remissions in the case of a bad year be one lakh, then in a succeeding good year, I don't think the wet revenue will jump to five lakhs, but go up to its old level of four lakhs and perhaps something over, but nothing equal to the one lakh of assessment remitted in the bad year.

8. Wet cultivation cannot be much increased by special inducements, it depends much upon the number of people and facilities in the way of manure, &c.

9. To deal with particulars, the wet remissions in this District last year, amounted to nearly Rs. 16,000. That it was so little is attributable to cultivators not then realizing the full value of the concessions granted to them and to the rule, which I am bound to add has given much discontent, that those who actually sowed seed were not to participate in the half remission boon. In other words, as the ryots often put it to me, those who began to cultivate in the hope of benefiting themselves as well as Government and who expended labor in ploughing and money for seed were not to get remissions if their crops failed; whilst their lazy neighbours, who did nothing and spent not a pie, got half remission. If anything, I think the rule should have been reversed and the diligent cultivator, who timely set to work but was disappointed by failing rain held entitled to the half remission and not the man who held back.

10. The returns of the present year are not ready, but I think it will be found that the wet revenue has not increased beyond its normal amount, *viz.*, the same as realized last year plus the Rs. 16,000 of wet remissions. If it be found that it has not only reached its normal level plus the remissions, but also increased in a sum about equal to the said remissions, then, I admit that a better case will be made out as to the advisibility of this new remission system.

11. As people begin to better understand the remission rules, the numbers of cases in which the land will be left waste must be expected to increase considerably, to say nothing of those numerous cases in which the ryots having been taught a lesson not to begin cultivation till fairly assured of realizing a harvest (by their being allowed no remission of dried crops) will also allow their lands to be waste.

12. Supposing the coming year be a year similar to the one I am now referring to, the remissions to be granted will not be only Rs. 16,000, but probably three times that amount, a very serious loss in itself, and becoming startling in its grand total for the whole Province. And, as already stated, the loss of a bad year will never be recouped or anything like it in a good year.

13. The labor involved upon Amildars to make the necessary certificate in the case of last year's 16,000 Rs. worth of remissions has been enormous. The manual labor in this Office has likewise been very great, and in the Secretary's Office, it must have been greater still and these remission statements come in late and confuse the accounts of one year by their running into the next.

14. When these remissions become double or treble their present amount, the Amildars will require help in making the necessary certificates. Lower subordinates will have to be deputed for the purpose and thus (an immense evil of itself) the door will be thrown open for petty frauds and favoritism, or what is almost as bad, the suggestion or charge by troublesome characters that such fraud or favoritism has been exercised. The enquiry into such cases will of itself involve an infinity of trouble and report writing.

15. It has to be stated that the settlement rates are based upon averages of bad and good years, and consequently this new concession seems not only uncalled for, but will entail a very heavy loss of revenue with no corresponding advantages.

16. The system of batayi has in great measure interfered with individual holdings of wet land, and then came Mr. Bowring's rule of granting whole areas on an average assessment to one or two individuals, and when this system broke down, the land still remained undivided into separate holdings, separately assessed. The operations of the Survey and Settlement Department are rectifying all this, and wet land is not only being steadily taken up, but is actually acquiring an increasing saleable value. And this, I submit, is a strong argument against the further retention of the new system, for if even under the old system of granting no remissions, wet land is acquiring a saleable value, it proves that the old system is sound, or at least does not operate as a bar to what may be termed the wet land industry, and this saleable value is not a mere temporary spurt, but is yearly increasing in proportions, as more people, especially of the wealthier classes, are taking to agriculture, either as a pastime, or as means of profit.

17. The cost of keeping tanks in order is great, and unavoidable losses are periodically incurred by breaching of tanks, so that it behoves Government to realize as much wet revenue as possible.

18. Lastly, if it be determined to continue the new system, I would beg to suggest that the Settlement Department be instructed hereafter not to base their assessment upon averages of bad and good seasons; but on good seasons alone, and this enhancement in a good season will recoup the loss of half remissions in bad seasons. The same would also have to be done in the case of existing settlements when their term expires. I would, however, respectfully urge on the consideration of the Dewan the advisability, fonly on financial grounds, of reverting to the old system, and instructing the Survey Department, where necessary, to lessen the size of large wet holdings, so that the agricultural classes will have no excuse for cultivating more land than their means admit of.

Letter from L. Ricketts, Esq., Deputy Commissioner, Bangalore District, To the Secretary to the Dewan of Mysore, No. 632, dated 14th September 1885.

In reply to Dewan's Proceedings No. 2497—81, dated 30th July last, I have the honor to submit a statement giving particulars, Talukwar, of the wet revenue of the District, and remissions granted since the year 1878—79.

2. It will be seen therefrom that the wet revenue has steadily risen from year to year, and that the remissions granted under the circular referred to, were heavy in the year it was given effect to, *i. e.*, 1881—82, and have come down to about a third of it during the two subsequent years. In 1884—85, however, the remissions are estimated to be about four times the amount of remission granted in 1881—82. But the year last past was an exceptionally bad one for wet cultivation.

3. No frauds have been brought to notice, but a solitary attempt here and there seems to have been promptly detected and punished.

4. There is no systematic resigning of wet lands in bad seasons, and taking them up again in good years, in this District. Wherever the lands are of any value they are stuck to by the pattadars through good and bad seasons alike, for fear of their losing them, if they once resign by others applying for them earlier.

5. The increase noticed in para 2 above, is attributable to other causes than the operation of the Circular in question, which has lost to the State many thousands of rupees.

6. The causes of increase may be briefly described below :—

(1.) Rise in prices of paddy and straw, which of course creates a great extra demand for wet land.

(2.) The general improvement of tanks.

(3.) The operation of the settlement in certain taluks, which has not only caused an immediate increase of wet revenue; but by creating individual holdings where there was only the unpopular batayi system before has caused a steady demand for such holdings or separate numbers.

(4.) Some 3 or 4,000 rupees of the increase can be accounted for by additions to certain taluks of this District from late Devanhalli Taluk and other taluks of neighbouring Districts.

(5.) The area of wet land around Bangalore, which commands a saleable value, is yearly increasing and in proportion to the land thus bought up by the wealthier classes is waste wet land taken up for cultivation elsewhere.

7. In the Proceedings of the Dewan now under reply, reference is made to the wet land remission circular as if it only applied to entire fields remaining uncultivated, "owing to failure of irrigation"; but this is not the case and the rule for remission applies as per para 8, "even where the lands are waste through mere "neglect," and it is this anomoly which creates such discontent in those who have actually gone to the expense of ploughing, manuring, sowing seed and weeding. These men when their crops fail are expressly declared not entitled to the remission.

8. If it were not for the words quoted above, the words in para 8 "it will "be seen that where the irrigation is not of a permanent kind" taken in connection with Rule II of Para 7 might be interpreted to mean that remission was not to be granted when there was a tank full to overflowing. In other words that remission was to be granted only in case of failure of water. It would be better to accept this latter interpretation; but better still it is urged, to repeal the Circular altogether and along with it many other Circulars explanatory of the original one.

9. In my long experience of the Bangalore District I can remember no general hardships or impoverishment experienced by not granting the remissions which are now sanctioned by the Circular under reference. I am pretty sure that no private tank owner would ever grant half remission to a cultivator, who refused or neglected to avail himself of water that was at his disposal; and even if he granted such half remission when the land was waste from failure of water, it would only be on the condition that he charged a proportionately larger rent when water was available. He would either do this or strike an average for good and bad years alike. This is what Government has done through its Survey and Settlement Department and it should adhere to such average rates. To alter them under certain conditions not only raises a question as to the utility or advisability of such relaxation; but also opens a wide door for fraud and abuse, and tends to lower the moral and self respect of those to whom the remission rules apply or is attempted to be held to apply.

10. In conclusion I beg to refer you to my letter to your address of the 23rd February 1883. That letter was written hurriedly on eve of my departure for England, but it contains the general grounds on which the advisability of the then wet land remission rules are questioned by me.

Letter from C. Soob Rao, Esq., Deputy Commissioner, Kolar District, To the Secretary to the Dewan of Mysore, Revenue Department, No. 1208—422, dated Mulbagal, 31st December 1885.

Adverting to the Dewan's Proceedings No. 2497—81, dated the 30th July last calling for a report on the practical working of the existing rules regarding the grant of half remissions on account of wet lands laid waste under tanks for want of irrigation, I have the honor to submit as follows.

2. In the first place, the system of remissions may be generally objected to on the ground that it is contrary to the principles of the Survey Settlement the object of which is to obviate all necessity therefor. It is true that the survey assessment has been based on the average of the past 30 years revenue, but it must at the same time be remembered that this period includes many good seasons in which the normal condition of rain-fall was very steady and the seasons far more regular than they have of late been in this part of the country especially during the past four years. Further the advantages the ryots derived under the batayi cultivation which extensively prevailed far outweighed those under the strictly money assessment system of the present day, as the former largely supplemented their stock of grain and thereby enabled them successfully to combat with the adversities of a number of seasons. It also appears that the yield of crops was much more abundant than what it is now. The late famine, the dire effects of which are still felt in some parts of the District, has deprived most of the well-to-do ryots of all their capital and made them live from hand to mouth. There is no doubt that the out-turn of crops, especially during these unfavorable

years, has been below the average. The loss of wet cultivation presses, therefore, in these days heavily on the land holders. I cannot for the above reasons advocate the entire abolition of the system of remission on wet lands in years of drought. The framers of the survey and settlement rules could not possibly have foreseen the present circumstances warranting such a measure.

3. With regard to the existing system of half remissions on which I am to report, I beg to state that in its present form, it is fraught with all sorts of evils and open to abuse on the part of petty officials. The collection of necessary statistics of cultivation, and the task of an elaborate inspection of individual holdings have been left to the village Shanbhogs, as they cannot possibly be accomplished by responsible Taluk officers, whose percentage inspection of fields and checking is amidst the multifarious duties devolving on them, found nothing but nominal. Besides, the system becomes more complicated and misleading when the area of wet land laid waste under a tank bears a very small proportion to that actually cultivated, in which case it is extremely difficult to ascertain satisfactorily whether or not the lands have lain fallow for *failure of irrigation* which is an essential condition of the rules. In some places it also happens that ryots keep their lands fallow for an ulterior purpose of their own, or for want of capital or labor required to be bestowed thereon. Some of them purposely refrain from cultivating their lands, because they considered that pasturage derivable therefrom is of greater importance for their cattle, or that a temporary cessation of cultivation thereon will better fit them for raising superior crops. It is evident that in such cases the grant of remissions is a mere waste of Government money and cannot operate as a relief to needy ryots concerned. Further, the existing rules provide for a remission if entire fields of wet land are laid waste for want of water in the tank, but in cases as those enumerated above it is not possible to arrive at the truth without an inspection of the land and local enquiry into individual circumstances, which leads to needless complications and commission of fraud by interested persons in collusion with the village servants.

4. For these reasons, I submit that no indulgence ought to be shown except when extensive tracts of wet land, say not less than ¾ or ⅞ of the occupied area, under a tank have lain fallow on account of failure of rain or any other reasonable cause. The concession being of a special nature, the extent to, and the localities in, which it should be granted can, I think, be satisfactorily ascertained, when the occasion therefor really arises. The past experience shows formulation of any general rules on the subject which are apt to be abused as described above may not adequately meet varieties of difficult cases requiring to be dealt with.

5. The returns received from the Taluks show fluctuations year by year in the area of wet land under occupation. This is due partly to the alteration of boundaries of Taluks in 1882, and partly to the increase and decrease in the cultivation. So, it is not possible to say how far the figures in these returns are governed by the rules in question, nor can it be safely asserted that the practice of relinquishing wet lands at the beginning of the year to take them up again when the prospects of water supply become more assured, has to any appreciable extent been prevented by the system of granting half remissions.

6. Copies of reports from the Assistant Commissioners, together with prescribed return, are also submitted herewith.

Letter from P. N. Krishna Murti, Esq., Deputy Commissioner, Tumkur District, To the Chief Secretary to the Dewan of Mysore, No. 91—1, dated 21st May 1886.

I have the honor to acknowledge the receipt of the Dewan's Order No. 2497—81 of 30th July last and in reply to submit the following statement of my opinion on the subject of granting remissions on wet lands allowed to be waste.

2. Before proceeding to discuss the extent to which the objects aimed at by the order of Government, dated 29th August 1881, have been realized, I beg to

describe briefly the practice which has come into existence in pursuance of that order. For I believe this practice is not quite uniform in all the Districts so much so that in cases where under the orders remissions ought to have been granted as a matter of course the concession has been refused either because there was water in the tank, or the land-holder was at fault in not bringing his land under cultivation. Another cause of diversity refers to the treatment of mixed numbers containing wet land in part only. In a few of such cases remissions have been granted, while in others they have been refused. In addition to the above diversity of practice, I have to point out that during the last five years there have been many disturbing causes on account of the uncertainty of seasons in more than two years, and the Government have given special concessions during this period. It will thus be seen that the statistics of the past five years do not afford accurate and reliable data for forming a correct judgment of how far the figures have been affected by Mr. Rangacharlu's orders under consideration. To build any conclusion therefore on the figures embodied in the statement herewith sent as bearing upon the order under reference, is neither sound nor safe.

3. With regard to the order itself and the rules framed in accordance with them, I beg to observe that they are very vague, incomplete and difficult of execution. The word tank is not used. All wet lands irrigated from "*Government Works*" with the exception of those under "*river channels or other perennial and abundant means of irrigation*" are to have remissions. It is doubtful whether lands irrigated by what are locally called "Talapariges" and dams across weir channels of tanks come within the definition or not, such lands have however not been granted the benefit of the rules, as also those under channels led off from small streams. But it is difficult to justify the exclusion on any rational grounds. Again the third rule says that the remission cannot be claimed as a matter of right, and adopting this view I am aware that several cases, in which lands which were laid waste, were refused remissions even in the first year. The word wet land used in the rules does not comprise all the classes of land which should receive remissions. As the Dewan is aware, a good many fields technically called bagayat or garden have been always cultivated with paddy, and except in name they do not vary from wet lands proper. These are more heavily assessed than the wet lands proper and yet the rules do not allow any concessions in favor of such lands and this is a hardship which will, unless removed, be anomalous. Another description of lands is what is partly dependant upon tanks and upon wells. These are as a rule not brought under the benefit of the rule. It should not be forgotton that the wells are themselves more or less dependant upon tanks and when the tanks dry, the springs in the wells die out. Nevertheless often times the lightly assessed lands depending upon tanks alone enjoy concessions which the more heavily assessed ones depending upon a tank as also upon wells do not. These considerations will show that the rules cannot be worked equitably and the practice already described shows that they have not been worked uniformly. While it cannot be disputed that remissions have certainly granted relief to such of them as have obtained them, it cannot but be admitted that the orders have operated as a check upon honest industry and prevented the sowing of dry crops on wet lands. Rather than derive a comparatively small benefit by sowing dry crops, the ryots have been led to keep their lands waste in their fondness to obtain remission and this has mischievously affected the production of grain. Whatever fallacy there may be in the popular belief on the subject, it has been found impossible to convince such of the ryots as have suffered from the failure of crops that their cases are not worse than those of waste land holders, giving relief to idlers and refusing it to the industrious, have been ever a source of irritation and discontent and the result is the more keenly felt as the cause of difference in the treatment has not been sufficiently and satisfactorily explained. The difficulty of getting correct and trustworthy statistics does not enter the head of a land-holder who has lost his crop, the fruit of his labor and capital, and any explanation founded upon this circumstance will be at once incomplete and unconvincing.

4. With regard to the enquiry as to how far "Yeksale" darkhasts and razinamas have been affected by the rules under consideration, the figures, as I have already stated, do not furnish correct data for forming an opinion, but the general

impression founded upon observation and experience of myself and of the other experienced Revenue officers, such as Mr. Krishnaiengar, Amildars Ramachandra Rao, and Hanumantaiya, is that the rules have not reduced this practice to any appreciable degree and that the rules have failed in attaining this object.

5. No frauds have been detected during the past five years, but this circumstance does not enable me to say that there have been no frauds at all.

6. For the above reasons, I am of opinion that the rules of 1881 have been found wanting and that they should be repealed or considerably modified.

7. With regard to the question whether remissions should be granted for wet lands lying waste or on which the crops have failed, I beg respectfully to submit that our Revenue settlement takes into consideration the incidents of a long period extending over twenty years. In this period batayi system has been in existence, Bengar or half remissions have been granted; when therefore the actual collection of the revenue, remissions and prices of this long period have all entered into the considerations on which the rates have been fixed, I take it that the resultant or the rate derived therefrom is such that the ryot should be able to bear without hardship in all ordinary years. Special causes always bring forth special treatment and no general rules are on that account necessary. Having regard to the process by which our rates are obtained, considering that such rates are generally moderate, and above all bearing in mind that the ryots have accepted a thirty-years' guarantee under which no such remission is promised or expected, I consider that it is inexpedient to adopt any measure, which, while unnecessarily and injuriously affecting the Government revenue, gives satisfaction unequally to only a few, and unsettles the system which has been brought into force after a great deal of consideration and discussion. The practice obtaining in the Madras Presidency does not afford us a guide in this respect and any arguments based upon such analogy are, in my opinion, faulty.

8. But I cannot miss this opportunity to bring to the notice of the Dewan a case of real hardship which demands remedial measures urgently. This arises when the tank does not receive as much supply of water as is wanted to irrigate *all* the lands under it. The Government having no control over the distribution of water, the land-holder, at the greatest distance from the sluice and paying therefore in comparison a low rate of assessment, feels himself as much entitled to the use of tank water as the one quite near the sluice and paying on that account a high rate of assessment. The Government officers are unable to meet such a claim and the result is that in bad years a larger extent of land than can be irrigated is cultivated with the sure result that one and all lose their crops. It seems to me desirable that in such a state of things, the Taluk Amildar should have the authority to define the extent which ought to be fully irrigated, and the extent which should raise such a crop as could be harvested after one or two or three waterings. Such a treatment is perfectly justifiable for the simple reason that the assessment has been regulated by the position of the land with reference to the water supply; and it is necessary, as in the present state of our community, it cannot, on account of a proper organization, guard its own interests. A panchayat for every large tank may be established to settle such matters and the Amildar must have the power to enforce any settlement made by such Panchayat. A few simple rules on the point seem to be urgently called for.

The statement of cultivation, &c., is herewith sent.

Letter from Abdul Khader, Esq., Deputy Commissioner, Mysore District, To the Secretary to the Dewan of Mysore, No. 544, dated 26th October 1885.

With reference to the Dewan's Proceedings No. 2497—81, dated 30th July 1885, inquiring into the practical working of rules authorizing the remission of half assessment on entire fields of wet land remaining uncultivated owing to failure of irrigation, I have the honor to report that the concession granted by the rules, referred to in the above, has been found to afford relief to ryots engaged in wet cultivation The practice of relinquishing wet land at the beginning of the year with

intent to obtain them again when the prospects of water supply become more assured, does not exist in this District owing to the fear of the land thus relinquished by one being immediately applied for and obtained by another.

2. The rules in question have encouraged wet cultivation but produced no meterial increase as there is not extensive wet waste land in the District. The increase observed in the area of wet cultivation in the District is due to the improvement or extension of irrigation works and survey settlement.

3. The inspection required for granting remission is not entirely delegated to the minor officials. The inspection is also repeated by the taluk authorities and tested by the jamabandi officers and therefore no fraud or attempt at fraud has hitherto been discovered in this District.

4. A statement, as called for in the last para of the Proceedings, is herewith submitted.

Letter from V. P. Madhava Rao, Esq., Assistant Commissioner in charge, French-Rocks Sub-Division, To the Secretary to the Dewan of Mysore, No. 142, dated 1st November 1885.

With reference to the Dewan's Proceedings No. 2497—81, dated 30th July 1885, calling for report as to how the rules provisionally sanctioned in Dewan's Proceedings No. 4461 —123 of 29th August 1881, authorizing the remission of half assessment on entire fields of wet lands left uncultivated owing to failure of irrigation work, I have the honor to state that in none of the Taluks of this Sub-Division have remissions been granted under the Proceedings of 1881 above referred to. The isolated case of Guttal Sitaramaiya in Mandya Taluk (Rs. 4—10—0) and the remission of Rs. 75—6—8 in Channarayapatna hardly call for notice.

2. Remissions were granted to any appreciable extent only for 1884—85 as per Dewan's Proceeding's No. 5596—116, dated 14th January 1885.

3. The remissions granted this year have afforded real relief in only a few cases. In Channarayapatna where the remissions were personally announced by me, it was found that most of the cultivating classes had already paid their kandayam, but as their case came under the Proceedings, I thought it would be inequitable to deny them the concession, simply because they had paid up their kandayam. It is only the non-cultivating classes that held back their kandayam and the more intelligent among them positively refused to pay even half the kandayam under the idea that the Proceedings contemplated a total remission. The practice of taking up lands and resigning them still prevails under the Avati tank in Channarayapatna, but it is possible that the ryots there have not been made aware of the Proceedings of 1881.

4. As regards the third point referred to in the Proceedings, I may remark that no increase in the area of wet land under occupation has resulted from the Proceedings in question.

5. As regards the fourth and the last point, I have the honor to report that neither fraud nor attempt at such fraud on the part of hobli officials with reference to remissions has been brought to notice.

6. In connection with the question of remissions, I may, perhaps, be allowed to state that from my experience of the system, I am convinced that individual remissions are highly objectionable. In addition to demoralizing the ryots, they give rise to frauds on the part of the lower officials, which it is difficult to detect. As explained at length in para 8 of my letter No. 46, dated 22nd June 1885, a general circular may be issued authorizing Deputy Commissioners to recommend remissions in exceptional cases for a whole tract.

7. I take the liberty to append an extract of rules for remission issued by the Bombay Government.

Extract from the Handbook for Revenue Officers in the Presidency of Bombay by Alexander Kyd Nairne, Pages 84 to 88, 3rd Edition.

23. Permanent and entire remissions should only be granted in cases of complete failure of crops, and in villages which have been subject to a succession of bad seasons. In other cases partial remissions, coupled with a postponement of the remaining Government demand or part of it, may be sanctioned. Individual inquiries should, as far as possible, be avoided, and measures of relief, as a rule, applied to entire villages. In talukas where the assessment is very light, the ryots ought to be able to meet deficiencies in occasional bad years. G. R. No. 181, 15th January 1867.

* * * * * * * *

24-2. With reference to the question of the grant of remission or the temporary suspension of the collection of arrears of land revenue, when a Collector finds that there are special exceptional circumstances whether of season or otherwise in any year which prevent for the time being the punctual payment of the land assessment by the ryots, and that more liberal remissions and relief than he is authorized to grant are required, he should report the facts of the case to Government for orders in place of having immediate resort to the sale of the holdings and the distraint of the property of the defaulting cultivators.

* * * * * * * *

25. The system of enquiring into individual losses occasioned by alleged failure of crops is forbidden. When a group of villages has suffered from an exceptionally bad season, an average reduction of assessment all round will be made, if necessary. When this is done, there will remain certain individuals unable from poverty to pay up their quota even after the proportional abatement from the full demand had been made. These cases will require to be particularly inquired into and the unrealized balances due written off at the close of the collecting season, care being taken to ascertain whether this necessity is occasioned by the parties in question holding more lands than they have the means of cultivating, and in this case to require them to relinquish a part of their holdings. In every season, good or bad, even under the most liberal assessment, there will be a few cases of the latter description to meet which some remissions will be requisite, but, under proper management, these will be altogether trifling. G. R. No. 3899, 5th October 1847 and No. 1200, 7th March 1874.

* * * * * * * *

27. The local officers should cause it to be made known that inspection previous to reaping is necessary to the obtaining of remissions, and should take care that there is no delay in making inspections after petitions are received. G. R. No. 4795, 20th October 1854.

28. Applications for remissions on account of kacha páts, which fail to afford water, should be enquired into, and complied with in seasons of drought. G. N. No. 5456, 14th October 1874.

29. Collectors and Commissioners grant remissions of assessment on account of loss by fire, the former to the extent of Rs. 50 to any one individual, and the latter to any amount up to Rs. 1,000. G. N. No. 1054, 26th February 1874, and No. 4451, 19th July 1877.

* * * * * * * *

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 5th June 1886.

Letter from T. Ananda Rao, Esq., Assistant Commissioner, Hassan Sub-Division, To the Secretary to the Dewan of Mysore, 483—165, dated 28th August 1885.

Adverting to Proceedings No. 2497—81, dated 30th ultimo, regarding the working of the rules for partial remission of assessment on wet lands left waste, prescribed in Proceedings No. 4461—123, dated 29th August 1881, I have the honor to submit herewith:—

(*a*) the return of wet lands and remissions in the form prescribed for the Taluks of this Sub-Division, except Manjarabad which is purely Malnad; and

(*b*) opinions of the Amildar of Arsikere and Deputy Amildar of Grama, who alone have given their opinions on the subject.

2. I beg to submit the following answers to the questions asked. The rules of 1881 distinguish wet lands irrigated from river channels and other perennial sources of irrigation (Rule II) from wet lands irrigated from Government works of irrigation which are not these (Rule I) The answers vary according as the questions relate to the one class or to the other, and do not profess to be based upon more experience than had been acquired in Taluks situated, and surveyed and settled, like Hassan, Belur and Arsikere where, as will appear from enclosed statements, the remissions have been rare.

3. *Q* (1). Has the system of partial remission of wet assessment been found to afford relief to the ryots engaged in wet cultivation?

A (1). Relief of course there is to those whom remissions reach. But in view of what is submitted in answer to the question following, the relief is merited in the case of lands referred to in Rule II, and not merited in the case of lands referred to in Rule I. There may indeed occasionally be a stray case where, but for Rule I, there can be no relief and this may prove hard (as for instance when the head of a family having recently died, the minor or inexperienced heirs have not been able to arrange for the cultivation of lands). But such when they arise and force themselves on notice, can receive special consideration from Government.

4. *Q* (2). Has the system prevented, to any appreciable extent, the practice of relinquishing wet lands in the beginning of the year to take them up again when the prospects of the season are improved?

A (2). The practice alluded to has not been prevented to an appreciable extent in the case of lands referred to in Rule I. It has been in the case of lands referred to in Rule II. As to lands comprised in Rule I, it needs to be observed that in the Maidan Taluks, (where alone the seasons vary or are uncertain, except in times of dire drought at long intervals) wet lands valuable enough to be worth keeping (when waste) by payment of half assessment are such as are near the sources of irrigation, are seldom waste though the season has been ordinarily unfavorable: and wet lands which are affected even by the ordinary fluctuations of the season are not so valuable and so much in request that they may be lost, if resigned, and therefore that it is considered worth while keeping them at the risk of having to pay half assessment. In these cases the rule is thus inoperative: and in the intermediate cases, it proves an incentive to leave the land waste altogether rather than raise inferior crops on it As to lands comprised in Rule II, they are always highly assessed and valuable lands; valuable enough in the near prospect of a restoration of the irrigation work to keep and pay half assessment thereon, whether altogether waste or a bare sustenance is obtained therefrom by raising dry crops thereon. But for the rule, these lands should be resigned. It is believed to be in accordance with the practice which existed before.

5. *Q* (3). As the result of the rules in question, has any material increase taken place in the area of wet land under occupation?

A (3). No, not as a result of the rules as far as can be judged.

6. *Q* (4). To what extent have frauds or attempts at fraud been discovered

A (4). No cases reported. Nor may they be expected. There is no rule requiring a person who intends to leave his land waste and claim remission to give notice thereof; or cultivation after such notice may be regarded as fraud. The jamabandi has generally been late in the season.

7. With reference to the practice of applying for wet lands when the season is favorable, it may be added that the practice largely exists in the Arsikere Taluk of applying for lands lent for one year only. This is because of the large extent of Vaisakh cultivation that is there carried on which overlapse portions of two years and for which therefore two years' assessment shall have to be paid for one crop, were it not for the mention of the special term. When tanks are full, these applications are largely received. The mention of the special term may be unnecessary when the revenue year is changed, as seems to be contemplated by the Revenue Code under consideration.

Letter from Captain A. H. Macintire, Deputy Commissioner, Shimoga District, To the Secretary to the Dewan of Mysore, No. 770—568, dated 4th October 1885.

In accordance with Proceedings No. 2497—81 of 30th July last, I have the honor to forward herewith the statement called for.

2. Very few remissions under the rules laid down in Proceedings No. 4461—123 of 29th August 1881 have been granted hitherto in this District.

3. The figures show a great increase in the area of wet land cultivated in Shimoga and a corresponding decrease in the Honnali Taluk, but this is owing to an adjustment of boundaries by which two Malnad Maganis of Honnali were added to the Shimoga Taluk.

4. I do not think the rules above alluded to have affected the wet land under occupation in this District at all, though doubtless in other Districts they have afforded relief to many holders of wet lands. There has been no fraud or attempt to commit fraud as regards these rules reported in this District.

5. In conclusion I would beg to point out that as regards my own experience I think the rules appear hard to some ryots. These men, possibly hoping that the rains will fall as usual, have gone to the trouble of ploughing, manuring and sowing their fields, and then when, as during the last two years in the Bangalore District, the rains failing, their crops have withered, they still have to pay up the full kandayam, while possibly their more fortunate neighbour, who has expended neither money nor trouble gets half remission. They do not, and very naturally, understand the principle.

Letter from G. F. Meiklejohn, Esq., Deputy Commissioner, Kadur District, To the Secretary to the Dewan of Mysore, No. 305, dated 20th August 1885.

I have the honor, with reference the Dewan's Proceedings No. 2497—81, dated 30th ultimo, to forward the statement of remissions of assessment on wet lands called for and to report—

(1.) That I do not think that the system of partial remission has afforded much, if any, real relief to the ryots. In some cases it may have considerably benefited land owners of the non-cultivating classes who could not get tenants, but in others it made them more careless about obtaining cultivators than they otherwise would have been, as since they had to pay only half kandayam, the mere letting of the grazing of the lands would perhaps cover the half kandayam. The return herewith sent shows that the system has not prevented the throwing up of rice lands and has not, I regret to say, caused any increase in the area of wet cultivation.

2. As far as I recollect only 3 or 4 cases of attempt at fraud came to my notice, one in which a man complained that his field below the Iyenkere bund was waste, but on visting it I found a good crop on it; and a second in which a man who had been a Shanbhog complained that his field at Sakrepatna was all but waste, and that the little part of it which had been cultivated with sugar-cane had been destroyed by fire. I went to the spot and satisfied myself that a fair crop of sugar-cane had been obtained and that the man's story was quite false. The other cases occurred in Devanur and in Banavar.

The Assistant Commissioners are all changed who were here when the order was first issued, and I can't now learn what their experience was; but I think that when it was found out that rigorous inspection of the lands on which remission was claimed was insisted on, the attempts at fraud ceased.

I would beg to recommend that the system of remission simply because the land is left waste be abolished, it being left always to the Jamabandi officer to recommend for remission after personal inspection any particular cases of hardship in which the land was waste owing to causes over which the ryot may have no control.

Letter from the Assistant Commissioner, Chitaldroog Sub-Division, To the Secretary to the Dewan of Mysore, No. 137—1, dated 23rd October 1885.

I have the honor to acknowledge the receipt of the Dewan's Proceedings No. 2497—81, dated the 30th July last, and to state as follows on the subject of granting remission of half assessment on entire fields of wet land remaining uncultivated owing to failure of irrigation.

2. The rules on this subject came into operation in the year 1881—82 and it will be seen from column 3 of the accompanying statement that the total amount of remission granted under them for the four years ending with 1884—85 in the four Taluks of this Sub-Division was Rs. 11,979—14—4. The remissions granted in the years 1878—79, 1879—80 and 1880—81 were on account of famine arrears. Hence the figures shown against the years alone alluded to should not be taken into account in judging the operations of the rules under discussion.

3. No doubt there was gradual increase of wet cultivation from the year 1881—82, but I do not attribute it to the operation of the rules in question. In the late famine, large area of wet land had been thrown out of cultivation and it was like other description of land brought under cultivation in the subsequent prosperous years. The practice of relinquishing wet lands at the beginning of the year and taking them up when the prospects of water supply were more certain, still continues unabated. In some parts of this Sub-Division a combination is in existence, in pursuance of which one ryot is prohibited from applying for the field usually cultivated by another whether such field may be lying waste for any length of time. This practice enables a ryot to relinquish his field and to take it up at his pleasure. In villages in which such combination does not exist, lands are retained whether prospects of irrigation were good or otherwise. I am therefore of opinion that the system under discussion has not mitigated the objectionable practice of relinquishing lands when the prospects of water supply become doubtful.

4. The system affords no substantial relief to ryots engaged in wet cultivation. Its benefits reach an insignificant and frequently undeserving portion of the class. Wet cultivation is carried on to any appreciable extent in the Chellakere and portions of the Hiriyur Taluks. An industrious ryot has generally an irrigation well and he manages to reap at least one crop whether there is water in the tank or otherwise. Lands irrigated by both sources are heavily taxed and their holders sometimes suffer severe losses owing to failure of water, both in the tank and the well. The rules under discussion afford no relief to ryots of this class, because according to them, land must be fully waste to entitle its holder to remission, whereas a ryot owning a well will at least sow ¼ or ⅓ of his holding relying upon his well and if it fails he suffers greater loss than the man who has allowed his land to be waste. On the other hand a ryot who

keeps his land waste and thereby spends neither seed grain nor labor entitles himself to a remission of half of the assessment. Again, in some parts of this Sub-Division dry crops are as a rule raised on lands classed as wet whether there was water in taluk or not; such lands are allowed to lie fallow once in every 3rd or 4th year either to enable them to recoup their productive power or for other causes. Granting partial remission in such cases is uncalled for, because the ryots raise dry crops and allow the land to lie fallow in their own interests, but the rules in question actually force remission on the holders. My opinion is that the survey assessment on wet lands as regards water supply having been fixed upon a fair average of a number of good and bad years, the Government is justified in demanding the revenue thus fixed excepting in an unusually bad year. I would only recommend the granting of partial remission in a year in which wet crops have mostly failed and lands have been allowed to lie waste owing to severe drought, &c.

5. As observed in para 2 of the Proceedings under reply, the work of inspecting individual holdings not only entails heavy work upon the Local Revenue authorities but it is difficult of control. Although no cases of fraud or attempt at fraud have been discovered in this Sub-Division, yet there are opportunities for village officials to defraud the Government with impunity. The practice in this Sub-Division is that all the lands brought on the list of remissions by the Shanbhogs are in the first instance inspected either by the Amildar or Taluk Sheristadar, and the Sub-Division Officer selects a few villages in each Hobli and tests the accuracy of the work done by the taluk officials. This close scrutiny is only possible in the taluks in which cases for remission are very few. In short, the system is opposed to the fundamental principles of the Survey Settlement; it fails to fulfil any one of the objects with which it was introduced; and lastly experience shows that the system cannot be worked without giving opportunities for fraud. For these reasons I would recommend the abolition of the system under discussion.

6. The statement called for in para 3 of the Proceedings under reply is herewith submitted.

No. 2032-41—85, DATED 5TH JUNE 1886.

ORDER THEREON.—In Proceedings No. 4461—123, dated 29th August 1881, the following Rules were provisionally sanctioned in regard to the grant of remissions on account of wet lands laid waste from want of water.

I. Entire fields of wet lands or other lands irrigated from Government works laid waste will be allowed a remission of half their assessment.

II. The above rule is not to apply to lands irrigated from river channels or other perennial and abundant means of irrigation, in which case the remission will only be allowed, if the source of irrigation has breached or is otherwise not available for irrigation.

III. The above remission is not claimable as a matter of right, and where the occupant of the land is found to keep the land waste for more than one year from mere neglect and not from any want of water, or with the view of using it for pasture and other purposes, the remission will not be allowed.

2. These rules were framed with the object of relieving the ryots from the obligation of paying *full* assessment on wet lands which could not be cultivated from want of water, and of preventing the ryots from throwing up lands possessing insufficient irrigation at the beginning of the year and taking them up again when the prospects of water supply became more assured. There being reason to believe that these objects were not fulfilled, enquiries were set afoot in July 1885 with a view to ascertain how the rules in question were working in practice.

3. From reports received from the District and Sub-Division officers in reply to Circular No. 2497—81, dated 30th July 1885, it is apparent that the rules in question have been productive of more harm than good. They have encouraged

lands being left waste by ryots through wilful neglect, and as, where the irrigation is not of a permanent kind, no enquiry even is required in regard to the insufficiency of water or the cause of the land being laid waste in the first year, there is no check on false claims to remission. Again, no remission is allowed in the case of land which the ryot may have cultivated, but the crops on which may have failed owing to the failure of the water-supply.

4. There is, on the whole, a consensus of opinion that the rules in question have not afforded any relief to the *bonâ fide* cultivator. They have not resulted in increasing the area of wet land under occupation, nor in preventing the system, where such exists, of the ryots throwing up lands at the beginning of the year with the view of taking them up again on the improvement of agricultural prospects. They moreover open a wide door to fraud which it is impossible to prevent except by a system of personal inspection of individual fields by superior officers; such a system cannot however be adequately worked with our present administrative machinery.

5. Under such circumstances it is clear that the existing rules require very considerable revision. The assessment on wet lands in surveyed taluks being fixed with reference to the value of the water supply in good as well as in bad years, no remission can be required in the case of individual fields laid waste from an insufficient supply of water in any particular year. The only occasion on which any remission may be called for is when the source of irrigation is breached or otherwise damaged so as to render wet cultivation in lands depending on it impossible, or when there is a general drought. In the former cases relief is best afforded by foregoing half of the assessment pending the restoration of the source of irrigation. The Survey Superintendent's proposal to remit only that portion of the assessment which represents the value of the irrigation entails needless trouble, and is not likely to be understood and appreciated by the public. The system of levying reduced assessment on lands under breached works under the designation of "Bengar Kandayam" is familiar to the ryots and is readily understood by them.

6. Under such circumstances, His Highness' Government resolve to cancel the existing rules and to promulgate the following rules for adoption from the current year 1886—87. These rules will also apply to all wet lands cultivable with Vaisakh crops in the current season, whether the land revenue on account of the same is creditable to the accounts of 1885—86 or 1886—87.

7. Dewan's Notification No. 151, dated 30th August 1881, is hereby cancelled with effect from 1st April 1886.

. When, by breaching or any other accident, a tank or other work of irrigation becomes not available for irrigation, no remission of the wet assessment on lands situated under such tank or other work shall, as a rule, be granted for the official year during which the breach or accident occurs. Special cases in which the Deputy Commissioner may think some remission of assessment necessary during such year, should be submitted for the orders of the Dewan.

. But, for the second and succeeding years during which the tank or other work may remain unrestored and unavailable for irrigation, a temporary reduced assessment of half of the full wet assessment shall alone be levied as Bengar Kandayam, the remaining half being shown in the accounts as a remission, without reference to any dry crops which may be raised.

. Lands which, by their situation, are capable of being cultivated with wet crops, notwithstanding the breach or other accident, shall not be entitled to the reduction of assessment referred to in the preceding rule.

. In the year following the one in which the breach or other accident occurs, the Deputy Commissioner or one of his Assistants shall, after personal inspection during the cultivation season, decide once for all what lands are entitled to the reduced temporary assessment under Rule III.

VI. This temporary reduced assessment shall be adopted at each Jamabandi settlement, till the irrigation work is again made efficient by the Government, a statement in the accompanying form being submitted to the Chief Secretary to the Dewan as soon after the close of the Jamabandi as possible.

VII. In cases not covered by the foregoing rules, no remission shall be granted without the previous sanction of Government.

VIII. The existing rates of wet assessment have been fixed after a full consideration of the value of the source of irrigation and upon the basis of an average of good and bad seasons. These rates are not liable to be reduced on the ground that the land has been allowed to lie waste.

IX. In exceptional years, it will rest with the Government to direct the grant of special remissions of land revenue for particular tracts suffering from a scanty rain-fall.

7. The above rules will be published in the Gazette for the information and guidance of all concerned.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioners of Districts.
The Survey Superintendent.
The Director of Statistics and Agriculture.

Statement of temporary remissions granted under the Dewan's Proceedings No. 2032-41—85, dated 5th June 1886.

XIII. Reserve ...	10,934	3,000	...	7,934
Total Expenditure.....	99,460	95,811	5,897	9,546
			Net	3,649
Closing Balance.....	18,640	14,639	...	4,001

2. *Receipts.*—Under Receipts a slight increase is expected from the tax on houses owing to the recent extension of Municipal limits, from the expected sale of building sites in Tigalar Pete, and from transfers and contributions in consequence of the Government grant towards the City Sanskrit School and Government Chuttrum. This is more than counterbalanced by the decrease in the estimates of revenue chiefly under Mohatarfa and Land Revenue. The Vice-President explains that the Mohatarfa estimate for 1885—86 included a large amount of arrears of previous years, while the present estimate under the head is based on the demand settled for the current year, The Land Revenue estimate for 1885—86 comprised the arrears due to the Municipality for four previous years; the collections of Land Revenue for 1881—82, 1882—83 and 1883—84 having been made over to the Municipality in the past year, the estimate on this account for the current year provides for the realizations in 1884—85 and 1885—86.

3. *Expenditure.*—Under Expenditure there is a net decrease of Rs. 3,649 due mainly to the reduced estimates under "Original Works" and "Reserve."

4. The increase budgetted for under establishment and other charges is detailed in the margin. This is due chiefly to the growing demand for additional expenditure on account of the Maternity, the conservancy and the lighting charges: it is also proposed to raise the pay of the office Accountant and Head Clerk by rupees 5 and of the Head Master of the Municipal English School by Rs. 10 per mensem and to slightly increase the allotments on account of Government Chuttrum, Fairs and Exhibitions, Mortuary Registration and minor Miscellaneous Items. Under the explanation furnished by the Vice-President these increased provisions are sanctioned.

Establishment and other charges.	Per annum. Rs.
Increase of Rs. 5 to the pay of Accountant and Head Clerk...	60
Do do Rs. 5 Municipal Public Works Overseer sanctioned in Public Works Department No. 5483—1236, dated 16th November 1885...	60
Do do 10 Rs. to the Municipal English School Master's pay	120
Increase over last year's Budget provision on account of the sanctioned expenditure for Municipal Sanskrit School...	600
Government Chuttrum...	881
Grant in-aid towards Home for incurable paupers...	400
Conservancy ...	816
Maternity ...	1,704
Lighting ...	1,000
Extraordinary—Fairs and Exhibitions ...	
City Market Show ...	50
Statistics and Mortuary Registration ...	96
Other minor Miscellaneous items	110

5. The proposed outlay on Public Works amounts to Rs. 26,100, or Rs. 1,000 less than that of the past year. This is passed subject to the necessary estimates and notifications of sanction being submitted in due course.

6. Under Education, Grants-in-aid, an additional provision of Rs. 3 per mensem has been made by this office to meet the charge on account of the grant sanctioned to a Canarese School at Cotton Petta in the Dewan's Proceedings No. 240-1—22 of 8th April 1886.

7. With regard to the omission of provision under "*Pension Grant*" the Vice-President explains that there will be no occasion for pension at present and, should there be any case at all, its charges can, with the sanction of Government, be met from either General or Reserve Funds. The order of the Government on this subject No. 109, dated 20th February 1885, directs that the Municipal Board should provide a sum of rupees six hundred in the annual Budget to meet pension and gratuity charges. In accordance with this order the provision of Rs. 600 will be entered under the head for the present.

8. With these remarks the estimates of Receipts and Expenditure under review are sanctioned.

R. VIJAYINDRA RAO,

Chief Secretary

To—The President, City Municipal Commission, Bangalore.
The Comptroller.
The Senior Surgeon.
The Education Secretary.
The Deputy Commissioners of Districts.

APPENDIX A

Memorandum by the Vice-President, Bangalore City Municipality.

The income of the City Municipality for the next official year has been estimated at Rs. 1,10,450 including a probable balance of Rs. 14,000 proposed to be carried over from the accounts of the current official year. Compared with the estimate of the current year, there is a net decrease of Rs. 7,650, which is explained as follows :—

2. *Octroi.*—The estimate under this head has been entered at Rs. 22,500 or Rs. 1,250 less than that of the current year. The management of the octroi collections being in the hands of the Municipality, Civil and Military Station, I have simply entered one-third share of the receipts as estimated by them under the above head.

3. *House Tax.*—An increase of Rs. 700 is shown under this head over the estimate of the current year. It is chiefly owing to the houses situate in the villages recently added to this Municipality being brought under Municipal taxation.

4. *Tax on Professions and Trades.*—This item, as compared with the current year, exhibits a net decrease of Rs. 2,100. This is due to the fact that the estimate of 1885—86 included a large amount of mohatarfa arrears of previous years withheld by the rate-payers, owing to the pendency of their appeals ; but the present estimate, which has no such arrears to include, is based on the demand settled for the current year.

5. The several increases and decreases shown under (1) "Rents," (2) "Extraordinary," (3) "Fines," (4) "Miscellaneous" call for no particular remarks. It may however be observed that an increase of Rs. 300 has been entered under (2) "Extraordinary" in the hope that several building sites still lying undisposed of in Tigalarapete would be taken up by private parties during the next year for building purposes.

6. *Land Revenue.*—This item, compared with the estimate of the current year, exhibits a large decrease. The former included the arrears due by Government for the 4 previous years, while the present estimate includes only the dues for 2 years, *viz.*, 1884—85 and 1885—86 ; hence the decrease.

7. EXPENDITURE.—*Head Office Charges.*—It is proposed to increase by Rs. 5 the salary of the Accountant (he is also Head Clerk), in consideration of the responsibility of the office and the heaviness of the work now pressing upon him. The work in the account branch has considerably increased of late.

8. *Public Works Supervision.*—Under this head an increase of Rs. 60 per annum has been entered to the salary of the Overseer, he having lately received a promotion to 3rd Grade in the Public Works Department as per Government Notification No. 5483—1236, dated 16th November 1885.

9. *Education.*—Under this head Rs. 720 have been entered in excess of the estimate of the current year, of which an outlay of Rs. 600 is to be incurred in the maintenance of the Municipal Sanskrit School lately started under the sanction of the Government. The balance, *viz.* Rs. 120, is on account of the proposed increase to be given to the salary of the Head Master of the Municipal English School at the rate of Rs. 10 per mensem, the standing School Committee having recommended the said increase.

10. *Maternity.*—Rupees 1,704 have been entered under this head in excess of the allotment made in the current year. This increased provision is made to meet the growing demand of the Maternity charges, including cost of establishment, as per requisition of the Senior Surgeon.

11. *Government Chuttrum.*—An increased provision of Rs. 881 has been made under this head for the following reasons :—In the current year's Budget the Municipality provided only a sum of Rs. 764, being on account of their contribution towards the maintenance of the above chuttrum. The Government having since transferred the management of the said institution, as well as their annual contribution, *viz.* Rs. 800 to the Municipality, it was found necessary to make a full provision in the budget to cover all expenses in connection with the institution. While making arrangement for the internal management of the chuttrum, the necessity for the appointment of a Supervisor both for this as well as the Langharkhana was much felt, and accordingly a competent and trustworthy man was appointed ; his salary *viz.* Rs. 10 is at present being debited in equal shares to both the institutions above named. A slight increase has also been given to the salaries of the other servants of the chuttrum, as they were paid very low.

12. *Langarkhana.*—The estimated expenditure under Langarkhana shows a net decrease of Rs. 12. This is owing to the transfer of the Mutsaddi of the institution to Mortuary Registration Department. His services were found unnecessary since a separate man has been appointed as Supervisor, as stated in the foregoing para.

13. *Under Charitable Grants.*—Rupees 400 have been provided against item No. 8, as contribution towards a Home established in Civil and Military Station for incurable paupers. This proposal has lately received the sanction of Government.

14. *Conservancy.*—Rupees 816 have been entered under this head in excess of the allotment made for the current year. This is chiefly due to the additional establishment proposed to be entertained for No. 6 Division, which has largely been extended by the recent inclusion of a few villages.

1. Conservancy Overseer.

	Rs.	A.	P.
One of the Dafadars is to be made Overseer and his salary is to be fixed at Rs. 10, instead of at Rs. 8 as at present, hence difference.	24	0	0
Hire of draught bullocks for 3 extra conservancy carts at Rs. 10 per mensem	360	0	0
5 Sweepers at Rs. 5 each per mensem	300	0	0
1 Additional Peon at Rs. 6 per mensem	72	0	0
Pony allowance to the Sanitary Inspector at Rs. 5 per month ..	60	0	0

The Inspector who is expected to supervise the Conservancy Overseers and Establishments of each Municipal Division is at present very inadequately remunerated. It is proposed that he should receive a Pony allowance of Rs. 5 per month to admit of his constantly itinerating.

Total Rupees.. 816 0 0

15. *Lighting.*—Under this head an increased provision of Rs. 1,000 has been made. It is proposed to increase the number of street lamps, for which purpose it will be necessary to purchase cast iron lamp posts and lanterns.

16. *Fairs and Exhibitions.*—An increase of Rs. 50 has been entered under this head.

17. *Statistics and Mortuary Registration.*—Under this head an increase of Rs. 96 has been entered over the estimate of the current year. As explained in para 12, the services of the Langarkhana Mutsaddi have been transferred to this branch to secure better efficiency in its working. It is also proposed to open a nominal register of deaths as per system obtaining in the Madras Municipality. After this is introduced much work will devolve on the Department, hence demand for an additional hand.

18. *Miscellaneous.*—Under this head an increase of Rs. 110 has been entered. This is on account of the watchmen employed in Orr's Gunta and Chikpete Reservoir. These charges were hitherto made against "Repairs."

19. *Pension Grant.*—No provision has been made in the budget under this head, as there will be no occasion for it at present, and should there be any case at all, its charges can, with the sanction of Government, be met from either "General" or "Reserve" funds.

20. *Reserve.*—A sum of Rs. 3,000 has been provided for under this head. In the current year provision for a much larger sum was made, as the estimated income of 1885—86, which included the accumulated arrears of land revenue due by Government, admitted of such increased provision.

21. Under the above explanation the estimated expenditure has been entered at Rs. 95,811, with a probable closing balance of Rs. 14,639 for the year 1886—87.

APPENDIX B. BUDGET

R. VIJAYINDRA RAO.
Chief Secretary.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 28th June 1886.

READ—

Docket from the Deputy Commissioner, Kadur District, No. 17, dated 4th April 1886, submitting the budget estimates of the Municipalities in the Kadur District for 1886—87.

CAMP No. 367—71, DATED MYSORE, 28TH JUNE 1886.

ORDER THEREON.—The number of Municipalities for which budget estimates for the current official year have been submitted by the Deputy Commissioner of Kadur is five, or two less than in the past year, the Municipalities at Hariharpur and Mudgere having been ordered to be abolished from 1st April 1886. The subjoined statement is an abstract of the estimates of receipts and expenditure of the five Municipalities in the District for the year 1886—87 :—

Grand Total.....	14,220	5,288	5,666	2,000	780	27,954

2. In the town of Chikmagalur, octroi continues to be levied as usual. In February last, sanction was accorded to the recommendation of the Deputy Commissioner of Kadur to abolish the tax on all articles except Piece goods at Kadur and Yedahalli and Piece goods and oil at Tarikere and Birur. Hence the estimates under octroi compared with those of 1885—86 show a slight decrease of Rs. 458.

RECEIPTS.

3. The estimates under other heads are generally based on the actuals of 1884—85 and of the first six months of the past and previous years.

4. Establishments for collection are maintained at Chikmagalur and Tarikere, while in other Municipalities, provision has been made for the percentage remuneration payable to the local revenue officials. In Chikmagalur the establishment for collection remains the same as in the past year: while in Tarikere there is a decrease in the charge under this head, a peon on Rs. 5 having been dispensed with owing to the reduction in the number of articles subject to octroi in the town.

EXPENDITURE.
Collection.

5. The increase of Rs. 13 provided for under "*Head Office*" is owing to the arrears of pay due to the Municipal Clerk in the District Office.

Head Office.

6. The estimated outlay on "*Public Works*" amounting to Rs. 6,296 against Rs. 6,203 in the past year is passed, subject to the submission of estimates and notifications of sanction in the usual course. The original works provided for are detailed in the margin.

Public Works.

		Amount.
Chikmagalur.—	Construction of V Section Drains ...	Rs. 500
Tarikere.—	Do Road in Gurappa's Lane ...	„ 90
	Do do in Fort ...	„ 400
	Do Four Latrines	„ 100
Birur.—	Do a School (moiety) ...	„ 900
	Do Tunnel	„ 534
	Do Box Drain	„ 489
Yedahalli.—	Part contribution towards construction of a Musafarkhana	„ 75
	Construction of a tunnel near Bhavani Sastri's house	„ 50
	Total Rs....	3,138

7. Besides the moiety of the charge on account of the Police establishment at Birur originally fixed at Rs. 564, the Municipality at that station is charged with the full cost of 3 peons whose pay is now proposed to be raised from Rs. 5 to 6 per mensem. A provision of Rs. 20 has also been made for supply of uniform to Police peons. The additional charge amounting to Rs. 56 is passed.

Police.

8. The estimate of expenditure under "*Education*" exceeds that of the past year by Rs. 108 owing to the increase of pay recommended to the Head Master and his Assistant in the English School at Tarikere. The increase is sanctioned.

Education.

9. The additional provision of Rs. 50 under "Charitable Grants" which is said to be needed for supply of animal vaccination lymp for the Chikmagalur Hospital is allowed to stand.

Charitable Grants.

10. The proposed alterations under "Conservancy" showing a net decrease of Rs. 194, as noted in the margin, are approved.

Conservancy.

		Rs.
Tarikere.—Two male sweepers at Rs. 5 reduced		...—120
Birur.—Addition of 2 male sweepers at Rs. 4	96	+138
Do 1 female do at „ 3½	42	
Kadur.—Addition of 1 female sweeper at Rs. 3½		... +42
Yedahalli.—Reduction of 4 male sweepers at Rs. 5		...—240
Decrease under other charges... ...		... —14
Net Decrease Rs...		194

11. In the Budget of Chikmagalur a provision of Rs. 720 is made on account of the cost of lighting 60 lamps at one rupee per lamp per mensem. But the rate for lighting contract approved of in para III of the Proceedings of the Municipal Board of the town, dated 30th March 1886, is 10 annas per lamp per month. The allotment under the head will accordingly be reduced at this rate to Rs. 450.

Lighting.

12. The Municipal Board of Chikmagalur consider the services of a peon necessary for the cattle pound in the town and provide Rs. 48 per annum on this account together with a sum of Rs. 100 for expenditure on special occasions. These provisions are passed.

Miscellaneous.

13. With the foregoing remarks, the budget estimates under review are sanctioned.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Commissioner, Kadur District.
The Comptroller with copies of the sanctioned budgets and their details.
The Senior Surgeon.
The Education Secretary.
The Inspector General of Police.
The Deputy Commissioners of other Districts.

R. VIJAYINDRA RAO,
Chief Secretary.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 11th June 1886.

No. 2154-75—92, DATED 11TH JUNE 1886.

ORDER.—All Government Departments except the Railway will send their advertisements for insertion in the Bangalore Spectator. The rate at which these advertisements are to be paid for will be settled hereafter.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioners of Districts.
All Heads of Departments.
The Proprietor, Bangalore Spectator.

From the Officiating Deputy Superintendent in charge, Mysore Topographical Survey,
To the Chief Secretary to the Dewan of Mysore, No. 52, dated 8th June 1886.

I have the honor to submit for the information of the Dewan the following report on the Topographical Survey of the Province for the season 1885—86.

During the recess season from April to November of last year the whole of the previous season's field work was mapped and submitted for publication, *viz.*—

"Standard Sheets" Nos. 54, 58, 62, 67, 68 and 69.

City of Mysore (scale 12 inches=1 mile) 6 sheets.

Bangalore City and Cantonment (scale 12 inches=1 mile) 13 sheets.

2. The party took the field early in November and before the end of March completed the topography of the Province, *viz.*, 2,189 square miles east of longitude 78° including the whole of the Kolar District, 257 square miles of the hilly portions of the Chamarajnagar and Yelandur Taluks, and 124 square miles of the southern portion of the Kankanhalli Taluk. In these latter portions the difficult nature of the ground detained the Surveyors through the beginning of April.

The standard sheets comprising the areas above mentioned are Nos. 43, 44, 45, 46, 47, 48 and 66 (Kolar) 70 and 65.

3. The fair mapping of this field work is already well in hand; and will probably, provided no more transfers are made from the party, be complete by September; though the completion of the reductions to quarter scale for the Indian Atlas will take some little time longer.

4. The changes in the personnel of the party since last report are:—

Major J. R. McCullagh, R. E., Deputy Superintendent in charge, sick leave to England from 16th March 1886 (relieved by Lieutenant H. M. Jackson, R. E., Officiating Deputy Superintendent).

Mr. J. Kennedy, Assistant Surveyor, ordered to proceed to Mandalay, 8th June 1886.

5. An index map and a statistical table showing out-turn, average cost, rate, &c., are submitted herewith.

Area previously surveyed up to close of October 1885.				Cost per mile.			Surveyed during 1885—86 with cost per mile.		
Trigonometrically.	Topographically on 1" scale.	Revenue. By villages.	Revenue. By fields.	Trigonometrical.	Topographical.	Revenue.	Trigonometrical.	Topographical on 1" scale.	Revenue.
1	2	3	4	5	6	7	8	9	10
32,689	* 28,767	...	..	...	26—0—7	...	...	2,570 at Rs. 22—5—0 per square mile.	

The cost per square mile of the last year's work is approximate only.

* Also 83·9 square miles of State Forests on scale of 4 inches=1 mile.
Do 56·88 " on scale of 12 inches=1 mile.

No. 2304-14—98, DATED 17TH JUNE 1886.

ORDER.—Recorded.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Officiating Deputy Superintendent in charge,
Mysore Topographical Survey.
" Superintendent, Revenue Survey.
" Secretary, Public Works Department.
" Deputy Commissioners of Districts.

From the Superintendent, Government Botanical Gardens, Bangalore, To the Chief Secretary to the Dewan of Mysore, No. 12, dated 21st April 1886.

I have the honor to submit my twelfth Annual Report on the condition and progress of the Government Botanical Gardens and Parks of this City, for the information and orders of Government.

I. GOVERNMENT BOTANICAL GARDENS (LAL-BAGH.)

2. *Season.*—The weather changed from a condition of drought on the 19th May, when we were favored with a fall of two inches of rain ; subsequent showers fell during the month, and on the 5th June the aggregate rain-fall had reached the considerable amount of 5 inches. These early rains advanced the season and both garden and field cultivation was well in hand by the middle of June. The regular business of putting the garden in order commenced from 1st June, when all hands were engaged in preparing beds for the reception of plants, repairing walks, renewing edgings and similar routine. The rains were comparatively light during the months of August and September, and some misgivings were felt as to the result of crops. The withering of the latter was timely averted however by heavy rain, and good harvests have been returned in all parts of the country. For garden cultivation the season has been fairly good. The total rain-fall gauged in the Lal-Bagh was 37 inches and 67 cents.

3. *Labor.*—The number of prisoners employed are the same as reported last year, *i. e.* 20. The Superintendent of the Jail has expressed his willingness to supply a larger gang when men are available. As the office work was heavy, I have applied for the services of an additional Writer at Rs. 15 per mensem.

4. *Construction and Repairs.*—The full allotment sanctioned under this heading was carefully expended on the following works :—

	Rs.	As.	P.
a.—Extension to the fernery	500	0	0
b.—Repairs to a large well	184	6	0
c.—Re-roofing the potting shed	155	2	0
d.—Repairs to channels and cisterns	77	8	8
e.—New gates to menagerie	36	0	0
f.—Pot well	24	15	4
g.—Enclosure for bears	22	0	0
Total Rupees.....	1,000	0	0

5. *a.*—A constantly increasing collection of ferns and fine foliaged plants called for more accommodation in the fernery, and the additional structure now provided at an outlay of Rs. 500 has fully met this want. The whole fernery and its surroundings are now much improved, and ample space is afforded for large collections of plants requiring special shelter and protection. The erection of suitable staging, and formation of tanks and rockeries, are minor contingencies which receive attention as funds are available.

6. *b.*—This excellent well having been put into thorough repair as proposed in my letter No. 2, dated the 8th April 1885, is now much used and appreciated by native visitors. It is provided with a broad flight of steps leading down to the waters edge.

7. *c.*—The large shed in the potting-yard was thoroughly repaired at a cost of Rs. 155—2—0. The masonry channels leading past the fernery have been enlarged

and covered in by stone slabs, and in connection with this work two large side cisterns were introduced into the fernery. Two new wooden gates have been put up at the entrances to the menagerie. These are now closed and locked during the night, or when an animal is being moved from one cage to another. The Cashmere bears are also provided with a temporary enclosure.

8. *Superintendent's Cottage.*—The extension of my quarters was carried out effectually by the Public Works Department at a cost, I believe, of something over Rs. 2,000. The charge is not provided for in the garden estimates. Mr. Scaldwell, who was in immediate charge of the work, provided a very neat design for the whole front, so that the cottage looks more picturesque than ever and affords ample accommodation, for which I am grateful to Government.

9. *Models for the London Exhibition.*—A series of 24 models of Indian fruits was prepared by artisans from Channapatna, the subjects being selected by me. The work was done rather hurriedly, and, I think, this is a mistake, as under such circumstances the materials and workmanship may or may not be of the best quality, while the cost is great, the artisans being in a position to dictate their own terms. The models have been despatched to London with the other exhibits.

10. *The propagation and culture of plants.*—I continue to devote much of my attention to this department of work, as experience now gained in the early management of new plants may be of benefit in ulterior cultivation when the subjects are more widely acclimatised.

I hope, therefore, to be pardoned for the rather lengthy details which follow under this general heading.

11. *Rubber Plants.*—Further experience has justified my opinion that the Ceara rubber tree is adapted to the climate. Its cultivation progresses so favorably that every encouragement is offered to plant on an extensive scale. As mentioned in last report, the tree loses its leaves during the driest period of the year, and is thus preserved in a semi dormant state until the vernal showers excite growth again. Irrespective of their commercial value, deciduous trees of this class are much needed, and in the rocky maidan regions of Southern India would be invaluable. Judging from our own experience, the Ceara rubber tree requires no pampered treatment, although, like most plants, it prefers a little kindness to starvation and utter neglect. It grows very rapidly in vegetable mould, but planted in any ordinary soil, at the break of the South West Monsoon, the seedling will shift for itself and possibly have taken such a hold on the ground that no artificial watering is required during the subsequent dry season. This is what I have done with a hundred seedlings six months old, on poor gravelly soil, and I am certain that nearly the whole will burst forth into fresh growth when the rains set in. At present they look like so many dead canes. In open land the tree will attain an average height of 30 to 35 feet, with a diameter, through the branches, of 15 to 20 feet. Seedlings might therefore be planted uniformly at 18 feet apart each way. The latter are ready for the field when six months old and about 15 inches high, with a woody base. Planting is best done on a rainy day, or shortly after rain while it is still cloudy. Large pits are not required, but the natural soil should be well loosened to the depth of one foot. This gives the young roots an easy passage in their early development. The local distribution of this useful plant, from our own stock, has assumed the following proportions:—

Lal-Bagh	187
Cubbon Park	170
Palace grounds	110
Dewan's Compound	20
Government Plantation	200
Mr. Raghavacharlu	68
„ St. John Buchan	24
„ T. T. Leonard	24
„ G. Gibson	36
Sold to District Officers	136
Total.. ..	975

The plants under my immediate charge are growing rapidly, and favorable reports, some of which I include here, have been received from Messrs. Raghavacharlu, T. T. Leonard, G. Gibson and St. John Buchan.

The seeds of the Ceara Rubber tree are exceedingly hard, and to expedite germination, they should be filed and then soaked for three days in water. But perhaps the most effective method of treating the filed seeds is to make them vegetate or sprout before they are sown, the *modus operandi* being exactly similar to what is done with rice seed in this country. The seeds will germinate within ten days and should at once be planted in boxes of good soil (placed under partial shade) at 3 inches apart.

As the parent trees in the Lal-Bagh are not yet six years of age, I have not tapped them for rubber, but this will be done in the current year to ascertain the approximate yield from a single tree. The seeds ripen in the months of February and March. This season we have collected 8 lbs. of seed, from which it is presumed a large number of plants will be raised. But as the distribution of plants is expensive, it would be easier for District officers, who take an interest in this experiment, to procure *seeds* from head-quarters, with directions how to file and sprout them.

Mr. T. T. Leonard of Beggar Bush Farm reports as follows:—"*Ceara Rubber Plants.*"—"I planted them as soon as received from you, 12 in red soil, 12 in black, the latter under a tank. For the first 3 months both were watered and they struck root freely, but in the black soil two died and in the red one, so that I have 21 out of the 24. The lot planted in the black soil is doing the best and are now between 3 and 4 feet high, the other lot are not so well grown and I attribute the difference mainly to the soil. I think the black soil suits the Ceara better. Besides those you gave me, I raised a lot of Ceara Rubber from seed, and these I planted all over the farm. I found that in the uplands they did not grow so rapid as those on the low land, *i. e.* on the level, but when the plants were sheltered by rows of Casuarinas or Honge, there was a marked difference. I may mention here that some of the plants which I left in the nursery threw out seed before two years old. I also raised good plants from cuttings, and observed however roughly handed in transplanting, the Ceara plants strike root and thrive often with very little care. Cattle are partial to the foliage."

Mr. Gibson reports—"The rubber plants (56 I think) you gave me have grown remarkably well. Some of them are about 10 or 15 feet in height and look quite healthy. I only lost two plants out of the 56 and this was owing to my gardener's carelessness. I shall send you more information about them when I next visit my farm. Several hundred rubber plants have been put down in Sausmond and they seem to thrive very well."

12. *India Rubber.—Ficus elastica.*—A number of plants have been propagated by layers, but the demand for this useful plant is almost *nil*. I am surprised that planters have not utilised it more freely on their estates where, in addition to giving shade to coffee, it would afford a paying product of its own. The tree loves moisture and would not suffer at Koppa or Manjarabad. Efforts to root small cuttings have been unavailing, but this is possibly due to the want of bottom-heat, which is an indispensable factor in the propagating pits of European gardens.

13. *Landolphia Kirkii.*—This African rubber plant continues to thrive, but its slow growth does not predict a speedy commercial value even if the milky juice was more abundant in its tissues. It is a twiner.

14. *Fruiting Plants.*—Acting on the suggestion of Dr. Bonavia, Civil Surgeon at Ettawah, who is an authority on the subject, I applied to Government and obtained sanction for the expenditure of Rs. 200 on introducing the Arabian date palm (*Phœnix dactylifera*) direct from the Persian Gulf. This work has been promptly and so far successfully carried out; thanks to Mr. Girdlestone, the Acting British Resident, who kindly gave me a letter of introduction to Colonel Ross, the British Resident at

the Persian Gulf. In October we received 116 offsets of the finest varieties of date, and excepting 6 which I believe are dead, the offsets are doing fairly well. Being unrooted, the present dry season is much against them, but when the rains set in, I hope to see a decided improvement in their condition. Last January we received from the Persian Gulf 41 lbs. of seed in pulp, and these, as directed in the Dewan's Proceedings No. 6527—517, dated the 28th February 1886, have been distributed as follows:—

	lbs.
Lal-Bagh	20
Chitaldroog District	4
Tumkur Do	4
Kolar Do	4
Mysore Do	4
Mr. Schiffmayer, Hennur Farm	2
„ T. T. Leonard, Beggars Bush Farm ..	1
„ G. Gibson, Sausmond	1
„ St. John Buchan	1
	41

The offsets and seeds arrived in capital order, and I am indebted to Mr. A. R. Hakim, Khan Bahadur, Assistant to the Political Resident, for much valuable information which accompanied them. But prior to receiving the above consignments, I had obtained some seeds from Mr. Ridley, Superintendent of the Horticultural Gardens, Lucknow, where the date palm is already domesticated through the efforts of Dr. Bonavia and Mr. Ridley. This seed produced 63 healthy seedlings which are now growing vigorously. An attempt was made to introduce the date palm in 1872—73, which resulted in failure; but Dr. Bonavia is sanguine of success and I shall do every thing in my power to support such a worthy object. In his book entitled "The Date Palm in India" he proposes the following management for Mysore:—

"For Mysore alone, I would suggest a special Government organizer and inspector, with seedling plantations in the vicinity of all the towns. In Bangalore, besides seedling plantations offsets of the best kinds might be planted. Having seen what trees can grow in Bangalore, I have no hesitation in stating that it offers great promise of success to the introduction of the date palm. Moreover, Mr. Cameron, Superintendent of the Government Garden at Bangalore, informs me that the *Phœnix sylvestris*, of which the *Phœnix dactylifera* is only a variety, is the Mysore toddy-palm. It is to be regretted that the experiment made with offsets in Bangalore in 1872—73 came to nothing. It is not surprising at all, they were planted in a dry exposed field, neglected, and probably not watered."

Writing to me a few days ago, the doctor urges the importance of sowing and planting periodically in the following words:—

"I am very glad to hear you have made so good a start with the date palm. If you go on sowing and planting every year, when they begin to fruit you will have the satisfaction of knowing that every year *more and more* will fruit. But if you plant one lot and then stop to watch the result, you will be sorry when you see the result that you did not make an *annual sowing*."

I quite concur in the above opinion. To make the experiment felt, we must obtain and sow large quantities of seeds at various centres every year. The importation of seeds is not an expensive measure, and judging from the courtesy already experienced I believe we have only to make our requirements known to be well served by the authorities at the Persian Gulf.

15. *The Litchi.—Nephelium litchi.*—Nearly a thousand plants of this Chinese fruit-tree have been raised from seed. The pulpy arillus of the fruit is cooling and exceedingly pleasant, when well ripened. To encourage distribution, Government might offer plants free of charge, as otherwise, there is very little demand for them.

16. *The Loquat.—Eriobotrya Japonica.*—Plants of a new variety have been propagated from seeds kindly presented by Mr. T. T. Leonard, who also sent me fruit to taste. The fruit is much superior in size and flavour to the old variety cultivated in local gardens, and I shall give its history in Mr. Leonard's own words.

"*Loquat.*—The special kind, of which I sent you some fruit and seed, was brought by me from the Taj at Agra. I raised about 50 plants from seed. They gave me no anxiety, and beyond ordinary care not much attention was bestowed on the plants. They thrive vigorously and those that fruited for the first time last year were not above 6 feet high, but with a very wide spreading umbrageous top. The fruit is excellent, in fact there is nothing to touch it in Southern India. This season I have not only raised a lot from seed, but have also grafted a number with a view to seeing whether the process would still further improve the fruit. The fruit is large and luscious, the number of seed varying from one to three. When seeds are single, they are large, oval, but when in 2's or 3's, they are not so well formed. The color of the fruit is deep golden yellow, and is aromatic and pleasant to both taste and smell."

17. *The Maltese Fig Cactus.*—I am indebted to the Agri-Horticultural Society of Madras for a number of leaves of the above plant, a few of which have struck root and are now growing nicely. As a near ally of the country prickly pear, it is proposed by Dr. Bonavia to graft the good fruiting varieties from Malta, on to the common plant, and so convert great tracts of useless cacti into a source of fruit for the million. Dr. Bonavia has so far succeeded in his proposal to the Government of Madras that I believe the latter has ordered a large number of plants to be sent out from Malta for experiment. But "fine fruit requires fine cultivation," and reflecting on the truth of this maxim, I fear the Malta figs will soon degenerate when left to struggle for existence on the barren plains of India. This opinion may be wrong however, and the plants now introduced will form a nucleus from which further experiments can be made.

18. Of other new fruiting plants received during the year, I have to mention the "Cochin China Vine" and the "Amoy Pumelo," both of which are growing well. The former is a very curious vine with tuberous roots and annual stem. It has not borne fruit.

19. *Cotton Plants.*—The cotton plants referred to in last report have continued to thrive, and seeds have been issued to several persons for trial.

We have added three new kinds to cultivation and the total number of varieties (from which I am collecting seed as fast as possible) are now as follows :—

1. Bamiah .. ..
2. Upland American .. ..
3. Fiji .. ..
4. Nankeen .. ..
5. South sea Island .. ..
6. Peruvian .. ..

The three last named are not sufficiently advanced in growth to enable me to form an opinion about them, but I shall submit my views in due course.

The "Bamiah" and "Uplands American" should, I find, be treated as annuals *i. e.* cultivated from seed every year, as they are not nearly so productive in the second year of growth as they are in the first. The Fiji, on the other hand, attains to a large spreading bush which is the most productive in the second year of cultivation. But as remarked before, the capsules are very small, and I do not think this form will prove of much value to the cultivator. The orders of Government are solicited regarding the distribution of cotton seeds.

20. Attention having been called to the increasing demand for vegetable silk in Europe, enquiries were set on foot to compare market prices with our own produce and the probable cost of delivery from this Province.

Samples of silk-cotton obtained from the ***Eriodendron anfractuosum*** (Bili Burgada Mara) were favorably reported on at London and Amsterdam, but the sparsity of the tree is supposed to prevent its being utilised for commercial purposes at present. District reports show, however, that the tree is sufficiently common to afford material for cultivation on a wide scale if the measure should ever be deemed expedient. Seeds have been distributed to District officers.

We also learned that the vegetable-silk afforded by such plants as ***Calotropis gigantea*** (Yekkagida) and *Wrightia tinctorea* (Hále Mara) is in demand and that considerable prices are being offered for it.

Of local plants which afford silk-cotton in varying quantity, I may be permitted to name the following:—

Bombax Malabaricum ..	..	..	..	(Burga.)
Ericdendron Anfractuosum	..	.	.	(Bili Burga.)
Cochlospermum gossypium	..	..	..	Do
Calotrapis gigantea	.	..	..	(Yekka Gida)
Wrightia tinctorea	..	..	..	(Hále Mara.)
Hoya viridiflora	..	..	..	(Climber.)
Cryptostegia grandiflora.	Cerepegia juncea	..	..	(Climbers.)

21 *Cereals.*—The special kinds which I have cultivated on a small scale, in view chiefly to raising seed for the ryots, are "Zulu Corn" (*Zea mays*) "Sweet Sorgho" (***Sorghum saccharatum***) and "Branching Doora" (*Sorghum vulgare*). Seeds of the latter were presented by Mr. Nepean Smith with a very flattering report, and subsequent cultivation proved that this variety of *jola* or *cholum* is superior to what is usually grown in the fields. At an early period of growth, the seedlings throw out many side shoots, which attain a large size and fruit abundantly. Five seers of seed have been submitted for distribution.

Small quantities of Zulu corn have been given to local cultivators. The Chinese sugar-cane (Sweet sorgho) has not had a fair chance owing to one cause or another, but its cultivation deserves every encouragement in the field, the straw being excellent forage for cattle while the grain affords food for man.

22. *Erythroxylon Coca.*—This new plant continues to thrive and a few seedlings have been raised. The latter are subject to damp off at a tender age if they are overwatered. They should be very carefully nurtured for six months.

23. *Swietenia Mahogany.*—Seeds of the Mahogany tree have been received from Madras and Ootacamund, and I am glad to report that 180 seedlings are now in stock. The parent tree in the garden has also flowered for the first time, and I am anxious to see if the species will remain seedless as it has persistently done at Madras. In its native country (The West Indies) this tree ascends to 3,000 feet. Judging from the condition of plants under cultivation, Mahogany has every prospect of doing well here. It is perfectly hardy.

24. Of other rare plants under trial, the following are the most important:—

Eucalyptus Calophylla	.	..	.	Red gum tree.
Do leucoxylon	..	..	..	Iron bark tree.
Do siderophloia	..	.	..	White Iron bark tree.
Do diversicolor	..	..	..	The karri tree.
Do cornuta ..	..	..	..	The yate tree.
Do occidentalis	..	..	..	..
Do punctata ..	..	..	..	..
Frenela robusta ..	..	..	..	..
Modecca palmata ..	..	..	..	..
Katung Bamboo ..	..	..	..	..
Seedless Bread-fruit tree (*Artocarpus incisa*)		..	..	..

In this connection, it is deserving of notice, that valuable consignments of Europe fruit trees have been imported into their respective gardens by Messrs. E. H. Butcher and T. T. Leonard, lists of which I have recently received from both gentlemen.

These lists comprise many new varieties of apple, peach, apricot, grape vine and orange.

Acting in the same spirit of enterprise, Messrs. Moonesawmy and Son have imported new potatoes and Mr. Schiffmayer of Hennoor Farm improved American tobaccos. Two additional Florists have set up business on the Lal-Bagh Road.

25. There are so many useful plants at our disposal that, in my humble opinion, some proper scheme should be organized by Government for their dissemination and practical utility in suitable parts of the Province. But as this subject cannot be fully treated here, I will, if permitted, submit my views for carrying out such a project in a separate communication.

26. *Botanical Class.*—The University results in Botany have been most favorable, although the class was a large one. It is therefore to be regretted that a change in the University curriculum has caused its abolition.

27. *Horticultural Shows.*—Two Shows were held during the year, one in August and the other in January. The total receipts taken at the gate on these occasions amounted to Rs. 681—8—0, and deducting this from the amount of prizes awarded, with other incidental expenses, the actual outlay on account of Shows was Rs. 553—7—11.

In getting up these exhibitions, although every officer helps to the best of his ability, there is always much difficulty experienced in securing the requisite number of tents at the proper time, and on this ground alone, it is desirable to have a permanent building erected where the Horticultural Shows could always be held. We have an excellent stone quarry close at hand, and by utilising granite pillars with a light iron roof, I am of opinion that an elegant and commodious structure could be completed for about Rs. 10,000. But it is a matter of consideration at present, whether the roof of such a large building should be made water proof throughout or if the greater portion should be merely covered (to obtain shade) by perforated iron sheeting. In the latter case checkered light would be admitted for the cultivation of plants, and the whole interior could be converted into a huge "Winter Garden". A glass conservatory would be much too warm, while the expense of building and keeping it in repair would be considerable. My further views on this question will be submitted very shortly.

28. *Menagerie.*—A few animals have been added to the collection, notably the "Nyl ghau" presented by Mr. Lavelle, and 2 brown bears that formerly belonged to the 43rd Regiment, Oxfordshire, Light Infantry. The latter are badly in want of a proper enclosure, and indeed, all the bears require more liberty than their present quarters afford.

We are still in want of lion and tiger cubs. The animals have been well fed and tended at an outlay of Rs. 3,596—15—1.

29. *Australian Ram.*—The ram presented from Mr. Ricketts' importation died from an attack of dysentery, after 24 hours' illness.

30. *Plants and seeds issued from the Garden.*—The total issue of plants and seeds was as follows:—

Particulars.	No. sold.	No. issued gratis.	Total.
Plants	4,357	1,694	6,051
*Seeds ... ... (Packets).	2,319	102	2,421

*Many of these consisted of several lbs. each.

31. *Donations received.*—The following donations have been received and acknowledged :—

1. Director, Royal Botanic Gardens, Kew..	Copy of the official guide to Kew Gardens. One ditto to the Museums of Economic Botany.
2. Government of Madras	Copy of Forest Report.
3. Honorary Secretary, Agri-Horticultural Society of Madras	Seeds, plants and copies of Proceedings.
4. Director, Government Botanical Gardens, Ootacamund	Seeds of Mahogany and numerous plants.
5. Superintendent, Horticultural Gardens, Lucknow	Seeds of the Arabian date palm.
6. Lieutenant-Colonel Cox	Bulbs from New Zealand.
7. Miss. Baker, Peermerd	Orchids and ferns.
8. Dr. Bidie, C. I. E., Madras ..	Seeds of Mahogany.
9. Superintendent, Government Gardens, Oodypore	Copy of Annual Report.
10. M. Lavelle, Esq.	A Nyl ghau.
11. T. T. Leonard, Esq., Bangalore ..	Plants of the grape vine, Katang bamboo, seeds of cotton and improved Loquats.
12. J. T. Ferguson, Esq., Calicut ..	Plants of Cochin China Vine.
13. Nepean Smith, Esq., Bangalore ..	Seeds of Sorghum Vulgare and 3 Australian plants.
14. Mrs. Egan, Peermerd	Orchids, bulbs and ferns.
15. Dr. J. Shortt, M. D., F. L. S, &c. ..	Numerous ferns (including fine tree specimens) and seeds of the olive, &c.
16. Mrs. Palmer, Bangalore	Pumelo seeds.
17. Sir Oliver St. John, Cashmere, through Colonel T. O. Underwood .	Cuttings of the chanar tree.
18. Colonel W. Hill, through the Subedar of Mercara	Seeds of *Balingi* and *Naga*, also a few orchids.
19. Rev. S. Mateer, F. L. S., Trevandrum ..	Numerous seeds and cuttings.
20. Mrs. Parsons, Bangalore.. ..	A loris.
21. Major Nugent, R. A., Bangalore ..	A brown monkey.
22. J. Vander Swaelman, Esq, Ghent ..	Seeds of kinds.
23. Major Anderson, R H. A.	A brown bear.
24. Mrs. Munro, Peermerd	Orchids and ferns.
25. K. Schiffmayer, Esq, Hennoor Farm ..	Seeds of American tobacco.
26. Captain Keary, 1st Pioneers ..	Three Afghan Hill Partridges.
27. G. Gibson, Esq.	Seeds of Nankin cotton.
28. St. John Buchan, Esq.	Plants of Begonia.
29. Messrs. Moonisamy & Son ..	New foliage plants.
30. „ Nagappa & Co. . ..	Do do

FINANCIAL RESULTS.

32. *Receipts.*—The amount recovered by the sale of plants, seeds and fruit, &c. was Rs. 1,987—1—4, the estimated value of gratis issue being Rs. 672—14—4. There is no falling off in receipts, but the balance of outstandings is slightly greater than was the case last year. The local growth of business in all departments of Horticulture has removed the monopoly of trade the Lal-Bagh once enjoyed. It is now shared by all the florists and seedsmen for which Bangalore is famous.

33. *Expenditure.*—I regret to report that the budget estimate (Rs. 14,108-0-0) has been unavoidably exceeded by a sum of Rs. 30—0—5, the actual expenditure under all heads being Rs. 14,138—0—5. But this small excess was entirely due to the inadequate provision of Rs. 500 for the two Horticultural Shows, and for which no similar budget grant was provided in former years.

A detailed statement of expenditure is here attached, from which it will be seen (after deducting the value of receipts) that the Botanical Gardens and Horticultural Shows have cost Government Rs. 12,150—15—1 during the year under report.

II. CUBBON PARK.

34. *Improvements.*—As the trees were getting crowded in the different clumps, it was necessary to use the axe and the pruning knife a good deal. More of this

will be required from time to time, but cutting down trees is a work which requires caution otherwise the effects produced will often be quite contrary to what may be intended Advantage was taken of the early rains to plant out a number of trees, including a good many seedlings of the Ceara rubber tree These have taken well to the soil and are now growing rapidly. General Sankey's presentation vase was moved to a better site in front of the Museum The obscure corner where it has stood so long is sadly disfigured by the tumble-down walls of Sampanghalh. I wish a portion of these gardens could be purchased and included into the Park

35. *Labor*—With 10 prisoners and a few coolies, Mestri Vardappa has worked well and kept the grounds in good order

36. *Receipts and Expenditure.*—The income was Rs. 427—14—0 against an outlay of Rs. 931—0—8. Actual cost Rs. 503—2—8

III. PALACE PARK AND GARDENS

37 *Progress of work*—Although there is not a large number of hands now employed on the grounds, still the results of unremitting labor are progressive, and each successive year finds something new accomplished. The fernery has been enlarged to nearly double its former size, and the liberal introduction of many rare plants will render this a pleasant and instructive resort from the heat of the sun. A large potting shed has been erected for the protection of men and materials, as well as for bulbous and tuberous plants when at rest.

The resumption of building on a large scale rendered the grounds somewhat untidy, but this is only a temporary drawback which will eventually result in further change and improvement, not only to the buildings concerned, but also to the grounds about them.

The flower beds and parterés were rendered specially bright and effective in July and August by using new strains of seeds obtained from Daniel Brothers, the Seedsmen of Norwich.

The mango plantation which belonged to the late Mr. Garrett has recently been purchased and added to the grounds This large addition will necessitate the extension of the boundary wall on one side and the formation of a ditch and aloe edge on the other number of trees, planted among the rocks, have taken root, especially those of the Ceara rubber.

38. *Supervision and Labor.*—I have visited the grounds twice a week and Mr. Battersby has attended daily to look after the supervision and give general directions He takes much interest in his charge and does every thing in his power to promote progress. Venkatasami, the Mestri gardner, is also a willing and intelligent servant

39 *Expenditure.*—Of the budget grant of Rs. 3,000 Rs 2,920—4—7 has been expended ; I have also received for special works from the Palace Assistant Commissioner the sum of Rs. 276.

Statement showing the Budget Grant and the Actual Expenditure for 1885—86.

PART I.

REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 16th July 1886.

)m the Deputy Commissioner, Hassan District, To the Chief Secretary to the Dewan of Mysore, No. 625—115, dated Hassan, 22nd June 1886.

I have the honor to submit for orders the question whether razinamas may be)ted for land on which crops are standing, the razinama taking effect for the during which it is tendered though the crops are to be afterwards harvested e same year. The question arises entirely in the case of lands cultivated with ıkha crops which are harvested in May or June in a year, but cultivated and ed in November and December of the previous year. The orders at page 7 of Mysore Revenue Manual, 1886, (para 2), No 1090—R. 6, dated 13th May , allow of such resignations being accepted especially because otherwise no nation can be given after the first month of the new year (April), and it is ble to argue that these orders do not apply to surveyed and settled taluks, the ey Superintendent's opinion as given in his communication No. 1833, dated August 1884, in the accompanying file of correspondence supporting this argu- . According to such opinion two years' assessment becomes due on one paddy

---

ALSO—

Chief Commissioner's Proceedings No. 1090—R. 6, dated 13th May 1874.

No. 3052-60—90, DATED 16TH JULY 1886.

ORDER THEREON.—The orders contained in the late Chief Commissioner's Pro- ings No. 1090—R. 6, dated 13th May 1874, (page 7, Revenue Manual, 1886) t apply to both settled and unsettled taluks. Under these orders—

1*st*. Razinamas presented before 30th April may be given effect to from 31st March preceding;

and 2*ndly*. Notwithstanding this, the relinquisher shall be permitted to remove any standing *Vaisakha* crop on the land, and for such purpose to remain in possession till 5th June or such other date as the Deputy Commissioner may consider necessary for the removal of such Vaisakha crop.

2. The particular case referred to must be disposed of by the Deputy Commissioner as above.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Hassan District, returning the Canarese papers received from him.
The Deputy Commissioners of the other Districts for information and guidance.
Copy to the Superintendent, Mysore Revenue Survey.

From the Superintendent, Mysore Revenue Survey, To the Chief Secretary to the Dewan of Mysore, No. 239, dated Bangalore, 22nd June 1886.

I have the honor to submit the usual Report on the progress made by the Mysore Revenue Survey during the Survey year ending 31st October 1885.

2. The Appendices to this Report, which enter into full detail, will be dealt with in regular order as I proceed.

3. *Changes in the Department.*—Mr. D. Sham Rao was appointed a Probationer in the Department and joined on the 3rd June. Learning under Mr. A. G. Hudson, he passed the Departmental examination in September.

Mr. A. G. Hudson, Assistant Superintendent, was transferred to the Bombay Survey from the 18th September. I much regret the necessity which lost to the Department so experienced and valuable an officer. Lieutenant-Colonel Cowie, as a temporary measure, took charge of Mr. Hudson's establishment (the **L**) in addition to his own, pending Mr. Sham Rao qualifying for the charge.

Lieutenant-Colonel Mackenzie officiated for Lieutenant-Colonel Rutherfurd as Deputy Superintendent during the latter's absence on 2 months' privilege leave.

Mr. Ramanujaiengar, who was put in charge of the **G** Measuring Establishment in June 1884, was promoted to the local grade of Assistant Superintendent from the 11th June 1885.

4. *Measurement.*—The following excerpt from Appendix No. 1 exhibits the total out-turn of the year under report compared with that of the year previous :—

Year.	Number of Establishments.	Number of Chains per Establishment.	Villages.	Fields.	Waslas.	Arable Acres.	Unarable Acres.	Total Acres.
1	2	3	4	5	6	7	8	9
1883—84	6	32·86	1,025	68,273	794,831	290,088	294,867	584,95
1884—85	6	32·67	1,136	85,593	975,950	346,024	348,139	694,16
Increase	...	...	111	17,320	181,119	55,936	53,272	109,20
Decrease	...	0·19	...	...	...	...	...	...

The above results have been obtained with the same number of establishments of almost precisely the same average strength of chains ; there has been an increase under each and every head. I may state, once for all, that although the steady average out-turn of the year previous has been more than maintained, the increase is mainly due to the **G** Establishment having been released from the resurvey work of coffee estates and gardens and having assumed its legitimate position as a regular measuring establishment, employed on original work. The average strength of each establishment has been kept just a shade lower than the year previous. The difference is very slight, but is nevertheless important as showing a larger out-turn with fewer men. The total out-turn has been very satisfactory. If Appendix No. 1 be examined, it will be seen how steady the average out-turn per establishment has been, Mr. Hudson's establishment, the **L**, heading the list with an unusually good out-turn, no less than 17 555 survey fields having been measured by this establishment alone.

5. The distribution of the days of the working season is next shown :—

	1883—84.	1884—85.
Boundary Disputes ..	2·37	4·03
Sickness	1·70	2·34
Non-co-operation ..	5·70	2·79
Rain	0·33	0·50
Travelling	3·24	3·46
In-door work	1·53	1·20
Holidays, &c.	3 67	3.62
	16·54	17·94
Actual measurement....	83·46	82·06
	100	100

Here there is a falling off, but it is quite accounted for under the two heads of boundary disputes and sickness, over which the officers in charge could of course exert no control. Non co-operation, it is satisfactory to find, shows a smaller loss than last year.

6. The locâle of the various measuring establishments during the year is next shown :—

Establishment.	Name of Officer.	Taluks in which employed.	Taluks in which miscellaneous work was performed.
1	2	3	4
A	Mr. D. Appu Rao ...	Bowringpet and Kolar ...	Mulbagal.
D	„ F. B. Clerk ...	Do ...	
E	„ M. S. Narayan Rao ...	Mysore and Seringapatam ...	
G	„ H. Ramanujaiengar ...	Nagamangala and Mandya...	A good deal of miscellaneous work in several Taluks.
H	„ T. Abdul Karim ...	Nagamangala and Closepet...	Attikuppa, Seringapatam.
L	„ A. G. Hudson ...	Seringapatam and Mandya ...	Attikuppa.

The country measured was comparatively open and presented no particular natural obstacle to rapid measurement.

7. *Boundary Disputes.*—These have been as shown below :—

Establishment.	Officer in charge.	Number of Disputes.	Area concerned.	Length of Boundaries in Miles.	Remarks.
1	2	3	4	5	6
A	Mr. D. Appu Rao	51	5,344	42	
D	„ F. B. Clerk	4	488	8	
F	„ M. S Narayan Rao	17	2,151	12	
G	„ H. Ramanujaiengar	9	1,099	10¼	
H	„ T. Abdul Karim	13	1,010	15	
L	„ A. G. Hudson	5	122	6	
		99	10,208	91¼	

Boundary disputes are increasing in number year by year. Last year only 5,193 acres and a length of 63½ miles were involved. It is a matter for regret that there should be an increase in this branch of the work, for scarcely any of the disputes are of long standing or of importance.

8. *Measuring Test.*—The mean average difference between test and original work was 32·40 of an acre against 29·40 the year previous.

The number of fields tested was 8,129 against 6,604 the year previous. Of these 5,064 were tested by Assistants and 3,065 by Surveyors. The proportion of test taken by Surveyors is greater than I quite approve of. In the D Establishment the fields tested by the Assistant numbered 433 against 801 tested by the Surveyor. No doubt Mr. Clerk was forced to proceed on 3 months' privilege leave on account of illness, but still it is not the less to be regretted that the Assistant's test was so small compared with the Surveyors. In the A Establishment the test taken by the Surveyors comprised 601 fields, but in this case Mr. Appu Rao's own test of 982 fields was so large in itself that the Surveyor's test may be regarded as purely additional and therefore beneficial.

The amount of test has, on the whole, been about the same as last year and has been sufficient. Appendix No. 2 shows that out of 8,129 fields tested, 5,357 were within 1 per cent, 2,012 within 2 per cent and 519 within 3 per cent. Where the difference exceeded the above percentage, and the instances are not numerous, the fields were exceedingly small. In the case of any serious difference, a further test was always taken to place it beyond doubt that the mistake was an isolated one and did not pervade the whole of the measurement of the village.

9. *Monsoon Office Work.*—Appendix No. 3 shows that the boundary mark returns of only 8 villages remained to be furnished at the close of the year and this branch of the work may therefore be considered satisfactory.

10. Appendix No. 4 shows a satisfactory state of things as regards examination of field books and maps, there being no arrears worth mentioning.

11. The field season closed on the 15th June, as last year.

12. *Classification.*—The following excerpt from Appendix No. 5 fully shows the result of the year's work as compared with the year previous :—

Year.	Number of Establishments.	Average number of Classes per Establishment.	Villages.	Fields.	Arable Acres.	Unarable Acres.	Total Acres.
1	2	3	4	5	6	7	8
1883—84	4	14·17	1,311	93,406	361,257	373,586	734,843
1884—85	4	15·86	1,424	103,579	371,620	359,632	731,252
Increase	...	1·69	113	10,173	10,363	...	...
Decrease	...	...	...	...	...	13,954	3,591

Although there is a slight falling off in the total area classed, it is satisfactory to find that it is only under the unimportant head of unarable acres that any decrease appears. The year's work is in fact very similar to what it was the year previous the increase in villages, fields and arable area classed being just what would be due to the greater average strength per establishment as shown in column 3.

13. The distribution of the days of the working season in the Classing branch has been as follows :—

	1883—84	1884—85.
Sickness	1·13	0·85
Non-co-operation.. ..	0·04	..
Rain	0·04	0·31
Travelling . .	1·99	2·82
In-door work	6·92	6·03
Holidays, leave, &c ..	4·15	3·08
	14·27	13·09
Actual Classification in the field....	85·73	86·91
	100	100

From the above figures it is evident that the most has been made of the working season.

14. The locale of the Classing establishments is next shown:—

Establishment.	Name of Officer.	Taluks in which employed.	Taluks in which miscellaneous work was performed.
1	2	3	4
C	Lt.-Col. G. Mackenzie ...	Mulbagal, Chintamani ...	Nil.
E	Mr. E. H. Butcher ...	Attikuppa	Manjarabad, Hassan, Channarayapatna.
M	Mr. J. P. Barker ...	Hoskote, Attikuppa ...	Belur, Shimoga.
O	Lt.-Col. D. Cowie ...	Mulbagal, Chintamani ...	

15. The work lay in a fairly easy country and was not so much scattered as a year previous.

16. *Classification Test.*—The mean difference between test and original work is only 3 pies against 4 pies the year previous and must therefore be considered very satisfactory. The amount of test was 8,458 fields and 33,839 acres against 9947 fields and 34,889 acres the year previous. The test applied has been ample and satisfactory. During the season both the Deputy Superintendent and myself accompanied the Classing Assistants and their men in the field in order to ascertain that all were working on an uniform standard.

17. *Monsoon Office Work.*—Appendix No. 7 shows that 289 villages were left uncompleted as regards monsoon office work at the close of the year. These villages not being immediately required for settlement, were allowed to stand over in favor of villages more urgently required. Still, whichever way regarded the work of these villages must be regarded as arrears. The fact is that the time of the recess was not long and sufficient notwithstanding that every effort was made to complete the whole of the work. As above stated, the arrears, provided they can be made up, are of no great consequence and I hope that during the coming recess this may be done.

18. *Distribution of Village Maps.*—The maps of 1,839 villages remained at the close of the year to be lithographed, mounted and issued to local officers. In this branch of the work, the amalgamation of villages which always follows settlement is the chief cause of arrears. Making due allowance for this source of delay, the arrears of the year under report, during which an unusual extent of country was brought under settlement, are by no means serious.

19. *Cost of Operations.*—The total cost of operations came to Rs. 2,35,078—5—4 against Rs. 2,44,781—11—5 the year previous. Appendix No. 9 fully shows how the saving has been effected and is due entirely to cheaper supervision.

The cost per acre has been as follows :—

	Year.		Cost per acre.
Measurement ..	1883—84	.. ..	0 3 3·93
	1884—85	.. ..	0 3 2·23
Classification .	1883—84	.. ..	0 2 0·60
	1884—85	.. ..	0 2 1·43
Total for both operation ..	1883—84	.. ..	0 5 4·53
	1884—85	.. ..	0 5 3·66

The combined cost per acre for both measurement and classification, including of course settlement, has gone down nearly one pie. For measurement alone the cost per acre has gone down nearly two pies, but for classification, a smaller area having been classed it has increased nearly one pie. That with such a marked improvement generally on the year previous in out-turn, and with a decrease in the total expenditure of nearly Rs. 10,000, there should be only a saving in the cost per acre of one pie shows how important is the smallest saving in the cost per acre. If column 3 of Appendix No. 10 be referred to, it will be seen that in the year under report the cost per acre for measurement has been less than in any year since 1871—72, in which and previous years the measurement was carried out in a very easy country with large holdings, as the large area measured clearly indicates. In the year under report, no such aid to rapid measurement existed, but, on the contrary, owing to the operation of the measuring rules of 1879, the survey fields have had to be made such smaller. The results are however as I have already stated chiefly due to the G Establishment being released from work in the coffee districts and to the very great strength of chains kept up per establishment and carefully supervised by my Assistants who have all worked well and ungrudingly.

20. In the same manner as adopted in previous reports, I now show the general progress of work, by Taluks :—

Total Number of Taluks.	Nature of Work.	Completed.	In progress.	Not commenced.	Remarks.
1	2	3	4	5	6
60	Measurement	50	8	2	
	Classification	46	7	7	
	Settlement	43	2	15	

21. There were 198 Measurers at the close of the year against 199 at the close of the year previous. In future years this figure will rapidly and steadily diminish. The number of Classers was 61 against 60 the year previous.

22. The settlement was introduced during the year under report into the following Taluks :—

1 Channarayapatna.
2 Yedatore.
3 Bagepalli.
4 Sidlaghatta.
5 Late Devanhalli (portion transferred to settled Taluks).

I give each Taluk as a whole, but I may state that the system was followed o leaving no unsettled villages in already settled Taluks; thus a considerable numbe of villages transferred to Arsikere and Holé-Narsipur were settled with Channaraya patna. The settlement work of the year has, it will be observed, been very heavy Looking at it from a revenue point of view, a revenue of, in round numbers Rs. 3,80,000 has been raised by the settlement to Rs. 4,82,449.

23. *Allocation of Inams.*—The mode and principle of allocating minor inams were not settled early enough in the year to admit of more than one Taluk, that of Challakere, being disposed of The results were as below :—

No. of Cases.	Confirmed as Inam.		Brought under khálsát.	
	Acres.	Asst.	Acres.	Asst.
145	340	1,029-6-9	11·24	48-2-0

This branch of the work will of course now proceed without interruption.

24. The number of Inam villages measured and classed is shown in the following statement :—

Operation.	Villages by Valuation Survey.	Villages by Detail Survey.	Total Villages.	Area.	Cost per Acre.	Total Cost.
1	2	3	4	5	6	7
Measured	74	20	94	47,527	0-1-11-58	5,836- 8 7
Classed	179	37	215	98,719	0-1- 0-66	6,413-13-10

25. *Final Remuneration of Village Officers.*—In this branch of the work considerable progress was made and the necessary statements for the Taluks noted in the margin prepared, but pending a discussion of some points connected with the final remuneration of village officers were not submitted for sanction.

1. Manjarabad.
2. Dodballapur.

26. On the whole, we have received ready aid and assistance from the Revenue authorities when applied for. I append, in justice to the officials concerned who have rendered special assistance and, in the interest of Government, in the case of those unfavorably mentioned, a statement (**A**) prepared by the Deputy Superintendent. It will be seen that much valuable assistance has been given excepting in two instances.

27. The duties of the Deputy Superintendent, which are exceptionally heavy, were very efficiently carried out by Lieut.-Colonel Rutherfurd and for 2 months, during which that officer was absent on leave, by Lieut-Colonel Mackenzie. Both in the Measuring and Classing branches, the Assistants have done good work as amply proved by the results shown in this report, In the Measuring branch, I have already noticed the especially large out-turn by the establishment under Mr. A. G. Hudson In the Classing branch a reference to Appendix No. 5 will show that in the **E** and **M** Establishments under Mr. E. H. Butcher and Mr. J. P. Barker, respectively, a great deal of work has been got through, the strong establishments employed requiring special exertion on the part of the officers in charge.

The cost per acre has been as follows :—

	Year.			Cost per acre.		
Measurement ..	1883—84	.	..	0	3	3·93
	1884—85	..	..	0	3	2·23
Classification .	1883—84	..	..	0	2	0·60
	1884—85	.	..	0	2	1·43
Total for both operation ..	1883—84	..	..	0	5	4·53
	1884—85	.	..	0	5	3·66

The combined cost per acre for both measurement and classification, including of course settlement, has gone down nearly one pie. For measurement alone the cos per acre has gone down nearly two pies, but for classification, a smaller area having been classed it has increased nearly one pie. That with such a marked improvemen generally on the year previous in out-turn, and with a decrease in the total expenditur of nearly Rs. 10,000, there should be only a saving in the cost per acre of one pi shows how important is the smallest saving in the cost per acre. If column 3 o Appendix No. 10 be referred to, it will be seen that in the year under report th cost per acre for measurement has been less than in any year since 1871—72, in whicl and previous years the measurement was carried out in a very easy country with larg holdings, as the large area measured clearly indicates. In the year under report, n such aid to rapid measurement existed, but, on the contrary, owing to the operatio of the measuring rules of 1879, the survey fields have had to be made such smaller The results are however as I have already stated chiefly due to the G Establishmen being released from work in the coffee districts and to the very great strength o chains kept up per establishment and carefully supervised by my Assistants wh have all worked well and ungrudingly.

20. In the same manner as adopted in previous reports, I now show th general progress of work, by Taluks :—

Total Number of Taluks.	Nature of Work.	Completed.	In progress.	Not commenced.	Remarks.
1	2	3	4	5	6
60	Measurement	50	8	2	
	Classification	46	7	7	
	Settlement	43	2	15	

21. There were 198 Measurers at the close of the year against 199 at th close of the year previous. In future years this figure will rapidly and steadily diminish. The number of Classers was 61 against 60 the year previous.

22. The settlement was introduced during the year under report into th following Taluks :—

1 Channarayapatna.
2 Yedatore.
3 Bagepalli.
4 Sidlaghatta.
5 Late Devanhalli (portion transferred to settled Taluks).

I give each Taluk as a whole, but I may state that the system was followed o leaving no unsettled villages in already settled Taluks ; thus a considerable numbe of villages transferred to Arsikere and Holé-Narsipur were settled with Channaraya patna. The settlement work of the year has, it will be observed, been very heavy Looking at it from a revenue point of view, a revenue of, in round numbers Rs. 3,80,000 has been raised by the settlement to Rs. 4,82,449.

23. *Allocation of Inams.*—The mode and principle of allocating minor inams were not settled early enough in the year to admit of more than one Taluk, that of Challakere, being disposed of. The results were as below :—

No. of Cases.	Confirmed as Inam		Brought under khâlsât.	
	Acres.	Asst.	Acres.	Asst.
145	340	1,029-6-0	11·24	48-2-0

This branch of the work will of course now proceed without interruption.

24. The number of Inam villages measured and classed is shown in the following statement :—

Operation	Villages by Valuation Survey.	Villages by Detail Survey.	Total Villages.	Area.	Cost per Acre.	Total Cost.
1	2	3	4	5	6	7
Measured	74	20	94	47,527	0·1·11·58	5,836- 8 7
Classed	179	37	215	98,719	0·1· 0·66	6,413-13-10

25. *Final Remuneration of Village Officers.*—In this branch of the work considerable progress was made and the necessary statements for the Taluks noted in the margin prepared, but pending a discussion of some points connected with the final remuneration of village officers were not submitted for sanction.

1. Manjarabad.
2. Dodballapur.

26. On the whole, we have received ready aid and assistance from the Revenue authorities when applied for. I append, in justice to the officials concerned who have rendered special assistance and, in the interest of Government, in the case of those unfavorably mentioned, a statement (**A**) prepared by the Deputy Superintendent. It will be seen that much valuable assistance has been given excepting in two instances.

27. The duties of the Deputy Superintendent, which are exceptionally heavy, were very efficiently carried out by Lieut.-Colonel Rutherfurd and for 2 months, during which that officer was absent on leave, by Lieut-Colonel Mackenzie. Both in the Measuring and Classing branches, the Assistants have done good work as amply proved by the results shown in this report. In the Measuring branch, I have already noticed the especially large out-turn by the establishment under Mr. A. G. Hudson. In the Classing branch a reference to Appendix No. 5 will show that in the **E** and **M** Establishments under Mr. E. H. Butcher and Mr. J. P. Barker, respectively, a great deal of work has been got through, the strong establishments employed requiring special exertion on the part of the officers in charge.

Statement of Revenue Officials favorably and unfavorably reported on by the Officers in charge of Measuring and Classing Operations.

Taluk.	Name.	Rank.	Remarks.

No. 3142-50—57, DATED 19TH JULY 1886.

ORDER.—Recorded.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Superintendent, Revenue Survey.
The Deputy Commissioners of Districts.

PART I.

FINANCIAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 16th July 1886.

READ—

Letter No 759—141 of the 1st July 1886 from the Deputy Commissioner, Hassan District.

No. 3043-51—89, DATED 16TH JULY 1886.

ORDER.—Amildars travelling beyond their jurisdiction on *bonâ fide* Government duty will draw batta and mileage at the rates prescribed for the Munsiffs; namely—

2 rupees a day travelling allowance.

4 annas mileage.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Hassan District,
The Deputy Commissioners of other Districts.
The Comptroller.

READ—

Letter No. 64—11, dated 10th April 1886, from the Inspector General of Police, recommending that the rules governing the pensions and gratuities of the Provincial Police and other Departments be made applicable to the Police of the Bangalore Town;

Letter No. 3770, dated 29th March 1886, from the Comptroller of Mysore to the Inspector General, suggesting the advisability of the said extension;

Proceedings of the Dewan No 1605—Circular 39, dated 30th May 1881, directing the application of the Codal Rules of pensions and gratuities to the inferior service of all Civil Departments in the Province in the place of the Special Rules which allowed gratuities only;

Proceedings of the Dewan No. 3073—73, dated 9th July 1881, extending the said rules to the Provincial Police, and

Proceedings of the Dewan No. 4515-16—341, dated 31st October 1884, abolishing the Superannuation Fund of the Bangalore Town Police and directing the application to them of the rules regarding pensions and gratuities sanctioned in Government of India Notification No. 549, dated 11th May 1877.

No. 3255-7—318, DATED 22ND JULY 1886.

ORDER.—In modification of the Proceedings of the Dewan No. 4515-16—341, dated 31st October 1884, read above, in so far as it relates to the pensions and gratuities of the Bangalore Town Police, the Dewan, with the sanction of His Highness the Maharaja, directs that the rules of the Civil Pension Code regarding pensions and gratuities to inferior servants sanctioned for all Departments except the Bangalore Town Police in Proceedings No. 3073—73, dated 9th July 1881, be also applied to the Police of the Bangalore Town.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Inspector General of Police.
The Comptroller.
The Compiler, Mysore Gazette, for publication.

READ THE FOLLOWING PAPERS:—

Dockets from the Deputy Commissioner, Shimoga District, Nos. 1165—934 and 10—9 of 24th March and 3rd April 1886 respectively, submitting the Budget Estimates of the eleven Municipalities in the District for the official year 1886—87.

No. 3588-93—74, DATED 30TH JULY 1886.

ORDER THEREON.—The estimates of receipts and expenditure of these 11 Municipalities of the District for the current official year are as shown in the subjoined statement:—

2. RECEIPTS—*Octroi.*—The estimates of receipts are generally based on those of the past year and on the actuals of 1884—85 and of the first six months of 1885—86.

3. In Shimoga, a sum of Rs. 100 is expected from "*Market Rents*"; and the estimate of income from scavengering cess is entered at Rs. 500. The report referred to in para 4 of the Dewan's Proceedings No. 1897-1902—64 of 30th June 1885 on the subject of the proposed introduction of scavengering cess into the town of Shimoga will be awaited.

4. EXPENDITURE—*Collection.*—Establishments for collection of octroi and house-tax and mohatarfa are maintained only in the town of Shimoga, no charge being incurred on this account in the other Municipalities in the District. In the former a saving of Rs. 132 will be effected in the current year by dispensing with the services of 1 Kolkar on Rs. 5 and reducing the pay of 6 Kolkars from Rs. 5 to 4 per mensem.

5. *Head Office.*—The provision for expenditure under "Head Office" is Rs. 579 against Rs. 567 in the past year as shown in the margin. This is passed, subject to the remarks made in para 3 of the Dewan's Proceedings No. 4090-5—140 of 22nd October 1885.

Details.	1885—86.				1886—87.

Total Reduction...	...	...	...	156	...	...	...	...
Balance.....	...	...	...	567	...	...	...	579

6. The estimated outlay on Public Works amounts to Rs. 7,696 against Rs. 17,960 in the past year. The estimates of surplus at the credit of the Municipalities in the District would seem to admit of some further expenditure upon useful Municipal Public Works after reserving ¼th of the estimated gross receipts for closing balances.

7. *Education.*—Under the head "*Education,*" provision has been made for the English Schools at Channagiri, Honnali, Siralkoppa, Tirthahalli and Shikarpur sanctioned in the Educational Department during the past two years. The budget of Shikarpur provides for ¾th of the cost of the English School at that Station instead of a moiety of the charge as directed in the Dewan's Proceedings, Educational Department, No. 2263—4 of 24th October 1884. The provision is passed.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 30th July 1886.

8. *Conservancy.*—The charges budgetted for under "Conservancy," compared with those of the past year, exhibit an increase of Rs. 108 with regard to Establishment and a decrease of Rs. 376 as regards other charges showing a net decrease of Rs. 268 as detailed in the margin. These charges are approved.

Towns.	Details.	Difference, Estimate Rs.
Shimoga.	Increase of 2 sweepers at Rs. 5	+120
	Do to the pay of a Peon raising his pay from Rs. 5 to 6	+ 12
Honnali.	Six sweepers at 4 instead of as in last year 5 at 4 for 12 months and 1 at 4 for 8 months	+ 16
Nyamti.	Six sweepers at 4 instead of 5 at 4 ... + 48	
	Decrease on account of 2 scavengers at 7 reduced —168	—120
Sirakoppa.	Five sweepers at 5 instead of 4 at 5 for 12 months and 1 at 5 for 8 months ...	+ 20
Sorab.	Five sweepers at 5 instead of 4 at 5	+ 60
	Total=(Increase).....	+ 108
Other Charges.	Rs. 2,318 against Rs. 2,694 in 1885—86. ...	—376
	Net Decrease=.....	—268

9. *Lighting.*—The cost of lighting 40 lamps in Shimoga is estimated for the current year at Rs 450 at the rate of 15 annas per lamp per mensem. With regard to the provision for lighting in the minor Municipalities of Channagiri, Honnali, Nyamti, Shikarpur, Siralkoppa, Sorab and Sagar, the Deputy Commissioner's attention is drawn to the remarks made in para 17 of the Dewan's Proceedings No. 1897-1902—64 of 30th June 1885 above quoted.

10. With the foregoing remarks the budgets under review are sanctioned.

R. VIJAYINDRA RAO,

Chief Secretary.

To—The Deputy Commissioner, Shimoga District.
The Comptroller with copies of sanctioned Budgets and their details.
The Education Secretary with extracts of details of Education charges.
The Inspector General of Police with extracts of details of Police charges.
The Senior Surgeon.
The Secretary, Public Works Department, for information.

R. VIJAYINDRA RAO,
Chief Secretary.

PART I.

GENERAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 14th July 1886.

From the Officer in charge of the Amrut Mahal Department, To the Chief Secretary to the Dewan of Mysore, No. 105, dated Bangalore, 10th July 1886.

I have the honor to submit the Annual Report on the Amrut Mahal Breeding Establishment for the year 1885—86.

Season and Rain-fall.—Water and pasturage were very scarce during great part of the year. Foot and mouth disease, malignant catarrh and anthrax fever prevailed till February both among the Amrut Mahal cattle and throughout the Province.

About July it was feared that the loss among Government cattle would be very great, but the October rains improved the prospects of the country, and the losses though very heavy were not so overwhelming as was for some time apprehended. In this respect the year was similar to the previous one.

Number of Cattle.—The strength for the year was 15,830 head of cattle, of which 1,519 were calves born during the year and 16 were from transfers omitted to be shown in the last year's accounts. Of these, 1,386 were sold and 1,987 died, leaving on the 31st March 1886, 12,457 head of cattle on the returns as shown hereunder:—

	Female Cattle.										Male Cattle.

Births.—766 were female and 753 were male, making a total of **1,519** births. The percentage was 29·13 as against 50·3 in 1884—85.

Deaths.—The loss from different causes was 1,987 head of cattle, chiefly from various diseases, from old age and general debility and from the ravages of wild beasts.

The percentage of death was 14·66 as against 9·58 in 1884—85, the average for some years in the old Amrut Mahal having been 10 per cent though it was greatly reduced of late except in very bad years.

Transfers.—1,032 heifers were transferred to the head of cows and 1,456 calves to that of branded cattle.

Sales.—1,386 head of cattle were sold for Rs. 41,707—2—0 as particularized below :—

Places where sales were held.	Female Cattle.						Male Cattle.										Total.	Average per head.		Amount realized.		
	Cows.	Heifers, 1881.	1882.	1883.	1884.	1885.	Without brand.	Bulls.	Tollicoos.	Steers of 1879.	1880.	1881.	1882.	1883.	1884.	1885.	Without brand.	Carriage bullock.		Rs.	A.	P.

Grand Total.....	...	325	29	14	24	69	31	28	5	...	10	50	211	450	65	33	29	1	1,386						

The average price realized per head of cattle sold is Rs. 22—0—3 as against Rs. 27—0—7 in 1884—85 ; and upon the total number including that sold to the Madras Government, Rs. 30—1—5 as against Rs. 37—0—2, a result due to the bad season.

Hides.—Rs. 989—14—0 were credited into the Treasuries during the year.

Terige on Kavals.—Rupees 11,756 were imposed during the year, but on account of the unfavorable character of the season the amount was subsequently reduced to Rs. 6,980.

Financial.—The financial result of the year is shown below :—

Value of Cattle sold to the public.	Value of Stock sold to the Madras Government.	Hides (estimated).	Tangedi bark license fees.	Minor forest produce including honge leaves.	Miscellaneous.	Terige on Kavals.	Total.
1	2	3	4	5	6	7	8
21,707 2 0	20,000 0 0	1,000 0 0	1,628 13 0	804 14 0	152 8 10	6,980 0 0	52,073 5 10

The sums shown in columns 2, 4, 5 and 6 have already been collected and credited into the Treasuries in full. The collections from the other sources will be shown hereafter under the demand for the year.

Demand for the year.—Rs. 733—15—0 on account of hides and Rs. 449—0—0 value of cattle sold which had been previously recovered and credited into the Treasuries were inadvertently shown as outstanding in 1884—85. Excluding these items the balance on account of previous years was Rs. 29,629—3—0 and not Rs. 30,812—2—0. Adding the revenue of the present year to the outstandings at the end of 1884—85, the demand was Rs. 81,702—8—10, of which Rs. 68,464—3—3 were collected and paid into the Treasuries within the year, leaving a balance of Rs. 13,238—5—7 as shown below :—

	Value of Cattle.	Terige on Kavals.	Other Items.	Total.
Demand including outstandings	61,971 4 0	13,802 12 0	5,928 8 10	81,702 8 10
Collection	58,005 0 9	6,883 0 8	3,576 1 10	68,464 3 3
Balance on the 31st March 1886 to be recovered	3,966 3 3	6,919 11 4	2,352 7 0	13,238 5 7

The sum of Rs. 2,352—7—0 shown under " Other Items" as outstanding forms the estimated value of hides. Out of the balance which stood on the 31st March 1886, Rs. 1,657 have been recovered on account of the value of cattle sold and Rs. 753 for terige on kavals

The statement given below shows the details of expenditure of the Department for the past 4 years :—

Items.	Expenditure for 1882—83.	For 1883—84.	For 1884—85.	For 1885—86.	Remarks.

The remarks column contains the reasons for increased expenditure.

General Remarks.—All the herds were inspected during the year and the condition of most of the cattle was better than I expected considering that the season was unhealthy and that grass and water had been very scarce for many months.

The year was in most respects the worst for cattle of any since the famine. In April the reports from the Districts were very unfavorable, cattle disease was prevalent, drinking water and pasturage very scarce and difficult to be procured and the cattle generally were in very bad condition. During May there was no improvement and even in the jungles the pasturage failed. Rain fell in June and July and prospects improved to some extent. In August the effects of the failure of rain were greatly felt and the reports were very gloomy; murrain was spreading; deaths from all causes on the increase; the supply of grass and water falling off and in many places the village cattle being fed on date leaves, roots, &c. During September great mortality resulted from the debilitated state to which the cattle had been reduced, and though rain had fallen considerable fears for the future were entertained. By the 19th September, however, prospects had improved everywhere except in Tumkur, and in the first week of October, owing to further rain a general and decided improvement in the supply of fodder and condition of the cattle was reported from all parts of the Province.

The inevitable result in the Amrut Mahal Department has been heavy mortality, a very small birth rate and lower prices for cattle sold. The returns show that the greatest number of deaths occurred in May, June and July, but 176 were registered in April and the average from August to December inclusive was nearly 134 per month. Out of the total number of deaths, *viz.* 1,987, 865 were cows, of which about 600 were cows of over 11 years of age. It would be of little use to give in detail the causes of death assigned by the Servegars who attribute deaths to all

kinds of causes, many of them superstitious and others unintelligible. Classifying them however as far as can be done the result is as follows:—

Killed by wild beasts or snake-bites.	Old age and debility	Accidents and injury.				Diseases.											Superstitious or unintelligible cases.		Total.
		Injuries and wounds.	Accidents	Gored and trampled by other cattle.	Heavy rains.	Anthrax.	Foot and mouth	Malignant catarrh.	Diarrhœa.	Apoplexy.	Lung disease.	Inflammation.	Parturition.	Milk fever	Calves dying from want of milk.	Atrophy.	Doubtful, &c.	Nelputt.	Marlhakki.	
363	354	136	51	31	22	25	69	204	47	30	81	17	16	53	38	23	357	57	7	1,987

No cases of dod-rega or rinderpest were reported though it was common throughout the country.

If the year had been a good one there was every reason to expect a large number of births as the birth rate during the previous year had been very low, but owing to the season the number was as low as in 1882—83. In 1884—85, 2,665 cows out of 5,756 gave calves, leaving, 3,091 which should have calved during 1885—86, whereas less than half that number of calves were born.

The lower average price of cattle sold is due to the bad season. There was less demand, and many of the cattle were not in as good condition as usual. The number of cows of each year sold was as below:—225 were more than 12 years old and the remainder were selected as being generally inferior.

A statement is appended showing the work done in the Districts by the Amrut Mahal Officer.

The Cattle Registers have been completed and the brand and the name of every nimal correctly entered. The musters are now made not by counting the total of ie cattle in each pál or sub-division of a herd, but by checking each individual nimal by name, year brand, and number. The Servegars who objected to the system t first, now see the advantage of it as they can recover their stray cattle from ther herds by identifying the brand, and it is of great use in furnishing information egarding the number of cattle of each year in the herds, in selecting for sale and in ecking the births.

During the year the whole system of allotment of kavals was revised. The ivals allotted to each herd were much scattered and it is now proposed to form iem into 30 divisions, in which the kavals situated in adjoining talukes will be oncentrated as much as possible. This has met with much opposition from the ervegars, and probably a good deal of difficulty will be experienced in carrying it

into effect, but if it can be done, supervision will be greatly facilitated. Thirty kavals were resigned to the Revenue Department and the total number is now 229.

The question of the Amrut Mahal cattle grazing in the Coorg jungles has not yet been finally settled, but the cattle have grazed there as usual, their locations being regulated by the Forest officer under rules agreed to by him and myself.

Silos.—The silos made at Hunsur for the Public cattle of the Madras Government were very satisfactory, but much time was lost by the Amrut Mahal Darogas in making silos in the kavals. Nothing could be done till near the close of the year owing to failure of grass, but 11 experimental silos have been dug and filled in the places shown in the statement enclosed, and every exertion will be made to do more next year. Rupees 306—2—0 were spent on account of silos and cultivating cholum and cutting and stacking grass.

Although the year has been so unfavorable to the cattle, the financial results have been satisfactory. It will be observed that the number of cattle is slightly below what were taken over from the Madras Government in 1882. There is no reason why the establishment of cattle should be increased beyond what it was at that time, and the object has been to keep to that strength by selling the surplus and inferior stock.

As already reported, the actual cash receipts of the Department this year were Rs. 68,464—3—3 and the amount of expenditure was Rs. 35,895—0—6, which shows a surplus of Rs. 32,569—2—9 in the Treasury to the credit of the Amrut Mahal.

The result of the working of the Department from the beginning is detailed below :—

Part of the increased revenue is due to the imposition of terige, but I have found great difficulty in managing this branch, and I have doubts whether it can be relied on at least to the extent estimated, as the collection is very troublesome.

The Assistant Mr. Gopalaiengar was attacked by severe fever from exposure on tour and was obliged to take leave from 8th January 1886 to 20th February 1886. The Dewan has been pleased to recognize his services by fixing his salary for the present at Rs. 200 per mensem with effect from 1st April 1886 with a maximum pay of Rs. 300, which is the salary of an Assistant Superintendent of Revenue Survey of the the 1st class, and the travelling allowances of an Assistant Commissioner.

No. 2955-70—294, DATED 14TH JULY 1886.

ORDER.—The above report will be printed and circulated to all Heads of De partments.

2. The year under report was not a good one for the Department. The deat rate was 14·66 against 9·58 in 1884—85; the average price per head of cattle sol was Rs 22 against Rs. 27 of the previous year, and the tax on kavals was reduce from Rs. 11,756 to Rs. 6,980: all due to the unfavorable season of the year, insuff cient rain, consequent failure of pasturage and spread of disease.

3. The financial result is: Receipts Rs. 52,073—5—10 against Disbursement Rs. 35,895-0-6, leaving a balance of Rs. 16,178—5—4, the net income from lan measuring 471,842 acres constituting the Amrut Mahal kavals.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Officer in charge, Amrut Mahal Department.
The Deputy Commissioners of Districts and all Heads of Departments.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 17th July 1886.

READ THE FOLLOWING PAPER—

This Office Proceedings No. 5334—195 of the 15th December 1885.

No. 3062-80—121, DATED BANGALORE, 17TH JULY 1886.

ORDER THEREON.—In para 7 of the Proceedings above read, a separate Department was created for accurate compilation of statistics regarding weather, agriculture, public health, &c., under the supervision of Mr. L. Ricketts as Director of Statistics. This measure has necessitated change in the existing returns connected with this Department and now compiled in this office.

2. The number and description of the various returns are enumerated in the annexed List A. The Government is satisfied that the number is susceptible of reduction. Where monthly and annual returns are submitted by the District officers, the latter may cease, the annual compilation being made in this office from the information contained in the former. Similarly, annual returns may be stopped when the information in them can be gathered from the quarterly returns; information in some instances relating to a particular subject is embodied in two different forms of returns, this repetition may be avoided. Again returns dealing with information of a permanent nature, such as number of civil divisions, number of inam villages, &c., are rendered every year in elaborate forms, while a short annual memo of changes if any in the return once previously furnished should suffice. The Dewan accordingly directs that such superfluous returns as are noted in the memo in List A may be dispensed with from 1st July 1886. The total number of returns required in this office will thus be reduced from 90 to 66 as mentioned in the List B, which also shows the dates on which different returns are due, and distinguishes the returns receivable in this office from those to be rendered direct to the Director of Statistics and Agriculture.

3. The headings in several of the said 66 forms retained as per List B have been modified to suit the changes in the administration introduced since 1866 when the forms were originally framed.

4. The List C shows the returns due to the British Resident, the punctual submission of which is dependant upon timely receipt of information from the officers noted in column 3 of the list; the Dewan trusts that the officers concerned will arrange for the transmission of these returns within the time prescribed in column 5 of the list.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioners of Districts.
The Comptroller.
The Director of Statistics.
All Heads of Departments.

Memorandum, dated 12th July 1886, by Major C. Bowen.

I inspected this morning, in company with Dr. Benson, Mr. Abdul Khader, Mr. S. Lee, and several members of the Municipality, the blocks of buildings in the Fort which it is proposed to remove. Mr. Bayly was unfortunately not able to attend from illness.

It was decided that the whole of the block in the north-western angle of the Fort should be cleared away bodily *with the exception* of a line of good double storied houses, 5 or 6 in all, which lie close to the back wall of the Palace Barracks. These houses appeared to me of a superior class, the compensation for them would certainly be heavy, and after the removal of the agglomeration of wretched dwellings lying to the north and the proper repair or renovation of some of their backyards and walls, which the Deputy Commissioner informed me would be insisted on, all essential requirements on this side will be met.

The estimate for compensation for the block above referred to amounts to Rs. 29,000, but I was assured on all sides that when it comes to buying out the occupants very much more will be required. We questioned some of the owners as to what they would consent to sell for, and they invariably pitched their demands at about double the sums estimated. I must add also that on going over several of the houses personally, I was impressed with the idea that the estimate was in some instances much too low.

There will certainly be difficulty in dealing with the inhabitants who must be talked over if possible, but who will of course hold out for high prices; and if summary measures be resorted to, law suits will follow, and I was given to understand that in previous similar cases when the law was appealed to, compensation was awarded 50 per cent higher than the compensation offered by the Municipality.

I think then I may safely say that not less than Rs. 40,000 will be required for the houses to be cleared away in this locality and I would urge that the President be authorized to proceed with the necessary negotiations up to this limit. Action should be taken *at once*, for delay in my opinion intensify opposition on the part of the people and lead to higher demands.

This sum may appear a large one; but after personal inspection of all the lanes and alleys of this locality, I cannot urge too strongly the necessity of clearing away what must be a nest of disease lying under the very walls of the Palace.

The above locality disposed of, we proceeded to inspect the blocks of houses lying in the south-western angle of the Fort, and decided to sweep away all the small houses lying to the south of the Palace and west of Palace Road, leaving the few larger ones standing. These it is unnecessary and expensive to remove. A few isolated houses of this class cannot be objectionable, and the clearing away of all the others will open out the place sufficiently.

I cannot say what will be required to meet this, as no estimate nor detailed list for this part of the Fort has been prepared as yet. The cost ought to be very much less than the compensation for the north-western portion, but it is as yet impossible to say. An estimate should be made at once, and the Municipality might be authorized to open at once negotiation with the proprietors.

These clearances will effect an immense improvement in the surroundings of the Palace, and will have a marked effect on the sanitation of the place. No time should be lost in effecting them, for the poisonous effluvia from the slums I visited might I believe at any moment breed a disastrous epidemic. The outlay will be in the direct interests of the Royal family and on this score, however heavy it may be considered, I think the necessary formal grant should be made at once. Delay is

dangerous. The pollution of the air about some of these streets was this morning to me almost unbearable, and I cannot advocate too strongly the immediate removal of so serious a nuisance.

To-morrow morning I shall determine with Dr. Benson and Mr. Lee on what work the convicts should first be employed.

No. 3190-3—D. P. W. 33, DATED BANGALORE, 18TH JULY 1886.

ORDER THEREON.—For the purpose of removing the houses in the north-western angle of the Mysore Fort referred to in the foregoing note, a sum of Rs. 30,000 is sanctioned. The Comptroller will place this amount at the disposal of the Deputy Commissioner of Mysore who will proceed immediately to acquire the smaller houses in the locality in question in accordance with instructions contained in Dewan's Memo dated 9th July 1886.

2. The Deputy Commissioner will be requested to expedite the submission of the maps and valuation list called for in the above Memo both for the houses, the moval of which is now ordered, and for houses in the south-western angle of the Fort.

3. Before the owners are required to vacate the houses proposed to be removed, suitable building sites should be allotted to them in the "Western Extension". A sketch map showing the streets set apart for this purpose should be previously submitted for sanction.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Secretary, Public Works Department.
The Deputy Commissioner, Mysore, for information, guidance and communication to the Town Magistrate.
The Comptroller.
The Sanitary Engineer.

No. 3268-76—CIR. 130, DATED 22ND JULY 1886.

ERRATUM.

In para 1 of Dewan's Proceedings No. 269-77—13, dated 8th April 1886, for "two" third class Deputy Commissioners read "three" third class, and for the figures Rs. "1,600" read Rs. "2,400."

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Comptroller.
The Deputy Commissioners of Districts.

PART I.

PUBLIC WORKS.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Public Works Department),—dated 29th July 1886.

No. 81.

CIRCULAR MEMORANDUM.

From the 1st August 1886, the petty construction (not including additions to or alterations of existing buildings) and repair of all Police and Revenue buildings, up to a limit of Rs. 250, will be entrusted to the establishments under the orders of the Deputy Commissioners, and the responsibility for the due preservation and maintenance of the same will cease to rest with the officers and subordinates of the Public Works Department.

2. Work of this petty character, up to the limit specified, can, it is believed, be satisfactorily carried out, without the intervention of professional agency. To their private dwellings and property, taluk officials of all classes have such work and repairs executed, to their own satisfaction; they are in a position to procure Mestri contractors or village artizans for job work of the kind for themselves, and they are competent to pronounce whether the trivial work so done is properly done or not, when their own interests are concerned; they do not call in the assistance of a professional Mestri to frame estimates or prepare and pass bills—the men they employ for the job do that—and there is no reason why they cannot do the same in connection with the Government buildings they occupy or work in daily. Such being the case, Amildars should have no difficulty in compelling Government servants under their orders to arrange for small works and repairs of the character indicated, paying for the same on bills, prepared by the contractor or job-worker and certified to by the official concerned.

3. For this purpose lump sums, under the several heads of service, will now be placed at the entire disposal of the Deputy Commissioner of each District, who will distribute the same to the several Amildars in the proportion he thinks proper and in the form of an imprest. This imprest will be recouped periodically, and the imprest sheet will be the only form of account to be kept by the Amildar, who will simply attach thereto bills in the vernacular as vouchers for the outlay incurred, the correctness of these bills being certified to by a responsible official. Detailed measurements need not be taken nor recorded.

4. As regards the accounts to be rendered by the Deputy Commissioners to the Comptroller, further instructions will issue. The estimates, which will be sanctioned by the Deputy Commissioner, will be in the simple form of a Requisition, copies of which to meet immediate requirements will now be supplied. For each District, a temporary Mutsaddi, on Rs. 15 a month, to keep the accounts, correspondence, and records is now sanctioned.

5. The foregoing rules apply to the petty construction and repair of all Educational and Anche buildings. As regards Educational buildings the required repairs must be done by the various School-masters under the directions of the Educational Secretary, within the following money limits, namely Rs. 250 for the Central College, Rs. 100 for each District High School and Rs. 30 for each Taluk School. The petty construction and repair of Anche buildings must be carried out by the Anche Bakshi through the various Anche Inspectors and Mutsaddis. For this purpose lump sums will be placed at the disposal of the Educational Secretary and Anche Bakshi, who will distribute the same accordingly to actual need to the various officers of their respective Departments and be guided by the rules prescribed on this behalf or Amildars.

6. This measure is experimental. The Deputy Commissioners, the Educational Secretary and Anche Bakshi, will, at the end of official year, report as to its working, propose any modifications that may facilitate the work and secure efficiency, and recommend its being permanently established or discontinued. Where work is estimated, in the opinion of the official framing a requisition, to cost more than Rs. 250, the fact should be reported to the Public Works Sub-Divisional officer, whose duty it will then be to take up the work.

C. BOWEN, MAJOR, R. E.,
Secretary to the Govt. of Mysore, P. W. D.

To—All Deputy Commissioners of Districts.
The Executive Engineers of Divisions.
The Comptroller of Mysore.
The Examiner, P. W. Accounts of Mysore.
The Educational Secretary.
The Anche Bakshi.
The Inspector General of Police.

Circular No 82.

To

All Deputy Commissioners,

and Executive Engineers in Mysore.

CIRCULAR MEMORANDUM.

In continuation of Circular No. 56 of 7th June 1886, wherein it is prescribed that in all cases of damage or danger to tanks the annual revenue from which is less than Rs. 100, the Amildar will have the necessary repairs or work carried out *immediately* by the ryots, it is now ruled that in cases of emergency, when a ryot refuses to work or depute a representative to work for him, the Amildar will employ and pay the necessary labor, and in due course recover the amount so paid from the defaulting ryot as a revenue demand.

By Order,

C. BOWEN, *Major, R. E.,*
Secretary to the Govt. of Mysore,
Public Works Department.

PART II.

JUDICIAL.

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR THE MONTH OF JULY 1886.

No.	Subject and Order.	Date of Order.	Date of previous Orders.
1	In returning a certain enclosure, the District Magistrate of Mysore was requested to inform Krishnabhat that any representation he may wish to make regarding the jewel referred to should be made to the District Magistrate of Madura.	1st July 1886.	22nd June 1886, Part II, Judicial.

	Buildings.		
1	The Deputy Commissioner, Hassan District, was informed that there is nothing in the papers submitted by him to show that there is sufficient reason for pronouncing the present Taluk Cutcherry at Chamarajapatna to be in a dangerous condition, and that unless he can certify that it is useless as a cutcherry and cannot be rendered suitable at a moderate cost, a new cutcherry ought not to be built. The Deputy Commissioner was also asked to personally inspect the present building and report what improvements are practicable and necessary to render it suitable Communicated to the Executive Engineer, Hassan Division, with a request that he will also inspect the building carefully and submit such proposals as will meet requirements.	6th July 1886.	
	Communications.		
1	An estimate for constructing a bridge over the Herehalla at Saulanga on the 14th mile of Shimoga, Sorab-Sirsi road, was returned to the Executive Engineer, Shimoga Division, duly sanctioned for Rs. 7,966.—No. 3209—558.	16th July 1886.	
2	The Executive Engineer, Ashtagrama Channel Division, was requested to have the construction of bridges on the Mysore-Bagadi road over the Kukarhalli feeder put in hand at once and pushed on as rapidly as possible, pending the submission and sanction of an estimate for the work.—No. 3412.	29th do	
	Miscellaneous.		
1	The Superintendent, Mysore Revenue Survey, was informed that it would be sufficient to remove only such survey bundhs as are actually *on* the roads, or lie directly across the side or check drains, and to have the necessary rectification made also in cases of specified individual fields, where the prescribed margin is absolutely required for the purposes of the Public Works Department.—No. 3062—539.	6th July 1886.	
2	The Deputy Commissioners of Districts were requested to furnish lists of the travellers' bungalows where crockery and cooking utensils are absolutely required.—Circular No. 75.	Do do	
3	The Executive Engineers of Public Works Divisions were informed that this office Circular Nos. 22, 25 and 37, dated 15th and 18th February 1882 and 9th March 1882, requesting them to draw up a review of each of the most important public works carried out during the British Administration of the Mysore Province, may be considered cancelled.—Circular No. 74.	Do do	
4	A letter from Mr. Molloy, late Locomotive Superintendent and Superintendent, Way and Works, on the Mysore State Railway,	9th do	

No	Subject and Order.	Date of Order.	Date of previous Orders.
	regarding his position and prospects consequent on the transfer of the Railway to the Southern Mahratta Company, was submitted to the Assistant Resident in Mysore, for the consideration of the Resident and such action as he may deem necessary.—No. 1.		
	A copy of the "Preliminary Issue" of the Mysore Public Works Budget Estimates for the year 1886—87 with copy of notes by the Public Works Secretary and by the Dewan, was forwarded to Messrs. T. R. A. Thumboo Chetty, A. R Sabhapati Mudahar and P. Krishna Rao, Councillors to His Highness the Maharaja of Mysore, for consideration and any remarks they may wish to make.—Nos. 3355—57, 577—79.	26th July 1886.	
	The Vice President, City Municipal Commission, Bangalore, was informed that public funds cannot be spared at present for the enlargement and improvement of the Cubbon Park, and that it will be quite sufficient for the present if the owners of the gardens are required to screen off the unsightly mud buildings by suitable planting and if the mud wall on the Park side be done away with and a good live fence substituted. Communicated to the Superintendent of Cubbon Park and to the Inspector General of Forests, with a request that the latter officer will be good enough to take the necessary action as regards the live fence, &c.—Nos. 3421—23, 583—85.	30th do	
	Establishment.		
	Notified that Mr. Y. Srinivas Rao, Officiating Executive Engineer Kolar Division, has been granted privilege leave for eight days from the 19th to 26th June 1886.—No. 3.	12th July 1886.	
	Notified that Mr. Standish Lee, Sanitary Engineer to Government, has been appointed Officiating Executive Engineer in charge of "Mysore Special Improvement Temporary Division," which Division has been constituted from the 20th July 1886. Communicated to Mr. Standish Lee, also to Executive Engineer, Mysore Division, and Examiner, Public Works Accounts.—Nos. 3305—8, 569—72.	23rd do

REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th August 1886.

EAD THE FOLLOWING PAPERS :—

Tumkur Deputy Commissioner's No. 107, dated 28th May 1886.
Amrut Mahal Officer's No. 113, dated 15th July 1886.

No. 3997-8—99, DATED BANGALORE, 11th AUGUST 1886.

ORDER THEREON.—The "Kadah gadde Kaval" is, the Dewan is of opinion, too luable to be left permanently as an Amrut Mahal Kaval. As a temporary measure, ortions of it were given out for cultivation last year and realized a revenue of s. 1,398—2—0. The land is well situated for agricultural purposes, and there is een competition for it ; the Government are at present improving the tank and sub-diary irrigation works connected with it at a large outlay. It is undesirable, under ich circumstances, that the land in question should be allowed to continue to be mparatively unproductive as a kaval. Considerations of increased revenue apart, xtension of cultivation and increased production of food grains have such a strong fluence on local prosperity that the Dewan considers the present a proper case in hich the Kaval should be given up for cultivation. He would therefore feel obliged the Officer in charge of the Amrut Mahal Department will make the needful rrangements accordingly.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Officer in charge of the Amrut Mahal Department.
The Deputy Commissioner, Tumkur District.

PART I.

FINANCIAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 7th August 1886.

READ—

Letter No. 783—149, dated 3rd July 1886, from the Deputy Commissioner, Hassan District, requesting instructions as to the rate of travelling allowances allowable to Probationary Assistant Commissioners.

No. 3810-18—112, DATED 7TH AUGUST 1886.

ORDER.—Probationary Assistant Commissioners are entitled to the same rates of batta and mileage as Assistant Commissioners.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Comptroller.
The Deputy Commissioners of Districts

READ THE FOLLOWING PAPER :—

Report on the Working of the Minor Municipalities of the Bangalore District for the year 1885—86.

1. *Finance.*—The jamabandi for the year was for Rs. 15,615—13—6½ and with the previous year's balance of Rs. 6,103—6—0, the total for collection was Rs. 21,717—3—6½. Of this, Rs. 14,772—13—6½ were collected, leaving a balance of Rs. 6,944—6—0 at the close of the year under report.

2. The following statement shows particulars of the revenue, as compared with the figures of the previous year. There has been a net decrease of Rs. 2,072—8—2 due entirely to the abolition of octroi under orders of Government.

	Heads of Income.	1884—85.			1885—86.			Increase.			Decrease.			
1.	House Tax	5,251	11	0	5,282	12	6	31	1	6	...	...	...	
2.	Shop do	3,511	4	½	3,831	12	0	320	7	11½	...	...	...	
3.	Loom do	1,546	12	0	1,562	4	0	15	8	0	...	...	...	
4.	Oil Mills	421	0	0	405	8	0	...	...	...	15	8	0	
5.	Cart Tax	705	8	0	686	8	0	...	...	...	19	0	0	
6.	Betel-Leaves	380	5	1	166	8	9½	...	...	...	213	12	3½	Octroi.
7.	Green Cocoanuts ...	283	5	8	133	11	4¼	...	...	...	149	10	3¾	
8.	Dry do	55	10	10	25	1	7½	...	...	...	30	9	2½	
9.	Tobacco	204	2	7	178	10	1	...	...	...	25	8	6	
10.	Fines for cattle trespass ...	1,139	8	4	779	1	7	...	...	...	360	6	9	
11.	Sales of cattle ...	...	...	...	643	13	9	643	13	9	...	...	...	
12.	Miscellaneous ...	4,167	2	2	1,918	1	10	...	...	...	2,249	0	4	
	Total.....	17,686	5	8½	15,613	13	6½	1,010	15	2½	3,083	7	4½	

3. The increase under "Shop Tax" is due to the revision of the assessment at Closepet. The Assistant Commissioner of the Closepet Sub-Division has been making a revision of the "Shop Tax" in all the Municipalities, to which naturally most of the merchants object. All appeals have been referred by me to the several Municipal Boards in the first instance. The decrease under 10 "Fines for Cattle Trespass" is more than made up by increase under its following head of "Sales of Cattle" from which source there was no increase in the year previous. The abnormal increase shown for the previous year under "Miscellaneous" was explained in last year's report, para 4. Differences under other heads fluctuate and call for no remarks.

4. The following statement shows details of expenditure during the year under report :—

Heads of Charge.	1884—85.			1885—86.			Increase.			Decrease.		
	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.
Charges on collection	313	10	10	178	11	6	...	...	...	134	15	4
Head Office charges	230	0	0	240	0	0	10	0	0	...	...	...
Original Works	11,242	8	11	4,373	6	4	...	...	...	6,869	2	7
Repairs	3,656	15	1	2,252	11	10	...	...	...	1,404	3	3
Compensation	318	3	0	91	0	0	...	...	...	227	3	0
Conservancy	3,571	11	11	3,823	8	2	251	12	3	...	...	...
Dispensaries	114	14	0	266	7	9	151	9	9	...	...	...
Lighting	848	5	11	723	11	5	...	...	...	124	10	6
Educational	161	0	0	794	11	4	633	11	4	...	...	...
Miscellaneous	3,052	10	0	694	7	0	...	...	...	2,358	3	0
Total.....	23,509	15	8	13,438	11	4	1,047	1	4	11,118	5	8

5. The net decrease has been Rs. 10,071—4—4, and the greater portion of it was under original works.

6. As all the payments have been made with previous sanction, no separate explanations are needed for them here. But it may be briefly noted that decrease under the first head is due to the abolition of octroi and under the heads "Original Works," "Repairs" and "Compensation," due to heavier payments having been made in the previous year for works carried out in the preceding one (1883—84). Lighting was reduced in some towns under the orders of the Dewan (*vide*) Proceedings No. 3048-52—100, dated 27th August 1885). Hence decrease. That under the last heading, *i. e.* "Miscellaneous," is due to their having been fewer recredits in the Taluk Treasuries at the close of the year. Endeavours will be made to push on with imporvements in all the towns this year.

7. *Incraerse.*—Increase under the items "Head Office Charges" and "Conservancy" is due to extra establishment having been entertained; and that under "Dispensaries" and "Educational" for repairs, &c., of the buildings having been carried out.

8. *Cash Account.*—There was a balance of Rs. 24,134—14—4 at close of 1884—85 at credit of the several Municipalities. During the year Rs. 14,772-13-6½ were collected, totalling Rs. 98,907—11—10½ at credit. Out of this Rs. 13,438-11-4 were expended, as per above statement, leaving a balance of Rs. 25,469—0—6½ at close of the year under reprt.

9. Details of "Original Works" and "Repairs" carried out in the several Municipalities of the District are summarized in the following statement:—

Municipality.	Original Works.	Amount.			Repairs.	Amount.		
		Rs.	A.	P.		Rs.	A.	P.
1. Yelahanka ...	Drains and lamp posts.	100	0	0	Road repairs ...	100	0	0
2. Kengeri ..	Do ...	100	0	0	Do ...	160	4	4
3. Hoskote ...	...	...	...	...	Do ..	212	14	1
4. Dodballapur ...	Market shed ...	581	9	10	Do ...	100	0	0
5. Nelamangala ...	Drains ...	300	0	0	Do ...	142	10	5
6. Tyamagondlu ...	Do ...	290	0	0	Do ...	115	0	6
7. Kankanhalli ...	Drains and roads ...	112	10	0	Digging side drains ...	160	0	0
8. Magadi ...	Drains ...	500	0	0	Road repairs ...	276	6	0
9. Closepet ...	...	...	...	...	Do ...	295	6	5
10. Channapatna ...	Drains and roads ...	1,000	0	0	Do ...	220	0	0
11. Anikal ...	Do lamp posts ...	746	2	6	Roads and drain repairs.	105	13	0
12. Sarjapur ...	...	...	...	...	...	...	...	...
13. Dommasandra ...	Roads and drains ...	143	0	0	Roads ...	75	0	0
14. Kunigal ...	Market work, ...	400	0	0	Reconstructing drains ...	248	4	0
15. Huliyurdurga ...	Drains ...	100	0	0	Road repairs ...	101	1	7
Total.....	Original ...	4,373	6	4	Repairs ...	2,252	11	10

10. Rupees 300 were provided for a Dispensary at Hoskote; but as the estimate was not received sanctioned, the amount lapsed.

11. A provision of Rs. 200 was made under original works for Closepet, but as there was very little money at its credit it had to be given up. Likewise Rs. 200 were provided for original works at Sarjapur, but as the old cutcherry here could not be utilized, the works was not carried out. No provision was made for repairs there during the year under report.

12. Excepting the above, works have been carried out in other the Municipalities satisfactorily.

13. *Conservancy and Sanitation.*—Continue to receive much attention in each Town, and the sustained efforts of each minor Board have resulted in securing greater cleanliness generally. But much yet remains to be done. Fresh source of income will have to be devised before long to meet increased necessary expenditure.

14. *Medical.*—A new Dispensary has been opened at Channapatna and this has proved to be of great public benefit. It is dicided to have another at Anekal. The Dispensary at Kankanhalli is about to be opened. The remaining taluks of the District where medical aid is badly required are Nelamangala, Hoskote and Devanhalli.

15. *Educational.*—The English school at Dodballapur had to be closed under instructions from the Educational Secretary (*vide* his No. 3269 of 12th February last). An English school at Kankanhalli has since been opened, and a grant of Rs. 8 a month has been made for the Sanskrit school at Dodballapur. A grant of Rs. 7 a month was also made to the London Mission here for a Canarese school at Dommasandra.

16. *General Remarks.*—Several of the Amildars have shown great interest in the working of the Municipalities under their control. Many of them however report that the members of the Municipal Boards care very little about the work and nearly all of it devolves upon them. I have submitted the names of several new members for each Board, as most of them had been on a long time. A point on which I am making a separate reference to Government is about the kandayam of lands situated within the Municipal limits being credited, in certain cases, to the Municipalities. Endeavours are being made to have a garden with fruit and other trees in it, made in each Municipality.

17. One of the greatest improvements that have of late years been made according to the inhabitants of the Towns themselves is, lighting. Funds do not permit of this being much extended; but still in every Municipality where some lamps have been placed, all the inhabitants express their appreciation of the improvement.

No. 3953-60—193, DATED 10TH AUGUST 1886.

ORDER THEREON.—Recorded.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner, Bangalore District.
The Deputy Commissioners of other Districts.

PART I.

GENERAL.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 2nd August 1886.

READ—

Mysore Deputy Commissioner's letter No. 171, dated 2nd June 1886, reporting on the petition of Venkatsubbaiya of Gundlupet Taluk.

No. 3796-3804—129, DATED BANGALORE, 2ND AUGUST 1886.

ORDER THEREON.—The Dewan regrets that he was misled by the statement in the petition that the Deputy Commissioner had directed Venkatsubbaiya to file a civil suit to establish his rights.

2. The question of "Mirasi" is one which should be disposed of by the Deputy Commissioner after enquiry by an execution order. The sum directed to be paid by such execution order should be recovered as a revenue demand and paid to the party entitled to it.

3. Beyond this it is not possible at present to lay down any rule whether such cases should be dealt with on the miscellaneous side.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioner of the Mysore District with record.
The Deputy Commissioners of other Districts.

No. 4138-40—154, DATED BANGALORE, 19TH AUGUST 1886.

ORDER.—There is reason to believe that in unsettled taluks where the date trees on occupied lands belong to Government, some Deputy Commissioners and subordinate Revenue officers not unfrequently decline to prosecute persons who unauthorizedly fell and remove such trees, leaving such prosecution wholly to the Government toddy contractors, as if it were a matter in which the Government had no interest of any kind. The utter shirking of responsibility implied by such procedure has, the Dewan hopes, only to be pointed out to prevent it altogether in the future. The Deputy Commissioners will issue needful instructions to subordinate Revenue officers accordingly.

R. VIJAYINDRA RAO,
Chief Secretary.

To—The Deputy Commissioners of Bangalore, Kolar and Mysore Districts.

PART II.

JUDICIAL.

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR THE MONTH OF AUGUST 1886.

No.	Subject and Order.	Date of Order.	Date of previous Orders.
1	In reply, the Resident was informed that if after consideration of this office letter No. 3418—208, dated 27th July 1886, and the Tumkur Deputy Commissioner's letter a copy of which was therewith sent regarding the theft of certain timber the Resident should still be of opinion that the case was of such a trivial nature as not to call for the rendition of the accused persons, the Dewan would drop the matter altogether rather than prosecute the offenders before a Magistrate in British India as such a course would entail an amount of inconvenience out of proportion to the gravity of the offence involved.	2nd Aug. 1886.	27th July 1886, Part II, Judicial.
2	A notice was returned to the Assistant to the Resident unserved, as Kadar Saib therein mentioned was not be found either in the Mysore City or at Ganjam.	3rd do	30th April 1886, Part II, J.

19	A notification investing Mr. B. K. Venkatvaradaiengar, Sub-Division Magistrate, French Rocks, under Section 37 of the Code of Criminal Procedure Act X of 1882, with power to call for records under Section 435 of the said Code, was gazetted.—Communicated to the Chief Judge.	Do do	
20	In reply, the Munsiff of Kolar was informed that the number of jadhti account of Siddharti referred to was not found in the records of this office but one for Parabhava could be had if the party referred to wanted to summon the same.	16th do	
21	In reply, the District Magistrate of Chitaldroog was informed that the Copy Right Act had been published in the supplement to the Mysore Gazette of the 26th October 1867 as notification No. 176.	Do do	
22	The Assistant to the Resident was requested to issue a warrant to the Commissioner of Police, Bombay, for the arrest and surrender of Narasimmaiya.	Do do	

No.	Subject and Order.	Date of Order.	Date of previous Orders
23	Extracts from the sentences passed in certain criminal cases were forwarded to the District Magistrate of Kolar.	16th Aug. 1886.	
24	The memorial addressed to His Highness the Maharaja by Maiga and Imam Bi were returned to the Chief Judge with the orders passed by His Highness declining to interfere with the sentence of death passed upon the said prisoners.	17th do	
25	A summons received from the Court of Small Causes, Madras, was forwarded to the District Judge, Mysore, for service and return.	18th do	
26	The careful attention of all District Officers was drawn to notification No. 27, I. P. of the Government of India Foreign Department, dated 7th January 1880, published in the Mysore Gazette page 23 to 31 pointing out the Sections of the Indian Arms Act which have not been extended to Mysore, and they were informed that Police Officers in Mysore were not by virtue of their office competent to import arms, &c., direct, that application for arms, &c., required must be made through the Inspector General of Police to the Dewan for the necessary supplies being imported into Mysore from British India under licenses to be obtained from the British Resident.—Communicated to the Inspector General of Police.	Do do	3rd July 1886, Part II, Judicial.
27	Messrs. Thacker Spink and Co. were requested to send, in addition to the copies of the Indian Law Reports subscribed for by this Government, another copy to the Sub-Judge of Mysore, a bill being submitted to this Office.—Communicated to the Registrar of the Chief Court.	29th do	
28	A notification investing Mr. T. J. Vanderlowen, Munsiff and 2nd Class Magistrate, Chikmagalur, with the powers of Magistrate of Police under Act XIII of 1859, was gazetted.—Communicated to the Chief Judge and the Deputy Commissioner of the Kadur District.	Do do	
29	In forwarding certain correspondence between this office and the Chief Court, the Government Advocate in Mysore was requested to conduct before the Chief Court the prosecution against Ramaswamaiengar and Munsiff Magistrate of Honnali now under suspension in the matter therein referred to, and the Registrar of the Chief Court was requested to furnish the Government Advocate with all the papers required by him to conduct the prosecutn.	20th do	
30	Sanction was accorded to the remissions of portions of the sentences passed upon convicts Narasimmaiya, Timmaiya and Sivaiya of the Central Jail, and their release on the 9th and 12th and 30th September 1886.—Communicated to the Inspector General of Prisons.	Do do	
31	The District Magistrate of Bangalore was requested to submit the records connected with the Nundydroog Sessions Case No. 5 of 1878 at an early date.	21st do	
32	A copy of letter No. 2355—4946, dated 18th August 1886, from the Assistant to the Resident, stating that a warrant had been issued to the Commissioner of Police, Bombay, for the surrender of Narasimmaiya, was forwarded to the Deputy Commissioner of the Bangalore District.	Do do	16th instant, Part II, J.
33	In forwarding a copy of docket No. 302—293 of the 18th instant, from the Deputy Commissioner of the Shimoga District, together with original copies of interrogatories therewith received, the Assistant to the Resident was requested to issue a commission for the examination of the witnesses mentioned who were said to be residing at Bellary, and a return made to this office as early as practicable.	23rd do	
34	With reference to Dewan's Proceedings No. 2054—47, dated 10th June 1886, prescribing the manner in which applications should be submitted for the arrest and surrender of persons under the Extradition Act, the Deputy Commissioners of Districts were requested to submit in future English translations also of vernacular	Do do	11th Aug. 1886, Part II, J.

No.	Subject and Order.	Date of Order.	Date of previous Orders.
	evidence and other material papers to facilitate the issue by the Resident of the necessary warrants and to save delay.		
35	A copy of letter No. 2354—5106, dated 18th instant, from the Assistant to the Reident, regarding the surrender of Frappa, was forwarded to the Deputy Commissioner of the Shimoga District.	23rd Aug. 1886.	11th Aug. 1886, Part II, J.
36	With reference to his letter No. 3931—80, dated 7th instant, the Chief Judge was informed that all the magistrates therein recommended for taking down the evidence of complainants and witnesses with their own hand in the Canarese language, appeared to be Natives of Mysore whose mother tongue was Canarese and that as such they were required under the Chief Commissioner's Notification No. 389, dated 27th March 1878, to take down the evidence in the Canarese language; that in the case of the Subordinate Magistrates, the Dewan thought it a right principle in a Native State to maintain as far as possible Canarese as the language for the record of evidence, but that if in the case of the magistrates named in the letter referred to above, special reasons existed for requiring them to take down the evidence in English, the same should be submitted to this office.	Do do	
37	A notification investing P. Singrachar, Munsiff of Nanjangud, with the powers of Magistrate of the second class, with power to commit for trial to a Court of Sessions and power to pass sentence of whipping and directing him to take down the evidence of complainants and witnesses with his own hand in the English language, was gazetted.	24th do	
38	The return of sick prisoners in the Jails of the State for July 1886, was forwarded to the Assistant to the Resident.	25th do	
39	Two licenses under the Indian Arms Act were returned to the Deputy Commissioner of the Shimoga District duly countersigned.	Do do	
40	A copy of letter No. 757—149, dated 23rd instant, from the Inspector General of Police together with that of his enclosures regarding the neglect of the station officer, &c., of Hosur in the Shikarpur Taluk to render proper assistance in escorting certain prisoners, was forwarded to the Assistant to the Resident.	Do do	
41	Sanction was accorded to the remission of three months and five days of the sentence passed upon convicts Kalla Govinda of the Mysore Jail and his release on the 25th September 1886.	29th do	
42	A notification investing B. Lakshminarayappa, Amildar of the Koppa Taluk, with the powers of a Magistrate of the 2nd Class, was gazetted.—Communicated to the Chief Judge.	Do do	
43	A license under Indian Arms Act granted to Abdul-Aziz Sahib of Gubbi was returned to the Deputy Commissioner of the Tumkur District, duly countersigned.	31st do	

OFFICE OF THE DEWAN OF MYSORE,
Bangalore, 31st August 1886.

R. VIJAYINDRA RAO,
Chief Secretary.

PART II.

REVENUE.

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR THE MONTH OF AUGUST 1886.

No.	Subject and Order.	Date of Order.	Date of previous Orders.
1	Sanction was accorded to the land occupied by a house built by Guramanjaiya of the village of Vasani in the Nagar Taluk, being split into a separate number and entered in his khata and to his being made liable for the payment of the assessment thereon annually, *viz.* Rs. 1—12—0.—Communicated to the Deputy Commissioner of the Shimoga District and the Survey Superintendent.	2nd Aug. 1886.	
2	Orders were passed on a petition from Narasirgaiya of Hallegere in the Maudya Taluk to the effect that petitioner must continue in the office of Shanbhogship of the village as heretofore.— Communicated to the Deputy Commissioner of the Mysore District.	Do do	
3	The Deputy Commissioners of Districts were requested to dispose of the current year's hulbanni at an early date in accordance with the last year's arrangement and submit before the end of December next a report embodying the financial results obtained during the 3 years of 1884—85, 1885—86 and 1886—87, expressing their views regarding the introduction of the proposed pasture rate together with a statement in the form sent.	Do do	
4	The writing off of irrecoverable balances amounting to Rs. 4,837—6—3 was sanctioned and communicated to the Deputy Commissioner of the Kadur District, and the Deputy Commissioner of the Hassan District was requested to furnish the Deputy Commissioner of the Kadur District with certain information regarding the village of Uggihalli transferred from the Manjarabad Taluk to the Mudagere Taluk.	Do do	
5	Two manuscript copies of the return of prices current of food grains and salt in the Mysore State for the fortnight ending 15th July 1886, were forwarded to the Assistant to the Resident.	Do do	
6	Mr. W. Morgan, Madras, was informed of the despatch of two copies of each of the maps of certain blocks of land.	3rd do	
7	In forwarding docket No. 291, dated 22nd July 1886 from the Deputy Commissioner of the Mysore District together with its enclosure (to be returned), the Inam Superintendent was requested to submit an extract from the settlement register showing the circumstances under which the Dabbagatta kaval had been resumed.	5th do	
8	The Deputy Commissioner of the Bangalore District was requested to cause a careful enquiry to be made as to the persons by whom the date trees included with the boundaries of the Kamplapur and Halaganahalli tanks had been unauthorizedly felled and to prosecute the offenders if sufficient evidence should be forthcoming against them and to submit certain further information on the subject, and informed that the statement of lands containing date trees should be submitted within 3 months from the date of this order.	Do do	
9	In reply, the Deputy Commissioner of the Mysore District was informed that the date trees on the banks of the Rampur Channel, Nanjangud Taluk, should not be removed unless they interfere with the flow water in the channel or with the work of improvement in progress or unless absolutely necessary for the safety of the channel	Do do	

No.	Subject and Order.	Date of Order.	Date of previous Orders.
	and the Secretary, Public Works Department, was requested to issue the necessary orders on the subject.		
10	The Assistant to the Resident was requested to obtain from the Madras Government a copy of their letter No. 3475, dated 16th September 1885 to the late Chief Commissioner of Mysore on the owners of cattle being permitted to graze their herds on Government Amrut Mahal Kavals.	5th Aug. 1886.	
11	The Deputy Commissioner of the Shimoga District was requested to state if the rate of two annas allowed in the Revenue Survey Manual for preparing boundary marks of occupied lands was considered inadequate in the Malnad portion of his District.	Do do	
12	In reply, the Assistant to the Resident was informed that the percentage of the cost of the Bangalore distillery establishment chargeable to the Civil and Military Station of Bangalore had been fixed with reference to the consumption of arrack in the Station.	Do do	
13	The Assistant to the Resident was informed that the pujari of Venkataramanaswami temple in the fort of Bangalore had been served with a notice by the Municipality of the Civil and Military Station to repair the compound wall of the temple and that the repair of the temple was a proper charge on the funds of the muzarayi Department of the Civil and Military Station.	6th do	
14	Sanction was accorded to the remission of one-fourth of the wet assessment on Dyavaranganakere and three other private tanks in the Attikuppa Taluk in consideration of their up-keep by the individuals concerned—Communicated to the Deputy Commissioner of the Mysore District and the Survey Superintendent.	Do do	
15	In reply, the Deputy Commissioner of the Chitaldroog District was informed that the sale of the bed of the Dorasamudra tank in the Molakalmuru Taluk should be cancelled and the pasturage sold yearly, the condition being that no damage should be done to the trees in the bed.	Do do	
16	The action taken by the Deputy Commissioner of the Tumkur District in levying half the assessment on lands below the breached Horur tank from the date of the survey settlement and remitting the other half, was approved.	Do do	
17	The Deputy Commissioner of the Chitaldroog District was informed that survey Nos. 79 and 81 in the village of Dabbagatta in the Holalkere Taluk should be resumed to Government as they contained a large number of date trees.	Do do	
18	The annual report on the excise revenue of the Kadur District with statements for the year 1885—86 and the excise statements of the Mysore District for the same year, were forwarded to the Superintendent of the Mysore Government Press to be printed.	Do do	
19	The restriction placed upon the grant of lands containing date trees for cultivation by Proceedings No. 2827—57, dated 21st August 1883 and Proceedings No. 3593—91, dated 11th September 1884 being too general and it being necessary that it should be confined to topes actually required for the purpose of toddy contract, the Deputy Commissioners of Districts were requested, in consultation with the toddy contractors, to cause a statement to be prepared in the form sent showing the situation, numbers, extent and assessment of lands from which toddy is drawn whether such lands be in possession of ryots or Government.	Do do	
20	In reply, Messrs. Arbuthnot and Co were informed that the lands referred to by them belonged to the jodi village of Pattandur in the Bangalore Taluk and that no duty or royalty would be levied by Government on kaolin clay used therefrom for the purposes of manufacture.	7th do	

No.	Subject and Order.	Date of Order.	Date of previous Orders.
21	The sale of the right of collecting kuranga stones in the Goribidnur Taluk for the current year to Pleader Yekambra Mudaliar for Rs. 290, was confirmed ——Communicated to the Deputy Commissioner of the Kolar District and the Comptroller.	7th Aug. 1886.	
22	In reply, the Deputy Commissioner of the Mysore District was informed that the issue of monthly supplies to Nchamidars was not a proper appropriation of the funds set apart for chuttrums, and that though it was undesirable to stop such supplies to the Nchamidars suddenly, yet on their death the supplies should never be continued to their heirs and that no name should be newly added to the list of Nchamidars.	9th do	
23	With reference to annual returns class 8, No. 7 for 1885—86, the Deputy Commissioner of the Mysore District was requested to furnish the details of the sum of Rs. 439—2—8 shown to be the receipts from the sale of service register books and survey receipt forms.	Do do	
24	The Deputy Commissioner of the Kadur District was requested to explain certain items in annual returns class 8, Nos. 7 and 8 for 1885—86.	Do do	
25	In forwarding certain papers connected with the case of Jaganmohan Krishnachar of the Tirumakudlu-Narsipur Taluk, the Inam Superintendent was requested to take the case on file and dispose of it on its merits, as the inam land referred to seemed to have resumed on insufficient grounds.	10th do	
26	In reply, Mr. Anthony Joseph, Merchant, Trevandrum, was informed that Captain O. W. Gray's lease appeared to have been registered as No. 36 of 1883—84 on the books of the District Registrar of Bangalore.	Do do	
27	Five copies of the maps of the Balaghat and Centre Nos. 4, 5, 6 and south blocks were forwarded to Mr. H. Morgan, Madras.	11th do	
28	Two revenue demand notices in duplicate were forwarded to the Assistant to the Resident to be served on Mr. A. H. Batchelor and Deputy Surgeon General J. Ross residing at Ootacamund.	Do do	
29	Sanction was accorded to the alienation of certain land in Sonahalli in the Heggaddevankote Taluk for building purposes.—Communicated to the Deputy Commissioner of the Mysore District and the Survey Superintendent.	Do do	
30	In reply, the Assistant to the Resident was informed that the agricultural statistics referred to would be annually furnished by the Durbar.	12th do	
31	Sanction was accorded to the alienation of certain land to be made over to the Public Works Department for the construction of the Melanahalli tank in the Chiknayakanhalli Taluk, and the remission of the assessment thereon—Communicated to the Deputy Commissioner of the Tumkur District and the Survey Superintendent.	13th do	
32	In acknowledging the receipt of a cheque for Rs. 109, Mr. W. Morgan was informed of the despatch of the revised lease for the Coramandal block.	Do do	
33	The Deputy Commissioner of the Hassan District was requested to explain certain discrepancies in the demand, collection and balance returns for April, May and June 1886.	Do do	
34	Sanction was accorded to the alienation of certain land in favor of the Tigalars of Gubbi for building purposes and also to the remission of the assessment thereon.—Communicated to the Deputy Commissioner of the Tumkur District and the Survey Superintendent.	16th do	

No.	Subject and Order.	Date of Order.	Date of previous Order
35	Two manuscript copies of the return of prices current of food grains and salt in the Mysore State for the fortnight ending 31st July 1886, were forwarded to the Assistant to the Resident.	16th Aug. 1886.	
36	A file of papers together with arzi No. 1546, dated 5th August 1886 from Timmappaiya of Chilkunda, Hunsur Taluk, was transferred to the Secretary, Public Works Department, in order that the channels therein referred to may be professionally examined and the channel most useful for irrigation purposes alone may be maintained.	Do do	
37	A statement received from the President, Municipal Commission, Civil and Military Station of Bangalore, showing the amount of octroi collections in the Civil and Military Station and Town of Bangalore during July 1886, was forwarded to the Deputy Commissioner of the Bangalore District.	17th	
38	The Secretary, Public Works Department, was requested to forward certain file of papers relating to the Hulyar Anckat for reference.	Do do	
39	In reply, the Deputy Commissioner of the Mysore District was informed that the returns of agricultural statistics annually submitted were required in addition to those now submitted for 1885—86.	18th do	
40	In reply, the Deputy Commissioner of the Mysore District was requested to submit the criminal records relative to certain dams unauthorizedly raised by Bhima Narasimhachar of Mandya.	19th do	
41	A notification regarding the sale of certain jodi and kayamgutta villages in the Kolar and Kadur Districts was forwarded to the Compiler of the Mysore Gazette for publication in English and Canarese in 3 successive issues of the Gazette.	Do do	
42	Do do to the Proprietors of the Bangalore Daily Post and Spectator.	Do do	
43	For the purpose of facilitating the early preparation of the lists of date groves required to be conserved for the purposes of the toddy of revenue, the Deputy Commissioner of the Mysore District was authorized temporarily to employ Chitambraiya (formerly employed under the Mysore toddy contractors) on a salary of Rs. 20 a month till the end of December next, and informed that Chitambraiya must visit each taluk and point out to the Amildars every date grove from which toddy was now drawn, that the taluks already settled should be first visited, those under survey next and the others last.	Do do	
44	Sanction was accorded to the alienation of certain land in favor of Siddegauda and others of Hosahalli in the Sidlaghatta Taluk and to the remission of assessment thereon.—Communicated to the Deputy Commissioner of the Kolar District and the Survey Superintendent.	20th do	
45	Copies of statements showing particulars of lands granted for mining purposes to Messes. McDowell and Company of Madras under leases executed on the 19th August 1886, were forwarded to the Deputy Commissioner of the Mysore District with the intimation that the assessment thereon was payable from 1886—87.	21st do	
46	Five statements of daily rain-fall in Chitaldroog and certain other stations during July 1886, were forwarded to the Meteorological Reporter to the Government of India.	23rd do	
47	Sanction was accorded to the remission of Rs. 1—15—10 in favor of the jodidar of Bettagirihalli in the Mulbagal Taluk.—Communicated to the Deputy Commissioner of the Kolar District.	Do do	
48	In returning the inam register of the village of Dalbagatta together with a sannad and certain accounts, the Inam Superintendent was requested to revise the case with reference to the sannad and accounts, a fresh decision on the merits of the case being necessary.	Do do	5th Aug. 1886, Part II, R.

No.	Subject and Order.	Date of Order.	Date of previous Orders.
49	Sanction was accorded to the restoration of the inam land belonging to the temple of Mari at Tumbala in the Tirumakudlu-Narsipur Taluk.—Communicated to the Survey Superintendent and the Deputy Commissioner of the Mysore District.	23rd Aug. 1886.	10th July 1886, Part II, R.
50	Certain instructions were issued to the Deputy Commissioner of the Bangalore District regarding the recovery of the arrears of duty on beer due by Mr. Abraham.	24th do	
51	In forwarding a copy of letter No. 253, dated 7th instant from the Vice-President, Bangalore City Municipality, the Deputy Commissioner of the Bangalore District was requested to submit early statements of land revenue due to that Municipality for the years 1884—85 and 1885—86.	Do do	
52	Sanction was accorded to the alienation of survey No. 24 in the village of Kadavagere in the Sira Taluk in favor of Patel Lingegauda for the purpose of building a public chuttrum at his own cost, and the Deputy Commissioner was requested to submit for the Dewan's approval and signature a duly stamped sannad to be granted to the Patel.	Do do	
53	Sanction was accorded to the remission of the fine of Rs. 20 imposed on Shamanna of Virachannenahalli in the Chikballapur Taluk for having cut and removed the trees standing on a piece of land sold to him.—Communicated to the Deputy Commissioner of the Kolar District.	Do do
